<b>IV.</b>	<b>Plan Implementation Responsibility</b>	<b>9</b>

### “How we are doing”

#### Electricity and Natural Gas:

The TDCJ has moved forward as planned with implementation of Executive Order RP-49. Utility and energy consumption reduction remains a number one priority of the agency and the TDCJ is committed to the goal of a 2.5% reduction for electricity and natural gas. All the TDCJ regions and individual units have been provided quarterly information to track their electricity and natural gas consumption, compared to their individual targets, and the relationship to the overall agency goal shown on page 4. The current agency consumption updates are provided on pages 5 and 6.

Additionally, an employee awareness pamphlet has been developed to stress importance to create a mind set that energy consumption reduction is a responsibility of all agency employees and that everyone can make a difference. To further emphasize utility and energy reduction awareness, an Energy Management Utility Consumption Reduction Awareness Presentation is given monthly to Sergeants, Lieutenants and Captains (approximately 4,492 since September 2007). During the months of June, July and August, the presentation is given to all Regional Directors and Wardens. An agency Green Committee has been established to develop agency-wide operational strategies designed to enhance conservation of utility and energy consumption. The first in a series of energy awareness videos has been completed and will be included in the monthly energy management presentations and during in-service and pre-service training.

The TDCJ has completed all of the one hundred nine (109) required Preliminary Energy Audits (PEA's). The TDCJ engineering staff continues to closely scrutinize all facility repair and renovation projects to ensure they meet mandated energy design certification requirements. The most energy efficient products are incorporated into each design.

Since the TDCJ began reporting the electric and natural gas usage numbers in the RP-49, three new units have been added: Hamilton, San Saba and Marlin (all formerly TYC). We have also expanded the Montford Unit with the addition of the Western Regional Medical Facility Expansion. In FY 2005 the TDCJ began including the usage for all accounts (main units, administrative offices, warehouses, wells, employee housing and various other miscellaneous accounts). All of the additions have increased our base usage and make it difficult for the current numbers to reflect any reductions in consumption. On December 3, 2008 the TDCJ acquired the Marlin VA Hospital.

#### Gasoline:

The TDCJ is committed to achieving the target goal established by the Executive Order RP-49 of an annual 2.5% decrease in gasoline consumption. The TDCJ has compiled a consumption comparison report using the data collected in the TDCJ Fleet Management System (VEH). The information is presented in two formats, by division and by type of vehicle. This comparison report is then forwarded to the TDCJ's executive staff to be used as a monitoring tool.

All the TDCJ divisions and employees should adhere to the TDCJ Administrative Directive 02.50 Vehicle Policy. Strict enforcement of the proper uses of state vehicles, bulk fueling stations, and car-pooling could result in additional savings.

The TDCJ will continue to review current policies and procedures on vehicle usage for perimeter patrol, offender transport, escape recovery, and emergency evacuation for potential energy conservation. Any additional areas identified as a potential energy savings will be included in future quarterly reports.

The 10% Ethanol blend of unleaded fuel has been introduced in major metropolitan areas of Texas and the TDCJ received their first delivery on April 26, 2006 in Houston. Ethanol burns at a slightly higher rate than MTBE blended Unleaded Fuel. According to the American Coalition for Ethanol (<http://www.ethanol.org/index.php?id=81&parentid=25>) the burn rate will increase the number of gallons by 1.5%.

# Texas Department of Criminal Justice

## Agency Consumption Targets

### Electricity and Natural Gas

	Metered kWh	Metered MCF	EL \$/kWh	NG \$/MCF
FY10	724,609,863	4,028,872	\$0.078	\$5.719
FY09	725,526,089	3,637,688	\$0.088	\$5.822
FY08	747,047,640	3,672,664	\$0.091	\$9.237
	732,394,531	3,779,742	3-Year Averages	
	18,309,863	94,494	2.5% of Averages	
	706,300,000	3,934,379	Target Consumption	

*Targets = FY10 Totals less 2.5% of averages*

### Gasoline

	Gallons	Average \$/Gallon
FY10	2,017,516	\$2.354
FY09	2,084,720	\$2.021
FY08	2,138,218	\$3.012
	2,080,151	3-Year Average
	50,438	2.5% of FY10
	1,967,078	Target Consumption

*The above price per gallon does not include Federal Tax, but it does include State Tax of \$0.20 per gallon*

May	172,556	167,980	4,576
<b>3rd Qtr</b>	<b>529,779</b>	<b>510,687</b>	<b>19,092</b>
<b>Totals</b>	<b>1,500,078</b>	<b>1,440,269</b>	<b>59,809</b>

*FY11 vs. FY10 Actual: 1<sup>st</sup> Qtr Increase = 0.2 %, 2<sup>nd</sup> Qtr Increase = 3%, 3<sup>rd</sup> Qtr Increase = 1%*

**Electricity and Natural Gas:**

On 8/26/09, a Memorandum of Understanding was signed between CLEAResult and participating utility providers entering the TDCJ into the Texas City Smart Program. This is a voluntary program offered at no cost to participants. CLEAResult will provide third party consulting on best practices in areas of energy usage and energy efficiency. This program offers monetary incentives available for qualifying measures in new construction and retrofit projects. This program is designed to reduce government's energy costs, reduce operating budgets freeing additional dollars for other taxpayers needs and provide improved working environments for employees. In our ongoing effort to identify which of our facilities have the greatest opportunities for energy and cost savings, we have utilized the energy benchmarking support provided by CLEAResult.

**Gasoline:**

The TDCJ will continue to prepare a monthly e-mail to the TDCJ departments making them aware of the recommendations of Executive Order RP-49. As an agency, our goal is to reduce consumption, which can be reached if we make the employee using the vehicle or equipment aware of the goal.

The TDCJ began purchasing Ford Focus vehicles in FY08 to replace intermediate automobiles in our motor pool. The average for the motor pool intermediate automobiles is 26 miles per gallon and the published miles per gallon on the Ford Focus are 24 City and 33 Highway.

The TDCJ has also recently purchased vehicles that have the Flex Fuel capabilities, which would allow us to run the 85% Ethanol blend of gasoline. E85 Ethanol burns at a higher rate and would increase the gallon usage by 22% to 30%, but this fuel would reduce the carbon emissions by 17%. Currently E85 is only available at a limited number of retail fuel stations in major metropolitan area.

*“The buck stops here”*

**State Agency**

**Energy Savings Program Quarterly Report**

**Date:** July 1, 2011

**Agency:** Texas Department of Criminal Justice

**Plan contact:** Jerry McGinty, Chief Financial Officer

**Contact telephone number:** (936) 437-2107

**Contact e-mail address:** [jerry.mcginty@tdcj.state.tx.us](mailto:jerry.mcginty@tdcj.state.tx.us)

The electricity, natural gas, and gasoline quarterly report for The Texas Department of Criminal Justice has been completed per Executive Order RP-49. The recommendations contained in the current 2011/2012 Resource Efficiency Plan and the RP-49 supplement will continue to be implemented with specific responsibility for compliance charged to the agency Facilities Review Board. This report will be placed in a conspicuous place on the TDCJ WEB page per RP-49 instructions.
