

**TEXAS DEPARTMENT OF CRIMINAL JUSTICE
JOB DESCRIPTION**

POSITION TITLE: MAINTENANCE SUPERVISOR III -
Farm Shop

SALARY GROUP: A16

DEPARTMENT: Agribusiness, Land and Minerals

Page 1 of 4

CERTIFICATION: I certify that, to my knowledge, this is an accurate and complete description of the essential functions and the conditions required for this position.

APPROVED BY: Matt Demny DATE: 03/15/2016

POSITION #: 023054

I. JOB SUMMARY

Performs highly complex maintenance and supervisory work in farm shop operations. Work involves overseeing maintenance staff involved in the installation, care, and repair of state facilities and equipment. Works under limited supervision with considerable latitude for the use of initiative and independent judgment.

II. ESSENTIAL FUNCTIONS

- A. Oversees and participates in scheduling the preventive maintenance program for farm equipment, heavy equipment, automobiles, and trucks; initiates requisitions for materials and supplies; and maintains adequate inventories of various expendable items.
 - B. Participates in the execution of an audit program for the internal control structure of farm shops; coordinates and maintains record keeping and filing systems; and prepares reports and maintains records of repairs.
 - C. Observes and enforces safety and security practices; oversees monthly safety meetings for employees and offenders; prepares and reviews inspection findings and reports results to management; and instructs employees and offenders in farm shop policies and procedures.
 - D. Oversees the supervision of offenders in the maintenance and repair of equipment.
 - E. Assists in maintaining security of assigned offenders.
- * Performs a variety of marginal duties not listed, to be determined and assigned as needed.

III. MINIMUM QUALIFICATIONS

A. Education, Experience, and Training

1. Graduation from an accredited senior high school or equivalent or GED and three years full-time, wage-earning mechanical experience involving the maintenance and repair of diesel or gas-burning equipment or farm implements

or

ninety semester hours from a college or university accredited by an organization recognized by the Council for Higher Education Accreditation (CHEA) or by the United States Department of Education (USDE) with six semester hours of farm equipment repair courses

or

graduation from an accredited technical school with a certificate(s) in the field of internal combustion engine repair or maintenance or farm implement maintenance and repair and one year full-time, wage-earning mechanical experience involving the maintenance and repair of diesel or gas burning equipment or farm implements.

2. Experience in the supervision of employees or offenders preferred.

Must have or be able to obtain a current Environmental Protection Agency approved Type 609 Universal Refrigerant Recovery and Recycling Certification within six months of employment date.

Selected applicants without required license(s) must sign a *Credential Contingency Agreement* that will remain in effect only until the initially established expiration date. Failure to comply with this contingency statement will result in separation from employment. *Credential Contingency Agreements* will not be extended or renewed as a result of an employee's separation from employment or acceptance of another position.

Must maintain valid certification for continued employment in position.

B. Knowledge and Skills

1. Knowledge of the operation, maintenance, and repair of mechanical systems such as hydraulics, electronics, and major and minor engine and transmission components, with emphasis on farm equipment including implements.
2. Knowledge of inventory management to include procurement, stocking, and sales methods.
3. Knowledge of safety procedures and applications including the management of hazardous materials.
4. Knowledge of agency and departmental organizational structure, policies, procedures, rules, and regulations preferred.
5. Skill in the operation, maintenance, and repair of mechanical systems such as hydraulics, electronics, and major and minor engine and transmission components, with emphasis on farm equipment including implements.
6. Skill to diagnose mechanical problems of various pieces of equipment and instruct the proper repair.
7. Skill in the use of metallurgy and welding techniques to include mig, stick, and oxygen/acetylene, for the repair and limited fabrication of equipment.
8. Skill in inventory control methods and the operation of computers.
9. Skill to communicate ideas and instructions clearly and concisely.
10. Skill to interpret and apply rules, regulations, policies, and procedures.
11. Skill in the use of computers and related equipment in a stand-alone or local area network environment.
12. Skill to prepare and maintain complex records and files in an automated system.
13. Skill to train and supervise offenders.
