About Us

The Texas Crime Victim Clearinghouse (TxCVC) serves as a central source of information and offers training about services and needs involving crime victims in Texas. The TxCVC was created in 1983 and operated through the Office of the Governor. In 1996, the TxCVC was transferred to the Texas Department of Criminal Justice (TDCJ) Victim Services Division (VSD). The TxCVC is mandated to revise the Victim Impact Statement after every legislative session; collect Victim Impact Statement statistics from each district and county attorney’s office; develop Victim Impact Statement recommended processing procedures for local jurisdictions; and develop crime victim assistance standards for law enforcement and prosecutors. In addition, the TxCVC provides training for criminal justice and victim service professionals and direct services to crime victims.

The goal of the TxCVC is to provide focus, leadership, and coordination necessary to continue and improve services so that victims are afforded a full measure of justice and all possible assistance.

Who We Serve

- Victims and survivors of crime
- Criminal justice system professionals
- Community-based agencies
- The general public

Victim Impact Statements

The Victim Impact Statement is vital to preserving a victim’s right to be informed and to participate in the system throughout the criminal justice process. The TxCVC strives to ensure victims understand the importance of the Victim Impact Statement and their options for completing one.

The TxCVC is responsible for updating the Victim Impact Statement after each legislative session and maintaining statistics on the numbers and types of persons to whom Victim Impact Statements are provided each year. The TxCVC also tracks the response rate of Victim Impact Statements by county and assists with the development of processes to improve the number of Victim Impact Statements forwarded throughout the criminal justice system.

Technical Assistance

The TxCVC offers specialized technical assistance to meet your organization’s needs. All technical assistance is designed to enhance the criminal justice system’s response to victims and improve the quality of services provided to crime victims. Examples include providing information on crime victims’ rights, the post-conviction process, mandates applicable to the Victim Impact Statement, and bringing criminal justice professionals and community organizations together to better meet the needs of victims.

Training

The TxCVC provides victim-centered, research-informed, and practice-based training. The TxCVC staff are available to participate in training events sponsored by local, state, and national practitioners. Training content and topics can be developed and integrated to meet your specific training needs and can vary in length. The TxCVC often partners with other statewide and local agencies and professionals to provide training. The TxCVC is committed to providing training to meet the individualized needs of communities working to enhance services provided to victims. All TxCVC trainings are provided free of charge.

For more information regarding the Victim Services Division, please call 800-848-4284 or email the Texas Crime Victim Clearinghouse at tdcj.clearinghouse@tdcj.texas.gov.
