DETOXIFICATION		

PURPOSE: To describe guidelines for the detoxification of inmates.

POLICY:

- I. Detoxification is provided only under direct medical supervision in accordance with local, state and federal laws.
- II. The disease management guidelines in the current Correctional Managed Care Formulary will be followed for the discontinuation of benzodiazepines or opioids.
- II. Guidelines for the treatment of inmates manifesting symptoms of intoxication or withdrawal are developed by the medical/mental health services staff and followed.
