VICTIM SERVICES DIVISION MISSION AND HISTORY

The mission of the Victim Services Division (VSD) is to provide a central mechanism for crime victims to participate in the Criminal Justice System.

The VSD was first established as a section in the Parole Division of the Texas Department of Criminal Justice (TDCJ) in 1993. The creation of the Victim Services Section was a result of crime victims requesting services, the foresight of staff and the passage of crime victims' rights by the Texas Legislature.

The initial responsibility of the section was to notify crime victims, whose offenders were incarcerated within the TDCJ Correctional Institutions Division (CID), of the offender's status. The number and types of notifications, some of which are legislatively mandated, have grown throughout the

years to over 80 notifications for crime victims, surviving family members, witnesses who testified at trial and concerned citizens. In addition to the written notification services, a toll-free hotline and automated telephone services are also provided by the VSD.

The Victim Offender Mediation Dialogue (VOMD) program was formed within the section in 1993 after a crime victim requested this service. In 2001, the 77th Legislature passed legislation providing victims of violent crime the right to request victim-offender mediation through this program.

The Texas Crime Victim Clearinghouse (TxCVC) was transferred from the Office of the Governor to the Victim Services Section in 1996. The TxCVC serves as a central source of information for crime

victims, victim advocates and criminal justice professionals and is tasked by legislative mandates regarding the Victim Impact Statement (VIS) and other services. The TxCVC also provides execution accompaniment, victim impact panel and training services.

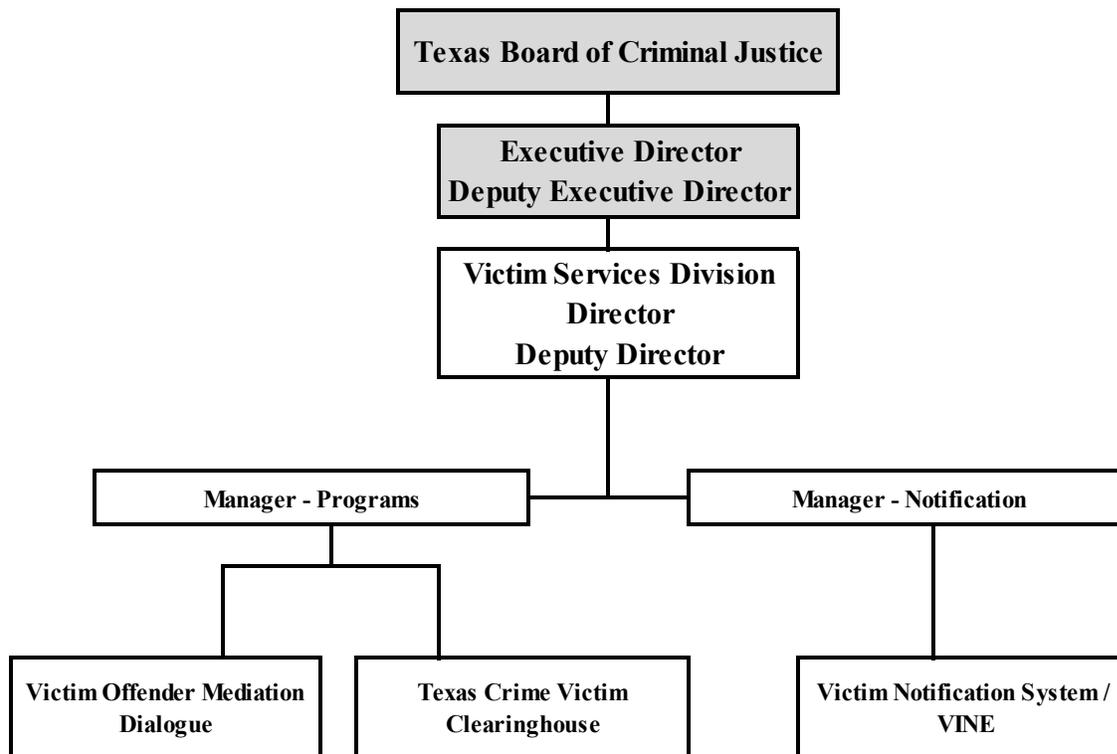

In November 1997, the Victim Services Section was elevated to division status, allowing the new division to more efficiently provide services.

As of August 31, 2014, the VSD consisted of 35 full-time employees.

The VSD continues to support the mission of the TDCJ to provide public safety, promote positive change in offender behavior, reintegrate offenders into society, and assist victims of crime.

VICTIM SERVICES DIVISION FY 2014 HIGHLIGHTS

New Notification Service

During FY 2014, the TDCJ VSD began providing two additional notifications on the warrant process for all registrants on the VNS. These two notifications inform victims if an arrest warrant is withdrawn or if an arrest is made on an offender who is on parole supervision. The TDCJ VSD already provided a notification when an arrest warrant was issued for an offender who is on parole supervision. Statutory victims may elect to receive these notifications for the offender responsible for their victimization via text message.

Increasing Training Opportunities

During FY 2014, the TDCJ VSD TxCVC updated the VIS training curriculum and provided training throughout the state. This training included information regarding new statutory requirements for the VIS form, including the VIS recommended processing procedures.

In addition, the TDCJ VSD TxCVC began hosting a webinar series. These webinars provide victims and criminal justice and victim services professionals an opportunity to receive current information and training from any internet-accessible location.

Enhancing Direct Services to Crime Victims

The TDCJ VSD VOMD program was enhanced in FY 2013 with the addition of two grant-funded mediator positions, increasing the number of full time mediators to five. In 2014, the VOMD program received the grant award to continue funding the two additional mediators. This grant has enabled the VOMD program to reduce the average amount of time a crime victim waits for case assignment.

VICTIM SERVICES DIVISION COLLABORATION

The VSD maintains a collaborative working relationship with many state agencies, non-profit organizations, associations, county or region-based organizations, TDCJ divisions, the BPP and other entities when providing services to crime victims. Below is a brief description of the TDCJ divisions, the BPP and other entities the VSD collaborates with on a routine basis.

The TDCJ CID is responsible for managing and operating the state's prison system for the confinement of adult felony offenders.

The TDCJ CID Classification and Records Office (CRO) schedules, receives and processes offenders for intake, release and internal transfers. The CRO maintains offender records and serves as the principal storehouse for incarcerated and prison-sentenced offender records for the TDCJ.

The TDCJ Parole Division is responsible for the supervision of adult felony offenders released from prison on parole/mandatory supervision to complete their sentences in Texas communities.

The TDCJ Interstate Compact Office facilitates the transfer of adult offenders placed on probation and parole whose supervision needs to be transferred to a state or territory other than the state or territory of conviction, based on public safety concerns and Interstate Compact Rules.

The TDCJ Community Justice Assistance Division (CJAD) administers community supervision (adult probation) in Texas. The CJAD does not work directly with offenders, but with the Community Supervision and Corrections Departments (CSCDs) that supervise the offenders.

The Reentry and Integration Division combines the TDCJ Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI), and an expanded reentry initiative, to better focus state resources to reduce recidivism and address the needs of juvenile and adult offenders.

The Office of the Inspector General (OIG) reports directly to the Texas Board of Criminal Justice and oversees the agency's Investigations Department, and the OIG Administrative Support and Programs Department. This includes investigating a variety of allegations of criminal violations occurring on TDCJ property or authorized interests, including prohibited contact with victims.

The BPP is a seven-member board with constitutional and statutory authority to approve or deny a parole release, to determine the rules and conditions of release, to revoke an offender's parole or mandatory supervision and to make executive clemency recommendations.

The Special Prosecution Unit (SPU) - Criminal Division works in coordination with the OIG in presenting and prosecuting investigations conducted by the OIG.

The Special Prosecution Unit (SPU) - Civil Division handles the civil commitment proceedings for offenders. Civil commitment laws, provided under Title 11, Chapter 841 of the Health and Safety Code, allow a judge or jury to determine if a sex offender meets the definition of a sexually violent predator and if so, to place the sex offender in a residential facility for control, care and treatment after being released from prison. The intent of the law is to provide intensive outpatient rehabilitation and treatment to a sexually violent predator.

VICTIM SERVICES DIVISION NOTIFICATION SECTION

The TDCJ VSD VNS utilizes a confidential database to provide individuals registered on the VNS with notifications regarding the status of an offender. The VNS registrants can elect to receive notifications by letter, email or both. Statutory victims, who are registered on the VNS, may also elect to receive text notifications regarding warrant actions for the offender responsible for their victimization who is on parole supervision.

The system provides over 80 types of notifications regarding several phases of an offender's incarceration and supervision, including the parole review process. Most notifications are automatically generated; however some are manually created by VSD staff. Since each case is unique and the types of notifications are typically driven by the status of the offender, it may not be necessary for VNS registrants to receive each type of notification.

Crime victims, surviving family members, witnesses who testified at trial and concerned citizens are eligible to register on the VNS. Registrants are added to the system upon their request. This request is either indicated by: a victim's completed VIS; the registrant contacting the VSD directly; or a weekly Victim Information and Notification Everyday (VINE)

transfer report, which includes a list of offenders who have been transferred from Texas county custody to TDCJ CID along with requests from individuals to be registered on the VNS.

In addition, the VSD provides an automated telephone service through the VINE system. Upon request, a VNS registrant can elect to receive a telephone notification when an offender is being processed for release from TDCJ custody, either by direct discharge or to supervision.

VNS registrants are also provided an automated telephone service through the VINE System, which they can call to receive limited offender status information 24-hours a day, seven days a week, in English or Spanish. This information includes the offender's current unit of assignment and parole eligibility date.

The VSD notification staff process received VISs. If requested on the VIS, the victim is registered on the VNS. Crime victims may also request on the VIS if they want the offender to be prohibited from contacting them while the offender is incarcerated. If indicated on the VIS, the VSD notification staff will forward this request to TDCJ CID, who will add the crime victim to the offender's negative mailing list. All VISs received are processed for

review by the BPP. A victim may also contact the VSD notification staff directly to register on the VNS and request to be placed on an offender's negative mailing list.

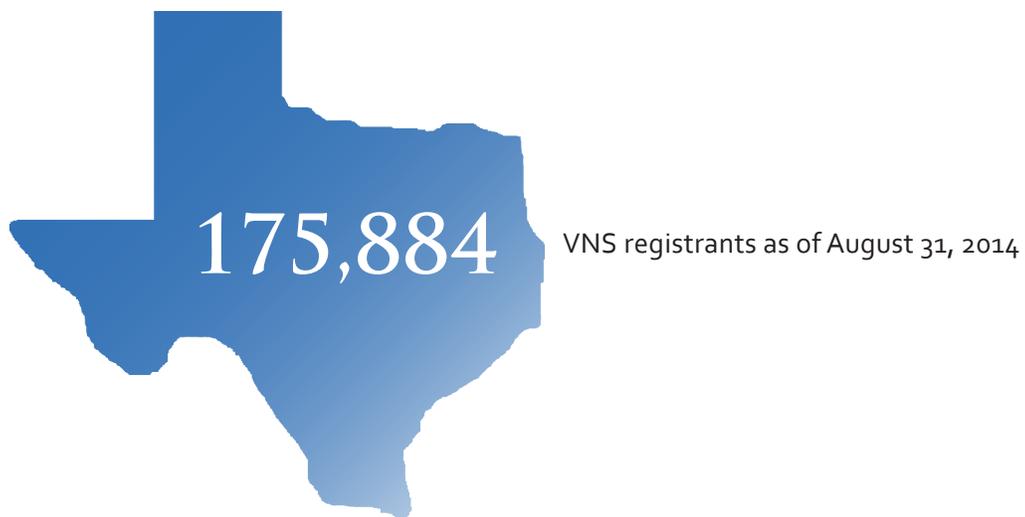

The VSD notification staff are available Monday through Friday from 8:00 AM - 5:00 PM on the toll-free hotline (800-848-4284) to assist with inquiries regarding an offender's status (location, parole eligibility, the parole review process), crime victims' rights, referrals and other services offered by the VSD.

The VSD notification analysts assist crime victims during the parole review process and provide certain notifications. This includes notifying and assisting crime victims who wish to submit protest information when an offender is being reviewed for Medically Recommended Intensive Supervision (MRIS) or if the BPP will be considering withdrawing parole conditions, such as the Super Intensive Supervision Program (SISP).

The VSD also provides crime victims with: death notifications - when an offender dies while in TDCJ custody; photos of offenders incarcerated, upon request from the crime victim; along with a variety of other notifications and services.

VICTIM SERVICES DIVISION NOTIFICATION SECTION VNS REGISTRANTS

VICTIM SERVICES DIVISION NOTIFICATION SECTION WRITTEN NOTIFICATIONS

 **114,329** Correspondence* sent in FY 2014.

The confidential VNS provides automated notifications to VNS registrants. These notifications are automatically generated after an action for an offender has been recorded on the TDCJ mainframe server. For example:

- when an offender is placed in the parole review process;
- when a registrant has been scheduled for a meeting with the BPP;
- after an offender's parole review process is complete and he/she has received a tentative favorable action (vote) for release;
- after an offender's parole review process is complete and release to parole/mandatory supervision was denied;
- when an offender's release certificate is issued for release to parole/mandatory supervision;
- when the offender is released to the custody of a law enforcement agency on bench warrant; and
- when an offender has returned to TDCJ custody from bench warrant.

Notifications are manually generated by VSD staff either because the notification cannot be linked to an action recorded on the TDCJ mainframe server or the notification is deemed urgent. When they are deemed urgent, telephone and email notifications precede the manually created notification. For example:

- when an offender escapes from TDCJ CID custody;
- when an escapee is captured;
- after the VSD staff has forwarded new information from crime victims requesting that the BPP reconsider their favorable vote to release an offender to supervision, and a decision has been made
- after the VSD staff has forwarded new information from crime victims requesting that the BPP consider imposing special conditions on an offender's supervision, and a decision has been made; and
- when an offender dies while incarcerated or on parole/mandatory supervision.

**This reflects correspondence sent, including emails sent by the VSD for notification and program sections. Since VNS registrants can elect to receive notifications by letter, email, and text - for statutory victims, all three methods of notification are included in the total figure.*

FY 2014

Medically Recommended Intensive Supervision (MRIS) allows for the early parole review and release of certain categories of offenders. All MRIS applicants are carefully screened by the Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI) and, prior to MRIS approval, the parole panel must determine that the offender is no longer a threat to public safety and poses no risk of committing future offenses due to his or her medical and/or psychiatric condition.

The VSD staff assist crime victims in submitting information for the BPP to consider during the offender's review.

The Super Intensive Supervision Program (SISP) is the highest level of supervision provided by TDCJ - Parole Division. The SISP offender is monitored with Global Positioning System (GPS) technology, which allows for the tracking of the offender's movement throughout the community. The offender is required to comply with 24 hour-a-day schedules, which must be pre-approved in writing by their parole officer. In the event the Parole Division determines the offender is suitable for withdrawal of the condition, the information is forwarded to the BPP for consideration. The offender remains on SISP until the BPP withdraws the condition or the offender discharges the sentence.

The VSD notifies VNS registrants if the BPP will be considering the withdrawal of the SISP condition imposed on the parolee's supervision.

VOM/D cases can only be initiated by crime victims. The offender must be incarcerated or on parole/mandatory supervision. The process is voluntary for both crime victims and offenders.

 **103** VOM/D cases were assigned in FY 2014

This program is not intended to have any bearing on the participating offender's status in the judicial, appellate or corrections systems. The mediator assigned the VOM/D case will meet with the crime victim and offender separately during the preparation phase. The mediation is scheduled when both participants and the mediator agree that they are ready to meet in-person.

 **36** VOM/D mediations were conducted** in FY 2014

Mediations are typically conducted at the facility where the offender is incarcerated or at the offender's parole or probation office. Creative alternatives to mediation are also an option, and typically include a letter written by the victim.

* Victims of violent crime can initiate a VOM/D case by contacting the VSD. Some VOM/D cases are initiated in one fiscal year, but are not conducted until a later fiscal year due to the waiting list for assignment and VOM/D's preparation phase.

VICTIM SERVICES DIVISION PROGRAMS SECTION TEXAS CRIME VICTIM CLEARINGHOUSE VICTIM IMPACT STATEMENTS

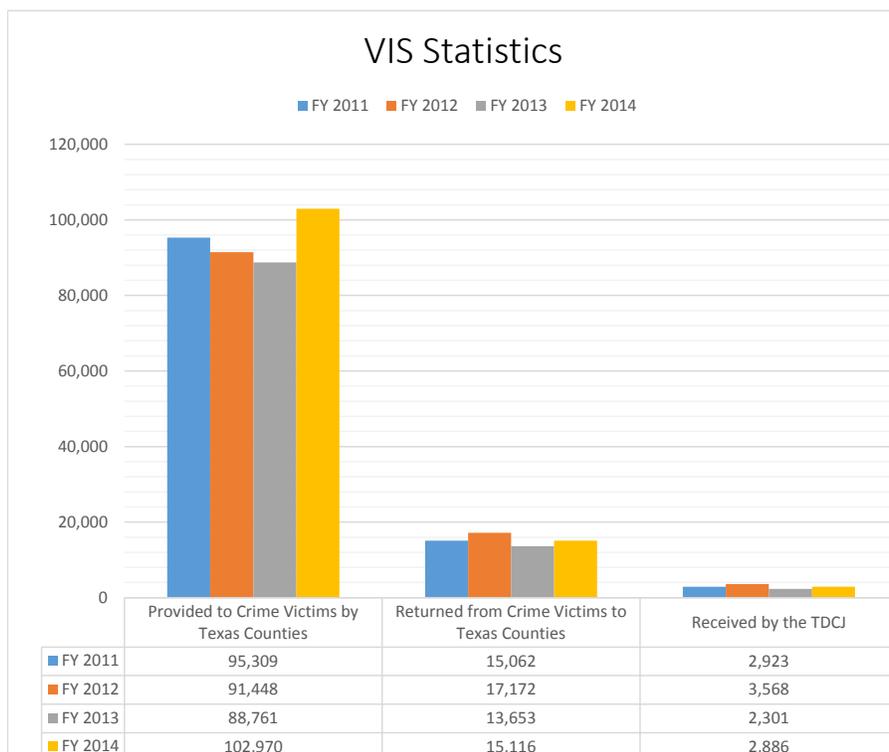

The Code of Criminal Procedure art. 56.03 mandates the TxCVC, in collaboration with the TDCJ CJAD and BPP, develop the VIS form. This form is completed by a crime victim to indicate their request for notification regarding the offender and record the emotional and psychological impact, physical injury and economic loss a crime has on a victim and his or her family members. The VIS form provides information to personnel in many stages of the criminal justice system, including the court system and the parole review process.

The TxCVC, in collaboration with the TDCJ CJAD and BPP, is mandated by the Code of Criminal Procedure art. 56.05 to develop a survey plan to maintain statistics on the numbers and types of persons who are provided VISs each year. A report is required from all district and county attorneys who represent the 254 counties in Texas and is submitted by the respective office's Victim Assistance Coordinator or the person assigned to those duties.

The following chart (first two columns) reflects the statistics reported on the VIS Activity Report for all reporting Texas counties. The VSD may have received a report from the district or county attorney's office or both referencing how many VISs were provided to a crime victim by the district or county attorney's office and how many VISs were completed and returned to the district or county attorney's office. Refer to Appendix A for a breakdown of each Texas county.

The last column reflects the number of VISs received by the TDCJ during FY 2014. This includes VISs forwarded from the TDCJ CID or received directly into the VSD office from a district or county attorney's office or both.

The form is also used to collect contact information for crime victims for notification purposes. This form provides information to personnel in many stages of the criminal justice system, including the court system and the parole review process.

The VISs are provided to victims as defined in the Code of Criminal Procedure art. 56.01.

Victim Impact Statement Activity Report: is a statistical report used to collect information on the VIS and is required to be reported by the Code of Criminal Procedure art. 56.05. This report is required from all district and county attorneys who represent the 254 counties in Texas and is submitted by the respective office's Victim Assistance Coordinator or the person assigned to those duties. The reports are collected on a quarterly basis to track VIS activity.

Explanation of VIS Activity Report Spreadsheet:

Column A: represents all 254 counties in Texas. The VSD may have received a VIS Activity Report from the county attorney's office, district attorney's office or both.

Column B: represents the number of VISs provided to crime victims by the county attorney's office, district attorney's office or both during the fiscal year as reported on the VIS Activity Report.

Column C: represents the number of completed VISs returned by the crime victim to the county attorney's office, district attorney's office or both during the FY 2014 as reported on the VIS Activity Report.

Column D: represents the rate of return for each county. This rate is calculated by comparing the VISs provided and returned during FY 2014. It is important to note that a VISs may be provided in one fiscal year and returned in another.

Non-Reported (NR): is a code used to designate no VIS Activity Reports were received from the county attorney's office or district attorney's office during the fiscal year.
