CORRECTIONAL MANAGED HEALTH CARE REFERENCE MATERIALS		

PURPOSE: To identify medical, dental and nursing reference materials to be available to all health care personnel.

POLICY:

- I. Each discipline will develop a list of reference materials to be available on each facility. It is the responsibility of each facility health administrator (TTUHSC)/management team (UTMB) to obtain and maintain these reference materials.
- II. Reference services (i.e., computer searches and journal articles) needed for patient care or continuing education are available from university medical libraries.
- III. Reference materials should be current (no older than two years or the most recent edition).
