POSITION #: 022299

I. JOB SUMMARY

Performs complex consultative services and technical assistance work. Work involves planning, developing, and implementing an agency program; providing consultative services and technical assistance to program staff, governmental agencies, community organizations, and the public; and providing guidance to others. Works under general supervision with moderate latitude for the use of initiative and independent judgment.

II. ESSENTIAL FUNCTIONS

- A. Provides consultative services and technical assistance to plan, implement, and monitor the agency's Heating, Ventilation, and Air Conditioning (HVAC) program; assists in analyzing the applications and variations of programs to develop an action plan for improving program operations; and assists in preparing justifications for the implementation of procedural and policy changes.
- B. Reviews and evaluates information on service delivery system methods, outputs, and activities to identify problems and recommend improvements; participates in and conducts surveys and reviews to ensure compliance with certification requirements, laws, regulations, policies, and procedures; and recommends and coordinates activities to produce a more effective program.
- C. Assists program staff in determining trends and resolving technical problems; studies and analyzes operations and problems; evaluates research findings relative to specific projects; and prepares reports of findings and recommendations.
- D. Provides training and technical assistance in the program area to include HVAC system and equipment repairs, code requirements, troubleshooting, programming boiler controls, water treatment, and corrosion control.

* Performs a variety of marginal duties not listed, to be determined and assigned as needed.
