Abuse

Neglect

Physical Abuse (PHAB)

Physical injury that results in substantial harm to the child, such as bruises, fractures, or death. It also can include a genuine threat of harm even if there is no visible injury. Also includes injury that is at variance with the history or explanation given and excluding an accident or reasonable discipline.
Sexual Abuse (SXAB)

Sexual conduct harmful to a child's mental, emotional, or physical welfare. This includes fondling a child's genitals, penetration, indecent exposure, and exploitation through producing pornography.

Emotional Abuse (EMAB)

Mental or emotional injury to a child that results in an observable and material impairment in the child's growth, development, or psychological functioning.

Emotional abuse includes extreme forms of punishment such as confining a child in a dark closet, habitual scapegoating, or belittling to the point that it results in noticeable effects on the child's daily functioning.

Trafficking

**Labor Trafficking**

Knowingly use a child for labor or services by force, fraud, or coercion. This includes obtaining the child for personal use OR providing the child to others. It involves the exchange of monetary or nonmonetary benefits, including the child's services.

**Sex Trafficking**

Knowingly use a child for illegal sexual conduct. This includes obtaining the child for personal use OR providing the child to others. It involves the exchange of monetary or nonmonetary benefits, including the child's services. Sex trafficking occurs even if the child seems complicit or does not believe he or she is a victim.
Neglectful Supervision (NSUP)

Placing a child in a situation that requires judgment or actions beyond what the child is physically or mentally capable of doing and that results in bodily injury or a substantial risk of immediate harm to a child.

Medical Neglect (MDNG)

Failing to get or follow up with medical care for a child when the lack of care results in physical injury or in a marked impact on a child’s growth, development, or functioning.

Physical Neglect (PHNG)

Failure to provide a child with food, clothing, or shelter necessary to sustain the life or health of the child. Physical neglect can include a situation where the home environment presents a health or safety threat to children.
The failure by the person responsible for a child's care, custody, or welfare to permit the child to return to the child's home without arranging for the necessary care after the child has been absent from the home for any reason, including having been in residential placement or having run away.

The leaving of a child in a situation where the child would be exposed to a substantial risk of physical or mental harm, without arranging for necessary care for the child, and the demonstration of an intent not to return by a parent, guardian, or managing or possessory conservator of the child.
