BOARD POLICY

SUBJECT: SPECIAL CONDITION "S" (SUBSTANCE ABUSE)

PURPOSE: To establish Special Condition "S" (Substance Abuse) as a special condition of parole or mandatory supervision and to establish a procedure for imposing Special Condition "S" as a special condition of parole or mandatory supervision.

AUTHORITY: Texas Government Code Sections 508.0441, 508.045, 508.184, 508.185 and 508.221
Code of Criminal Procedure Article 42A.408

DISCUSSION: The Texas Board of Pardons and Paroles (Board) determine conditions of parole and mandatory supervision. Except in special circumstances, board members and parole commissioners act in panels comprised of three persons, and panel decisions are made by majority vote. The Presiding Officer (Chair) designates the composition of the parole panels. Special conditions are conditions imposed in addition to the standard conditions of parole or mandatory supervision. Unless otherwise provided, any condition may be imposed before or after release and shall remain in effect until specifically removed by a parole panel.

Substance abuse treatment, substance abuse counseling and drug and alcohol abuse continuum of care treatment programs are developed by the Department of State Health Services. Controlled substance abuse testing is administered pursuant the Texas Department of Criminal Justice Parole Division (Division) policy.

POLICY: Special Condition "S" represents a cooperative effort between the Board the Division to minimize the threat to the community when an offender is released on parole or mandatory supervision.

At any time special condition "S" is in effect, the offender shall fully comply with state laws governing controlled substance testing, substance abuse treatment and conditions of release as well as Board and Division policies.

DEFINITIONS “Ignition Interlock Device” means a device that uses a deep-lung breath analysis mechanism to make impractical the operation of a motor vehicle if ethyl alcohol is detected in the breath of the operator.

The Ignition Interlock Device component is authorized pursuant to Section 508.221, which states a parole panel may impose as a condition of parole or mandatory supervision any condition that a court may impose on a defendant placed on community supervision. However, a previous conviction cannot be the basis for a court imposing ignition interlock, if the previous conviction was for an offense committed before the beginning of the 10-year period preceding the date of the instant offense for which the defendant was convicted and placed on community supervision; and the defendant has not been convicted of an

intoxication offense which was committed within a 10-year period preceding the date of the instant offense for which the defendant was convicted and placed on community supervision.
