Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.

Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a “housing unit” defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

Audit Findings

Audit Narrative (including Audit Methodology)

The Prison Rape Elimination Act (PREA) re-certification audit for the John B. Connally, Jr. Unit (Connally Unit), Texas Department of Criminal Justice (TDCJ) in Kenedy, Texas was conducted on January 26-28, 2020, to determine the continued compliance of the Prison Rape Elimination Act Standards. The audit was conducted by Kendra Prisk, United States Department of Justice (DOJ) Prison Rape Elimination Act Certified Auditor.

The auditor conducted the audit through a third-party entity as a contractor and is personally accountable for complying with the DOJ certification requirements and audit findings. The agency contract was secured through a third-party entity, PREA Auditors of America, LLC. and not directly by the auditor herself. The contract described the specific work required according to the DOJ standards and PREA audit handbook to include the pre-audit, on-site audit and post-audit.

The last PREA audit was conducted by PREA auditor James Currington on January 23-27, 2016. The previous auditor conducted the audit with four exceed standards and 39 met standards.

Prior to the on-site portion of the audit, the auditor reviewed the Pre-Audit Questionnaire (PAQ) and supporting documentation. The facility was very responsive related to any questions the auditor had during this review. The Warden ensured the audit announcement was placed throughout the facility prior to the audit. On December 23, 2020 the auditor received eight emailed photos of the PREA audit announcement posted throughout the facility. The auditor received correspondence from five inmates at the facility related to PREA. Four of the five inmates were still at the facility during the on-site portion of the audit. Three of the four inmates were interviewed and necessary information was forwarded to the PREA Ombudsman. One inmate refused to speak to the auditor related to the letter he sent.

The auditor requested the below list of inmates to be available for interview selection on the first day of the on-site portion of the audit. Based on the population on the day of the audit (2004) the PREA auditor handbook indicated that at least 40 inmates were required to be interviewed. From the provided lists, the auditor selected a representative sample of inmates for the targeted and random interviews. Inmates for the random inmate interviews were chosen at random and varied across; gender, race, ethnicity, housing assignments and time in custody. At least one inmate from each housing unit was selected, except from those units under quarantine due to COVID-19 (E and F sections of 12 building). Inmates selected for the targeted interviews were selected at random across varying factors, when possible. Interviews were conducted using the Inmate Interview Questionnaire supplemented by the Targeted Inmate Questionnaires. The table following the inmate listings depicts the breakdown of inmate interviews.

1. Complete inmate roster (provided based on actual population on the first day of the on-site portion of the audit)
2. Youthful inmates (if any)
3. Inmates with disabilities (i.e. physical disabilities, blind, deaf, hard of hearing, cognitive disabilities)
4. Inmates who are Limited English Proficient (LEP)
5. Lesbian, Gay, Bisexual, Transgender and Intersex (LGBTI) inmates
6. Inmates in segregated housing
7. Inmates who reported sexual abuse
8. Inmates who reported sexual victimization during risk screening

- Inmates in Segregated Housing for High Risk of Victimization 0
- Inmates who Reported Sexual Abuse                     6
- Inmates who Reported Sexual Victimization During Screening 3

The auditor requested the below listing of staff to be available for interview selection on the first day of the on-site portion of the audit. Staff interviews were conducted in accordance with the PREA auditor handbook. The handbook indicated that at least twelve randomly selected staff were required to be interviewed as well as specialized staff. From the provided lists, the auditor selected a representative sample of staff for the specialized and random interviews. Staff for the random interviews were chosen at random and varied across; gender, race, ethnicity and post assignments. Staff from both day and night shift were interviewed. Interviews were conducted using the Interview Guide for a Random Sample of Staff and the Interview Guide for Specialized Staff. The table following the staff listings depicts the breakdown of staff interviews.

1. Complete staff roster (indicating title, shift and post assignment)
2. Specialized staff which includes:
   - Agency contract administrator
   - Intermediate-level or higher-level facility staff responsible for conducting and documenting unannounced rounds to identify and deter staff sexual abuse and sexual harassment
   - Line staff who supervise youthful inmates, if any
   - Education staff who work with youthful inmates, if any
   - Program staff who work with youthful inmates, if any

\(^1\) Two inmates were in two categories so a total of 43 inmates were interviewed, with 45 total interview protocols.

• Mr. Bobby Lumpkin (Agency Head Designee)
• Mr. Phonso Rayford (Warden)
• Ms. Cassandra McGilbra (PREA Coordinator “PC”)
• Ms. Juliet Martinez (PREA Compliance Manager “CM”)

The on-site portion of the audit was conducted on January 26, 2021 through January 28, 2021. The auditor had an initial briefing with facility leadership and answered any questions. After the initial briefing, the auditor reviewed documentation and selected inmates and staff for interviews as well as identified all documentation needed for review. A tour of the facility was conducted on January 26, 2021. The tour included all areas associated with the Connally Unit, to include, housing units, the administration building, the gym, medical, mental health, dental, education, vocation, maintenance, the kitchen, dining halls, laundry, the library, the chapel and all other common/program areas. During the tour the auditor was cognizant of staffing levels, monitoring device placement, blind spots, posted PREA information, privacy for inmates in housing units and other factors as indicated in the below standard findings. Due to COVID-19 the auditor had limited direct contact with staff and inmates during the tour.

Interviews were conducted on January 26, 2021 in the afternoon and evening and on January 27, 2021 in the morning and afternoon. During the audit the auditor requested personnel and training files of staff, inmate files, medical and mental health records, grievances, incident reports and investigative files for review. A more detailed description of the documentation review is as follows:

**Personnel and Training Files.** The facility has 310 staff assigned. The auditor reviewed a random sample of fourteen personnel and/or training records as well as documentation for the 94 individuals hired within the past twelve months. The auditor also reviewed personnel and training files for six volunteers and seven contractors who have contact with inmates were sampled randomly across functional service areas.

**Inmate Files.** On the first day of the on-site phase of the audit, the inmate population was 2004. A total of 20 inmate records were reviewed. The records reviewed were of inmates who arrived within the previous twelve months and included their initial risk assessment, 30-day reassessment and inmate PREA education. Additionally, seven LEP and disabled inmate records were reviewed.

**Medical and Mental Health Records.** During the past year, there were 45 inmates that reported sexual abuse or sexual harassment at the facility. The auditor reviewed a sample of fifteen of these victim’s medical and mental health files. Additionally, six mental health files were reviewed for inmates who reported prior victimization during the risk screening.

**Grievances.** The facility reported that they had 42 sexual abuse grievances filed within the previous twelve months. The auditor reviewed a sample of thirteen of the grievances. Additionally, the auditor reviewed the grievance log to confirm no other sexual abuse grievances were received.
**Hotline Calls.** The facility has an outside reporting hotline via the PREA Ombudsman’s Office. The Ombudsman confirmed that the hotline is utilized for inmates and the public to report allegations and that all allegations are reported back to the facility for investigation.

**Incident Reports.** The auditor reviewed fifteen of the 45 investigations, which included a review of fifteen incident reports.

**Investigation Files.** Outside investigators (OIG) or facility investigators complete investigations for all sexual abuse and/or sexual harassment allegations. The PAQ indicated there were 45 sexual abuse and sexual harassment allegations reported in the previous twelve months. A review of the investigative log indicated that 39 were sexual abuse and six were sexual harassment. The auditor reviewed a sample of fifteen investigative reports. The below table depicts the outcomes of the closed investigations.

Facility Characteristics

The John B. Connally, Jr. Unit is a state prison under the authority of the Texas Department of Criminal Justice, located at 899 FM 632 in Kenedy, Texas. The Connally Unit is located in Karnes County, approximately 60 miles southeast of San Antonio, Texas. The unit was established in July 1995 and encompasses approximately 813 acres. The facility participates in agricultural operations including contract grazing, security horses, security pack canines and unit gardening. Additionally, the Connally Unit offers numerous education and programming services.

All buildings associated with the Connally Unit are located within the secure perimeter. Entry into the facility is through a secure building where staff are required to show identification, are searched and are asked the COVID-19 safety questions. Upon exit of the building is a breezeway leading to the administration building. The administration building contains classification, human resources, records, the staff barbershop, the Warden’s office and numerous other administrative staff offices. Central control is located in the administration building and is another secure checkpoint prior to the inmate living and common areas. Visitation is also located in the administration building. The Connally Unit has an indoor and outdoor visitation area. The indoor visitation area has both contact and no contact visitation space. The no contact visitation encompasses numerous single booths with stools. The contact visitation area is an open space with tables, chairs and vending machines. The outdoor visitation area consists of a large open outdoor space with numerous covered picnic tables. The search area in visitation is found in a back hallway through solid doors. A toilet is located in the shakedown area and a removable privacy barrier is available for use during strip searches and for when an inmate utilizes the toilet. The visitation area is equipped with security cameras and reflective mirrors. Additionally, PREA information has been painted on the walls.

Upon exit of the administration building is the chapel. To the southwest you find housing buildings 3, 4, 18 and 19 as well as one of the two gymnasiums and commissaries. Due south is the kitchen, dining halls, laundry maintenance, vocation and the back gate. To the southeast you find another gymnasium and commissary as well as housing units 7 and 8. North of the administrative building past the chapel is education, the library, medical, mental health, dental and the infirmary. And finally, northeast of the administration building is the 11 building, which is closed, and the Restrictive Housing Unit (RHU).

The chapel is found in front (east) of the administration building. The building has a large open area that is utilized as the sanctuary. The facility places tables and chairs in the area for services and programs. Additionally, the chapel has classrooms for programs and a library. Two restrooms provide privacy via a solid door with a small security window. The chapel is equipped with video monitoring technology to provide supplemental monitoring.

Two buildings (one on the southwest side and one on the southeast side) house the gymnasiums and commissaries. Each building has a commissary area and two gymnasiums. Commissary is divided into two rooms; one is a retail shop style with shelves while the other is a storage area. Mirrors are strategically placed to eliminate blind spots. The other part of each building contains two gymnasiums. The gymnasiums are separated by a wall with a secure access door. Each gymnasium is equipped with a basketball court, tables and stools, a weight area and storage areas. The restrooms are located behind a solid wall with an entry way that prohibits cross-gender viewing.

Maintenance is a typical work area with a carpentry shop, a tool room and various other secure work areas. The building has clerical offices for the maintenance staff and is equipped with reflective mirrors to supplement monitoring. The inmate restroom provides privacy via a half wall and a constructed mobile barrier. Vocation is located south of maintenance and consists of a large building divided into three separate spaces. All spaces have outside warehouse style doors for entry. They each have an open area for trade work and classrooms for book work. Restrooms provide privacy via solid doors. Each space is currently being utilized for storage as no vocational programs are currently operational. A basic technical
class is slated to start in March. The back gate is southeast of vocation and is where all vehicles enter the unit. All community and outside work squads are checked back in at the back gate and undergo strip searches prior to entry. The strip search area is the restroom which has a saloon style door for privacy.

North of the back gate is laundry. Prior to entry into laundry is a strip search area for all inmates who work in laundry or the kitchen. The search area has an extended half wall metal barrier that provides privacy during the searches. The laundry is a large area containing industrial size washers and dryers, a folding area, a sewing area and a clothing press area. Cameras and reflective mirrors are found throughout laundry to supplement monitoring. The inmate restroom is equipped with a half wall and a sheet style cover at the entrance.

The kitchen and dining halls are found in the same building as laundry. There are four total inmate dining halls. Two located on each side of the kitchen. Additionally, there is staff dining hall located between the four inmate dining halls. Staff dining contains tables, chairs and a serving line. The inmate dining halls mirror one another and are equipped with tables, stools and serving lines. Cameras are located in each dining hall to provide supplemental monitoring. The kitchen is a typical industrial set up with a preparation area, a baking station, a dish station, a cooking station with grills and kettles, coolers, freezer and dry storage. An officer’s station is in the kitchen for civilian and security staff. The kitchen is equipped with cameras and reflective mirrors to provide supplemental monitoring. The restroom in the kitchen has a saloon style door as well as half-painted windows for privacy.

In addition to the laundry and the kitchen, unit supply is also found in the same building. Unit supply is where all the caustics and supplies for the facility are kept. The space is warehouse style and is equipped with cameras to supplement monitoring.

Education, the library, the law library, medical, mental health, dental and the infirmary are all located in the same building. Upon entry to the building is the library. This is an open area with shelves of books. A staff office is found on the north side of the library. The office connects to the education area and allows for staff to move between the library and the classrooms. The classrooms are found north of the library with a separate entrance for the inmate population. Education is a backwards “L” shaped hallway with numerous classrooms. Classrooms are open and contain desks and chairs. The restroom provides privacy via a solid door with a small security window. The law library is a large open area with legal reference materials, desks and chairs.

The medical entrance consists of an enclosed secure holding area with benches. This area has a restroom with a saloon style door for privacy. Medical, mental health, dental and the infirmary are found in the remainder of the building. The infirmary and mental health are found on the back end of the building while dental and medical are at the front. Medical consists of an emergency room and a plethora of exam rooms. All exam rooms have a solid door with a security window. The restrooms in medical are either saloon style or they are a solid door with a half-painted security window. Dental is open with walls that are half solid and half window. Mental health consists of a few offices and a conference room. The medical, mental health and dental areas are equipped with reflective mirrors to alleviate blind spots and assist with monitoring.

Housing units 3, 4, 7 and 8 are multiple occupancy cell units that have the same set up and mirror each other. Upon entry to the building is an officer’s desk and an open vestibule with three hallways leading to the sections. The vestibule area contains a barbershop, craft room, medical room and multipurpose room. Each housing unit contains three sections and each section contains three pods. Each section has a picket (officer’s station) located outside in the middle of the three pods. A pedestrian vestibule is located around the picket leading to the pods. All pods have a solid secure metal door for entry. Pods are three tiered with tiers connected by steps. The outer two pods have one staircase while the middle pod has two staircases (one on each end). Dayrooms are found on the first tier of each pod. The dayrooms contain tables, stools, benches, telephones and televisions. Showers are found on all three tiers, tier two and
three have two showers and tier one has one shower. All showers are equipped with saloon doors for privacy. Additionally, the first tier has a toilet for inmates in the dayroom. The toilet has a constructed metal wall for privacy. All cells are double bunked and contain a desk, stool, lockers, shelves, a sink and a toilet. Cell doors are solid with two security windows with metal lattice material. All housing units are equipped with cameras and reflective mirrors for supplemental monitoring. Each building has its own recreational yard. This is a large open space with basketball hoops, a weight area, tables and benches. The recreation yards have urinals that contain cubicle style metal barriers around them for privacy.

Housing units 18 and 19 are open bay style units that house general population inmates. Housing unit 18 is currently closed and unoccupied. The units are identical and mirror each other. The units share an outdoor recreation area that contains basketball hoops, a handball wall and a weight area. The urinals in the recreation area have metal side barriers that provide privacy. A linen exchange area is located upon entry into the housing units. This is an enclosed secure area with shelves. Each building contains four open bay style pods. A picket is located in the middle of the four pods, with two on each side. Each pod has a separate solid metal secure entry door. A pedestrian vestibule is located outside the picket and contains a barbershop and an indoor recreation area. The indoor recreation area is closed and not utilized; however it contains a basketball court, weight area and a restroom with a metal barrier. Each pod has two floors, with the second floor only containing inmate living space. Two of the pods are larger while two are smaller. The smaller pods are half of the larger pods. Each smaller pod has a dayroom at the front of the living area while the larger pods have two dayrooms, one on each side. The dayrooms are equipped with tables, benches, telephones and televisions. The restroom is located on one side of the living area in the smaller pods while the larger pods have two restrooms, one on each side. The toilets and urinals are on one wall while the sinks are on the other. The toilets have individual metal barriers as well as a metal barrier at the entrance. The showers are located separate the toilets and sinks and also have an large metal wall for privacy. The remaining area in the pods is living space. Living areas are separated by cubicle style walls. Each cubicle contains a bed, locker and desk. Both buildings are equipped with cameras and mirrors for supplemental monitoring.

Housing unit 11 is currently closed and not utilized. The building has been offline for years and it not utilized for any purpose due to physical plant issues. As such, no inmates or staff occupy this building.

Building 12 is where intake occurs. Inmates exit the transportation bus/van and are placed in a holding area. Upon entry to the building, inmates are strip searched behind a wall barrier. The picket is located at the entrance as well as offices for interviews and screening information. The building has its own kitchen; however it is not currently utilized. All food is prepared in the main kitchen and transported to the building. In addition to the kitchen, the building contains a barbershop, six video visitation rooms and numerous offices. Building 12 contains all Safe Keeping inmates. The building is broken into six sections down a long hallway. Each section contains six pods. A picket is located in the center of the six pods with a pedestrian vestibule around it. A solid metal door separates three pods on the one side of the picket from the other three on the opposite side. Each pod has a secure metal gate for entry. All sections and pods mirror one another. Each pod is two tiered and each tier contains a single shower. The showers have solid doors with a security window. All cells are single bunked with a toilet, sink and desk. Cell doors are solid with lattice type material over a security window. Each pod has its own dayroom on the first floor. The dayroom is enclosed and has a bench for seating. It also has a toilet that contains three metal sides for privacy. The six sections share four outside recreational yards. These yards are enclosed secure areas with a basketball hoop and a pullup bar. Each yard has a urinal with a metal barrier.

The infirmary is located in medical and contains seventeen single man cells. One of the cells is authorized to be utilized for suicide observation status or direct observation status. All cells have a hospital bed, toilet, sink and television. Cell doors are solid with lattice type material over the security window. The shower is located near the mental health offices and contains two showers. One is equipped with a curtain while the other is open bar stock with added expanded metal for privacy. The infirmary also has a
dayroom area diagonal from the showers that is utilized for video visitation. It contains benches, telephones and a computer. The restroom in the dayroom has half-painted windows for privacy.

All housing units and most common areas have PREA information painted in English and Spanish. Additionally, opposite gender announcement information was painted at the entrance of each housing unit door. Cameras are located throughout the units as well as reflective mirrors.

The facility employs 310 staff. Staff mainly make up two shifts, day shift works from 5:30am-6:00pm and evening shift works from 5:30pm-6:00am. An additional administrative shift works from 8:00am-5:00pm. Lieutenants serve as the shift supervisors and a building Captain and a building Major are on-site Monday through Friday and serve as the highest security supervisory level staff. Housing units are equipped with Picket Officers as well as Roving Officers. Roving Officers are responsible for a specific building, which contains either three or four housing units. Picket Officers are located in the picket (officer’s station) of each building and are responsible for management of all housing units in an area of the building. Additional officers are assigned to other areas to include; recreation, shakedown, escort, kitchen, intake, transport, visitation, utility, etc. The facility employs 64 contractors that make up medical and mental health care staff and education staff. The facility also has numerous volunteers that have contact with inmates. Currently the facility has 129 volunteers that provide services to the inmates.

The total capacity for the facility is 2092. On the first day of the audit the population at the facility was 2004. The facility houses adult male inmates. The age range of the facility’s population is eighteen to 89 years of age. The facility houses G1-G5 inmates, P2-P5 inmates (Safe Keeping) and medical inmates (MD). The average length of stay for inmates at the facility is approximately three years and six months.

Standard 115.11: Zero tolerance of sexual abuse and sexual harassment; PREA coordinator

115.11 (a)
- Does the agency have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment? ☒ Yes ☐ No
- Does the written policy outline the agency’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment? ☒ Yes ☐ No

115.11 (b)
- Has the agency employed or designated an agency-wide PREA Coordinator? ☒ Yes ☐ No
- Is the PREA Coordinator position in the upper-level of the agency hierarchy? ☒ Yes ☐ No
- Does the PREA Coordinator have sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities? ☒ Yes ☐ No

115.11 (c)
- If this agency operates more than one facility, has each facility designated a PREA compliance manager? (N/A if agency operates only one facility.) ☒ Yes ☐ No ☐ NA
- Does the PREA compliance manager have sufficient time and authority to coordinate the facility’s efforts to comply with the PREA standards? (N/A if agency operates only one facility.) ☒ Yes ☐ No ☐ NA

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Documents:
1. Pre-Audit Questionnaire
2. Safe Prisons/PREA Plan
3. Prison Rape Elimination Act Ombudsman Policy Statement BP-02.09
4. Executive Order ED-03.03
Interviews:
1. Interview with the PREA Coordinator
2. Interview with the PREA Compliance Manager

Findings (By Provision):

115.11 (a): The agency has a comprehensive PREA Policy: Safe Prisons/PREA Plan as well Executive Orders, Policy Statements, Post Orders, Administrative Directives and numerous other policies and procedures that supplement the PREA Plan. The agency mandates a zero-tolerance policy towards all forms of sexual abuse and sexual harassment and outlines the strategies on preventing, detecting and responding to such conduct. Agency policies address “Preventing” sexual abuse and sexual harassment through the designation of a PC, criminal history background checks (staff, volunteers and contractors), training (staff, volunteers and contractors), staffing, intake/risk screening, inmate education and posting of signage (PREA posters, etc.). The policies address “Detecting” sexual abuse and sexual harassment through training (staff, volunteers, and contractors), and intake/risk screening. The policies address “Responding” to allegations of sexual abuse and sexual harassment through reporting, investigations, victim services, medical and mental health services, disciplinary sanctions for staff and inmates, incident reviews and data collection. Agency policies are consistent with the PREA standards and outline the agency’s approach to sexual safety.

115.11 (b): ED-03.03 confirms the responsibilities of the PC and BP-02.09 states that the TDCJ PREA Ombudsman shall coordinate the TDCJ efforts to comply with the PREA standards in all its correctional and community facilities. Additionally, it states that the PREA Ombudsman will have sufficient time and authority to oversee TDCJ’s policies related to the implementation of the PREA. The agency’s organizational chart reflects that the PC position is an upper-level position and reports to the Texas Board of Criminal Justice. The PC stated that she has enough time to manage all her PREA related responsibilities. She indicated she has a lot of help and that there are numerous regional and facility staff that assist her with ensuring compliance. The PC stated that together with these staff they develop recommendation to correct any policies, procedures and practices to comply with PREA standards. Additionally, she stated that if there is an issue complying with a PREA standard she would work with the regional and facility staff to ensure correction.

115.11 (c): The facility has a staff member responsible for ensuring PREA compliance (Unit Safe Prisons PREA Manager – USPPM). PO-07.150 states that the USPPM shall assist the unit Warden with monitoring the Safe Prisons/PREA Program, as well as coordinate and maintain compliance with PREA standards at the unit level. The facility’s organizational chart as well as PO-07.150 confirm the USPPM is responsible for PREA compliance and that this staff member reports directly to the Warden. The interview with the Compliance Manager indicates she has sufficient time to coordinate the facility’s PREA compliance. She stated that she monitors the different areas of the facility, she conducts the risk assessments, monitors for retaliation and ensures she is available at mass movement so inmates can speak to her about any issues. She also stated she monitors other departments to make sure staff are conducting the appropriate process such as training and classification.

The evidence shows that the agency has a PREA policy, has designated an upper-level PC as verified through policy and the organizational chart and has a PREA Compliance Manager as verified through policy and the organizational chart. Based on the review of the PAQ and related documents, PREA implementation appears to comply with the standard under the PC and Compliance Manager. The preparedness for the audit, the absence of any additional job duties and overall incorporation of
institutionalized sexual safety practices demonstrates that the PC and CM have sufficient time and authority to accomplish PREA responsibilities for the agency and facility. The CM’s exceptional work in obtaining and maintaining PREA compliance at the facility as well as her numerous duties, preparedness and stellar organization indicates the facility exceeds this standard.

Standard 115.12: Contracting with other entities for the confinement of inmates

115.12 (a)
- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity’s obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☒ Yes ☐ No ☐ NA

115.12 (b)
- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☒ Yes ☐ No ☐ NA

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Documents:
1. Pre-Audit Questionnaire
2. Administrative Directive AD-02.46
3. Contracts for Confinement of Inmates

Interviews:
1. Interview with the Agency’s Contract Administrator

Findings (By Provision):

115.12 (a): The agency has 37 contracts related to the confinement of parolee and probationers; ten secure, eight re-entry and nineteen transitional treatment. AD-02.46 requires all contracts to comply with all applicable TDCJ policies and procedures. A review of a sample of the 37 contracts confirmed that all had language requiring compliance with PREA standards. The Secure Treatment contracts stated that
the contractor shall comply with the PREA standards for adult prisons and jails and they are required to report any sexual abuse or sexual harassment to TDCJ. The Residential Corrections Centers and Transitional Treatment contracts state that the contractor shall comply with the PREA community confinement standards and report any sexual abuse or sexual harassment to TDCJ. Additionally, newer contracts also contain language requiring the contractor to obtain PREA compliance within twelve months of the service commencement date and indicates that they must maintain compliance at all times thereafter.

115.12 (b): The agency has 37 contracts related to the confinement of parolees and probationers; ten secure, eight re-entry and nineteen transitional treatment. AD-02.46 requires all contracts to comply with all applicable TDCJ policies and procedures. A review of the 37 contracts confirmed that all had language requiring compliance with PREA standards. The Secure Treatment contracts stated that the contractor shall comply with the PREA standards for adult prisons and jails and they are required to report any sexual abuse or sexual harassment to TDCJ. The Residential Corrections Centers and Transitional Treatment contracts state that the contractor shall comply with the PREA community confinement standards and report any sexual abuse or sexual harassment to TDCJ. Additionally, newer contracts also contain language requiring the contractor to obtain PREA compliance within twelve months of the service commencement date and that they must maintain compliance at all times thereafter. The interview with the Agency’s Contract Administrator indicated that each Secure Treatment facility has a staff member responsible for monitoring PREA compliance. The Transitional Treatment contracts and the Residential Corrections Centers are monitored at least monthly via contract reviews. The Administrator stated that all of the contracts are in compliance with PREA currently and that each facility reports the required information through their chain of command and that the contract monitors check to ensure adherence to protocols.

Based on the review of AD-02.46, the PAQ, a review of the language within a sample of the agency’s 37 contracts and the interview with the agency’s contract administrator, this standard appears to be compliant.

**Standard 115.13: Supervision and monitoring**

**115.13 (a)**

- Does the facility have a documented staffing plan that provides for adequate levels of staffing and, where applicable, video monitoring, to protect inmates against sexual abuse? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Generally accepted detention and correctional practices? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any judicial findings of inadequacy? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any findings of inadequacy from Federal investigative agencies? ☒ Yes ☐ No
In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any findings of inadequacy from internal or external oversight bodies? ☒ Yes ☐ No

In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: All components of the facility’s physical plant (including “blind-spots” or areas where staff or inmates may be isolated)? ☒ Yes ☐ No

In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The composition of the inmate population? ☒ Yes ☐ No

In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The number and placement of supervisory staff? ☒ Yes ☐ No

In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The institution programs occurring on a particular shift? ☒ Yes ☐ No ☐ NA

In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any applicable State or local laws, regulations, or standards? ☒ Yes ☐ No

In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The prevalence of substantiated and unsubstantiated incidents of sexual abuse? ☒ Yes ☐ No

In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any other relevant factors? ☒ Yes ☐ No

115.13 (b)

In circumstances where the staffing plan is not complied with, does the facility document and justify all deviations from the plan? (N/A if no deviations from staffing plan.) ☒ Yes ☐ No ☐ NA

115.13 (c)

In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The staffing plan established pursuant to paragraph (a) of this section? ☒ Yes ☐ No

In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The facility’s deployment of video monitoring systems and other monitoring technologies? ☒ Yes ☐ No

Site Review Observations:
1. Staffing Levels
2. Security Rosters for all Shifts

Findings (By Provision):

115.13 (a): AD-11.52 indicates that the Security Operations Department is responsible for approving staffing plans and shift turnout rosters for each state operated unit. Additionally, the Safe Prisons/PREA Plan, page 10-11 states that TDCJ shall ensure each unit develops, documents and complies with a staffing plan that provides adequate levels of staffing. It indicates that when calculating adequate staffing the unit will take into consideration; generally accepted detention practices, any judicial findings of
inadequacy, any finding of inadequacy from Federal investigative agencies, any finding of inadequacy from internal or external oversight bodies, all components of the facility's physical plant, the composition of the inmate population, the number and placement of supervisory staff, the institutional programs occurring on a particular shift, any applicable State or local laws, the prevalence of substantiated and unsubstantiated incident of abuse and any other relevant factors. The PAQ as well as the current staffing plan indicated that staffing is based off the facility’s maximum capacity (2020). The facility employs 310 staff. Staff mainly make up two shifts, day shift works from 5:30am-6:00pm and evening shift works from 5:30pm-6:00am. An additional administrative shift works from 8:00am-5:00pm. Lieutenants serve as the shift supervisors and a building Captain and a building Major are on-site Monday through Friday and serve as the highest security supervisory level staff. Housing units are equipped with Picket Officers as well as Roving Officers. Roving Officers are responsible for a specific building, which contains either three or four housing units. Picket Officers are located in the pcket (officer’s station) of each building and are responsible for management of all housing units in an area of the building. Additional officers are assigned to other areas to include; recreation, shakedown, escort, kitchen, intake, transport, visitation, utility, etc. Interviews with the Warden and the CM confirmed that the facility has a staffing plan that provides adequate staffing levels and that they comply with the plan on a regular basis. The Warden stated that the plan is reviewed annually and that the Safe Prisons staff are involved in the process. He stated that they take into consideration any incidents that have occurred over the previous twelve months when they review and modify the plan. He indicated that they identify any areas of concern and that all activities are evaluated, to include what occurs on particular shifts. He stated that more staff are placed in areas with higher custody inmates and that while no findings of inadequacies have been found that they would be taken into consideration.

115.13 (b): The facility indicated in the PAQ that deviations from the staffing plan had occurred and indicated these occurrences were due to staff shortage, unforeseen circumstances, hospital security, hospital transport, constant direct observation and major maintenance projects. The SOPM-08.01, page 2 and the Safe Prisons/PREA Plan, page 11 indicate that all deviations from the staffing plan are required to be documented and justified on the back side of the security roster. A review of a sample of fifteen security rosters indicated that deviations are documented on the back of the roster. The interview with the Warden indicated that all deviations are documented on the back of the shift rosters and that he requires shift supervisors to send him an email with any deviations as well. He indicated he makes recommendations and forwards them to the Regional Director for approval.

115.13 (c): SOPM 08.06 and the Safe Prison/PREA Plan, page 11, describe the required annual review. They indicate that each unit shall complete an assessment, whenever necessary, but no less frequently than once a year. The staffing plan was reviewed and a statement of participation was signed by the Regional Director, the Warden, the Security Operations Warden, the PREA Coordinator and the Staffing Coordinator for Security Operations on September 24, 2020. The plan was reviewed to assess, determine and document whether any adjustments were needed to the staffing plan, the unit’s deployment of video monitoring technologies and/or the resources the unit had available to commit to ensuring adherence to the staffing plan. A review of prior reviews confirmed that the staffing plan was previously reviewed on June 26, 2019 and June 20, 2018. The PC confirmed in the interview that the review is completed annually and that leadership assesses, determines and documents whether adjustments are necessary. She indicated that she is not directly involved during the review but she does review them afterward.

115.13 (d): The SAFE Prison/PREA Plan, page 9, section B, indicates that security supervisors are required to conduct and document unannounced rounds on all shifts to identify and deter sexual abuse and sexual harassment. Unannounced rounds are conducted by the building Sgt., Lt. and/or Captain and are documented at the bottom of the shift turnover roster. A review of Post Orders 002 through 005 (Sgt., Lt., Captain and Major) confirm that required duties for these security staff include frequently conducting
and appropriately documenting unannounced inspections of all areas where staff are assigned. Interviews conducted with intermediate-level or higher-level staff indicated that supervisors are required to make unannounced rounds and that these rounds are documented on the back of the shift roster. The Major indicated that he documents his rounds on the visitor’s log, but that shift supervisor document their rounds on the back of the shift roster. A review of the PAQ supplemental documentation to include ten shift turnout rosters confirmed that unannounced rounds were made on both shifts. An additional review of the shift rosters during the on-site portion of the audit indicated that unannounced rounds were being made and documented on both shifts. Additionally, the SAFE Prisons/PREA Plan prohibits staff from alerting other staff members about the rounds unless the announcement is related to legitimate operational functions of the unit. During the interviews, intermediate-level or higher-level staff stated that they hold their staff accountable through discipline and train them on the procedure related to the prohibition of alerting other staff. Additionally, they stated that they do their rounds at different times and locations and that they do not follow any specific schedule or routine.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, AD-11.52, SOPM 08.06, SOPM 08.01, Post Orders, the staffing plan, the security rosters, documentation of unannounced rounds, observations made during the tour and interviews with the Warden, PC, CM and intermediate-level or higher-level staff, this standard appears to be compliant.

Findings (By Provision):

115.14 (a): The Safe Prisons/PREA, Plan page 10, section C, as well as Unit Classification Procedure 4.19, Unit Classification Procedure 16.15 and CPOM 01.01 describes the procedures for Youthful Inmates. Policies indicates that youthful offenders shall not be placed in housing units where the youthful offender will have sight, sound or physical contact with any adult offender through the use of a shared dayroom or other common space, shower area or sleeping quarters. While the agency does house youthful inmates, the Connally Unit does not. A review of the daily population report indicated that no inmates under the age of 18 were housed at the unit within the previous twelve months. During the tour, it was observed that no inmates under the age of 18 were housed at the facility.

115.14 (b): The Safe Prisons/PREA Plan, page 10, section C, as well as Unit Classification Procedure 4.19, Unit Classification Procedure 16.15 and CPOM 01.01 describes the procedures for youthful inmates. Policies indicates that when youthful offenders are outside of the housing areas, correctional staff shall maintain sight and sound separation between youthful offenders and adult offenders as well as provide direct supervision when youthful offenders and adult offenders have any sight, sound or physical contact. While the agency does house youthful inmates, the Connally Unit does not. A review of the daily population report indicated that no inmates under the age of 18 were housed at the unit within the previous twelve months. During the tour, it was observed that no inmates under the age of 18 were housed at the facility.

115.14 (c): The Safe Prisons/PREA Plan page, 10, section C, indicates that the agency (TDCJ) shall make best efforts to avoid placing youthful offenders in isolation for the purpose of maintaining sight and sound separation. It also indicates that daily large muscle exercise and legally required special education
services required to comply with the standard shall not be denied except in exigent circumstances. Additionally, youthful inmates shall have access to other programs and work opportunities to the extent possible. While the agency does house youthful inmates, the Connally Unit does not. A review of the daily population report indicated that no inmates under the age of 18 were housed at the unit within the previous twelve months. During the tour, it was observed that no inmates under the age of 18 were housed at the facility.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, Unit Classification Procedures 4.19 and 16.15, CPOM 01.01, daily population reports and observations made during the tour this standard appears to be compliant.

**Standard 115.15: Limits to cross-gender viewing and searches**

2. Observation of Absence of Female Inmates
3. Observation of Cross Gender Announcement Placard and Actual Announcement

Findings (By Provision):

115.15 (a): The Safe Prisons/PREA Plan, page 9, section B as well as AD-03.22, page 2, prohibit staff from conducting cross gender strip searches and cross gender body cavity searches except in exigent circumstances. Additionally, Post Orders state that staff are required to request a security supervisor’s approval if an exigent circumstance arises and a cross-gender strip search of a male offender is required. The Safe Prisons/PREA Program in-service training goes over these requirements on pages 4-10. The PAQ indicated that no searches of this kind were conducted at the facility over the past twelve months. Interviews with inmates indicated that 35 of the 43 had never been naked in front of female staff. One inmate indicated he was naked during a search and that it occurred at a different facility a long time ago. Another inmate indicated she was searched by a female because as a transgender that is her search preference.

115.15 (b): AD-03.22, page 2, prohibit staff from conducting cross gender pat searches of female inmates. The PAQ indicated that no female inmates are housed at the facility and therefore this section of the standard would not apply to the Connally Unit. A review of the unit mission and demographics as well as observations made during the tour indicated that no female inmates are or were housed at the facility in the previous twelve months.

115.15 (c): The Safe Prisons/PREA Plan, page 9 and AD-03.22 page 4, requires staff to document all cross-gender strip searches, cross gender visual body cavity searches and cross gender pat searches of female inmates by the security supervisor through the approving Warden. Post Orders state that staff are required to request a security supervisor’s approval if an exigent circumstance arises and a cross-gender strip search of a male offender is required. Additionally, they state that staff are required to document the approved cross-gender search on the Inter-Office Communication. The Safe Prisons/PREA Program in-service training goes over these requirements on pages 4-10. The PAQ indicated that no cross-gender searches had been conducted in the previous twelve months and that female inmates are not housed at the facility.

115.15 (d): The Safe Prisons/PREA Plan, page 9, section B as well as Post Orders, indicate that the facility enables inmates to shower, perform bodily functions and change clothes without staff of the opposite gender viewing their breasts, buttocks or genitalia. Additionally, they require staff of the opposite gender to announce their presence prior to entering a housing unit. Specifically, Post Orders (page 2 and 3) require staff to announce their presence when entering the dorm if the dorm officer is of the opposite gender of the offenders housed in the dorm housing area. Additionally, they state that a verbal announcement is made any time the gender supervision of a dorm changes and the announcement is for both security and non-security staff. The Safe Prisons/PREA Program in-service training goes over these requirements on pages 4-10. Interviews with random inmates and interviews with random staff indicated that inmates have privacy when showering, using the restroom and changing their clothes. All fourteen staff indicated during interviews that inmates have privacy from opposite gender staff. 35 out of 43 inmates indicated they had not been taken in front of female staff. Two inmates indicated they have been in the shower, however there are saloon doors. Three other inmates indicated they had been at
other units a long time ago. All fourteen staff interviewed and 28 of the 43 inmates interviewed indicated that staff of the opposite gender announce their presence when entering a housing unit. During the tour, the auditor heard the opposite gender announcement being made upon entry into the inmate living area. Additionally, housing unit doors were painted with a reminder for cross-gender staff to announce their presence. The auditor observed that all housing units and common areas provided privacy via saloon style doors, solid door with security windows and lattice type material, half walls, metal walls, mobile barriers and curtains.

115.15 (e): The Safe Prisons/PREA Plan, page 16 and AD-03.22, page 2, prohibits staff from searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. Additionally, the Safe Prisons/PREA Program in-service training, page 10, directs staff on this requirement. The PAQ indicated that there had been no searches of this nature within the past twelve months. Interviews with random staff indicate that all fourteen were aware there was a policy prohibiting these searches. Most of the staff indicated they are only authorized to strip search inmates to detect contraband. Interviews with six transgender inmates indicated that four had not been searched for the sole purpose of determining their genital status. One inmate indicated she was strip searched for contraband but she felt they were actually stripping her for another reason. The other inmate indicated that she was stripped after recreation and she is stripped with the rest of the inmates and she feels she should be stripped separate.

115.15 (f): The Safe Prisons/PREA Plan, page 33 and AD-03.22 page 2 indicate that security staff are trained on conducting cross gender pat searches and searches of transgender and intersex inmates in a professional and respectful manner. The Contraband and Searches Training, page 8-15 as well as the Safe Prisons/PREA Program In-Service Training, page 4-6 and 9-11 outline these professional and respectful search techniques. The PAQ indicated that 100% of security staff had received this training. A review of a random sample of fourteen staff training records indicated that all fourteen had received the search training either at pre-service (the academy) or at annual in-service. The training includes a video on cross-gender and transgender searches. Interviews with a random staff indicated that all fourteen received this training.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, AD-03.22, SPPOM-02.05, Post Orders, the Safe Prisons/PREA Program In-Service Training, the Contraband and Searches In-Service Training, a random sample of staff training records, observations made during the tour to include the opposite gender announcement, privacy barriers, half walls, metal walls, saloon doors, shower curtains and solid doors, as well as information from interviews with staff and inmates, indicate that this standard appears to be compliant.

**Standard 115.16: Inmates with disabilities and inmates who are limited English proficient**

115.16 (a)

Findings (By Provision):

115.16 (a): The Safe Prisons/PREA Plan, page 20-21 as well as the Correctional Managed Health Care Policy Manual G-51.1 and AD-06.25 establish the procedure to provide disabled inmates an equal opportunity to benefit from all the aspects of the facility’s efforts to prevent, detect and respond to sexual abuse and sexual harassment. Inmates who are deaf or hard of hearing are provided information in American Sign Language (ASL) while inmate who are blind or have an intellectual/cognitive disability
would be read PREA information. The interview with the Agency Head Designee indicated that the agency has established procedures to provide inmates with disabilities and inmates who are LEP equal opportunity to participate in or benefit from all of the agency’s sexual abuse and sexual harassment policies. He stated that information is delivered in different formats, written, video, English, Spanish, American Sign Language, etc. He stated that facilities that house deaf and blind offenders use an alert system of lights and bells to alert gender supervision changes in the housing area. He also stated there are policies for providing assistance to any offender identified as having special needs. A review of three disabled inmate records indicated that all three signed that they received and understood the PREA video transcript. Interviews with three disabled inmates indicated all three received the information in a format they could understand. One inmate indicated he was provided the transcript because they knew he couldn’t hear the television and another inmate indicated he was provided the information in large print so he could use his magnifying glass to read it. During the tour, the PREA signage was observed to be in adequate ADA (Americans with Disabilities Act) format text and in bright colors.

115.16 (b): The Safe Prisons/PREA Plan, page 20-21 as well as Correctional Managed Health Care Policy Manual E-37.05 and AD-04.25, establish the procedure to ensure meaningful access to all the aspects of the facility’s efforts to prevent, detect and respond to sexual abuse and sexual harassment to inmates who are Limited English Proficient. The facility has a qualified staff interpreter list that is utilized for any inmates who are LEP. Additionally, the facility can utilize LanguageLine Solutions, a telephone service that will translate information between the staff member and LEP inmate. Policy and interviews indicate that the agency’s PREA information is available in numerous formats to include; written, video, English, Spanish, American Sign Language, etc. and that PREA information is available throughout the facility in English and Spanish. The interview with the Agency Head Designee indicated that the agency has established procedures to provide inmates with disabilities and inmates who are LEP equal opportunity to participate in or benefit from all of the agency’s sexual abuse and sexual harassment policies. He stated that information is delivered in different formats, written, video, English, Spanish, American Sign Language, etc. He stated the agency has staff certified interpreters within the facilities and a database of employees who speak different languages is maintained. A review of a sample of intake documentation from June through December indicated that ten of the fourteen signed that they received the PREA video transcript in Spanish. Four were unable to sign, but the documentation indicated it was provided to them in Spanish. Interviews with four LEP inmates indicated that all four received information in a format they could understand. All four indicated they were provided information in Spanish. During the tour, it was observed that PREA signage was posted throughout the facility in English and Spanish.

115.16 (c): The Safe Prisons/PREA Plan, page 21, prohibits the use of inmate interpreters, readers or any other type of inmate assistants for allegations of sexual abuse and sexual harassment. The PAQ indicated that there were no instances where an inmate was utilized. Interviews with random staff indicated that nine of the fourteen were aware the agency has a policy prohibiting the use of inmates to interpret, translate, read or provide assistance for sexual abuse allegations. All fourteen staff did indicate they were unaware of a time an inmate had ever been utilized. Interviews with four LEP inmates indicated that none of the four had another inmate provide any type of assistance.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, AD-04.25, AD-06.25, CMHPCM G-51.1, CMHPCM E-37.05, the qualified staff interpreter list, the Safe Prisons/PREA Program brochure, the LanguageLine Solutions information, observations made during the tour to include the PREA signage as well as interviews with the Agency Head Designee, disabled inmates and LEP inmates indicates that this standard appears to be compliant.

Standard 115.17: Hiring and promotion decisions
115.17 (a)

Interviews:
1. Interview with Human Resource Staff

Findings (By Provision):

115.17 (a): The Safe Prisons/PREA Plan, page 27, section 1 as well as Executive Directive PD-75, indicate that the agency will not hire or promote anyone who may come in contact with inmates, and shall not enlist the services of any contractor who may have contact with inmates if they have: engaged in sexual abuse in prison, jail, lockup or any other institution; been convicted of engaging or attempting to engage in sexual activity in the community or has been civilly or administratively adjudicated to have engaged in sexual abuse by force, overt or implied threats of force or coercion. The PAQ indicated that the agency prohibits hiring or promoting anyone who has engaged in the activities under this provision. A review of personnel documentation for the 94 staff hired in the previous twelve months confirmed that all 94 had a criminal background check completed prior to hiring. Additionally, a sample of ten of the files indicated that all had answered questions in written format related to committing prior sexual abuse or sexual harassment.

115.17 (b): The Safe Prisons/PREA Plan, page 27, indicates that the agency considers any incidents of sexual harassment in determining whether to hire or promote any staff or enlist the services of any contractor who may have contact with an inmate. Human Resource staff indicated that it is part of their clearance process. All applicants, including contractors, are asked a question related to substantiated allegations of sexual harassment.

115.17 (c): The Safe Prisons/PREA Plan, page 39, indicates that the agency is required to perform criminal background checks and make its best effort to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignations during a pending investigation of sexual abuse for new employees that may have contact with inmates. The PAQ indicated that 94 (100%) staff hired in the past twelve months that may have contact with inmates had received a criminal background check and prior institutional employers were contacted. A review of documentation indicated 100% of staff hired in the previous twelve months had a criminal background completed. Additionally, all staff are fingerprinted and any future arrest is automatically reported to the agency through the Fingerprint-based Applicant Clearinghouse of Texas (FACT). The interview with Human Resources indicated that all applicants have a criminal background check completed as part of the pre-employment process. The agency reviews the applicants Federal Bureau of Investigations (FBI) and Texas Department of Public Safety (DPS) criminal history and arrest records.

115.17 (d): The Safe Prisons/PREA Plan, page 39, indicates that the agency performs criminal background checks before enlisting the services of any contractor who may have contact with inmates. The PAQ indicated that there have been two contracts at the facility within the past twelve months. Of the two contracts, 100% of the contractors have had a criminal background check completed prior to enlisting services. A review of a random sample of seven contractor personnel files indicated that all seven had a criminal background check conducted. One of the seven contractor’s information was
unavailable as the criminal history met the retention schedule; however the auditor was showed information indicating it had been completed but met retention. Human Resource staff indicated that all contractors have a criminal background check completed prior to working at the facility.

115.17 (e): The PAQ indicated that the agency has a policy that requires that either criminal background checks be conducted at least every five years for current employees and contractors, or that a system is in place for otherwise capturing such information. The Safe Prisons/PREA Plan, page 39, outlines the system that is in place to capture criminal background information. The agency utilizes the FACT, a repository of the Department of Public Safety (DPS) and the Federal Bureau of Investigation (FBI) fingerprint-based criminal history results. All staff and contractors are fingerprinted upon initial hire and any future arrest are automatically reported to the TDCJ Human Resources Division. This system is more efficient than annual background checks as it is live information and the agency is notified immediately and able to terminate employment. The interview with Human Resource staff confirmed that they utilize the Criminal Justice Information System (CJIS) which alerts them of any new arrests or criminal history information for employees.

115.17 (f): The Safe Prisons/PREA Plan, page 38, indicates that the agency will ask all applicants and employees who have contact with inmates directly about whether they have: engaged in sexual abuse in prison, jail, lockup or any other institution; been convicted of engaging or attempting to engage in sexual activity in the community or been civilly or administratively adjudicated to have engaged in sexual abuse by force, overt or implied threats of force or coercion through a written application, during any interviews or through any written self-evaluations as part of a review of current employees. A review of page 1 of the Employment Application Supplement indicates that these questions are included under questions 9a, 9b, 9c, 9d and 9e. A review of documentation indicated 100% of staff completed an employment application and as such were asked about the above incidents in the employment application supplement. Additionally, the interview with Human Resource staff confirmed that all three questions on the employment application for agency employees, for outside of the agency new hires and for contract applicants.

115.17 (g): The PAQ stated that the agency policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. The Safe Prisons/PREA Plan, page 38 as well as PD-73, page 5 indicates that material omissions regarding sexual misconduct or the provision of materially false information will be subject to disciplinary action and may be grounds for termination. Human Resource staff confirmed that the agency imposes a continuing duty to disclose any previous misconduct.

115.17 (h): Executive Directive PD-56 indicates that the agency will provide information related to substantiated allegations of sexual abuse or sexual harassment involving a former employee to institutional employers for whom the employee has applied to work. The interview with the Human Resource staff indicated that the agency provides this information through open records and through the OIG.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, PD-56, PD-73, PD-75, the Employment Application Supplement, a review of personnel files for staff and contractors and information obtained from the Human Resource staff interview indicates that this standard appears to be compliant.

**Standard 115.18: Upgrades to facilities and technologies**

115.18 (a)
If the agency designed or acquired any new facility or planned any substantial expansion or modification of existing facilities, did the agency consider the effect of the design, acquisition, expansion, or modification upon the agency’s ability to protect inmates from sexual abuse? (N/A if agency/facility has not acquired a new facility or made a substantial expansion to existing facilities since August 20, 2012, or since the last PREA audit, whichever is later.)

☐ Yes  ☐ No  ☒ NA

115.18 (b)

If the agency installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology, did the agency consider how such technology may enhance the agency’s ability to protect inmates from sexual abuse? (N/A if agency/facility has not installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology since August 20, 2012, or since the last PREA audit, whichever is later.)

☒ Yes  ☐ No  ☐ NA

Interviews:
1. Interview with the Agency Head Designee
2. Interview with the Warden

Site Review Observations:
1. Observations of Absence of Modification to the Physical Plant
2. Observations of Video Monitoring Technology

Findings (By Provision):

115.18 (a): The PAQ indicated that the facility has not designed, acquired or planned any expansion or modification of the existing facility. The PAQ as well as the interviews with the Warden confirmed there have not been any modifications to the facility since the last PREA audit. The interview with the Agency Head Designee indicated that there are processes in place to ensure any new facilities or modification to existing facilities take into consideration the safety of the inmates in the construction, design or modification. He stated that there is no upcoming construction and they have no plans for expansion. During the tour, the auditor did not observe any renovations, modifications or expansions.
115.18 (b): The PAQ indicated that the facility has installed or updated video monitoring technology, electronic surveillance systems or other monitoring technology within the audit period. SOPM-07.02 indicates that prior to new installation the Surveillance Systems Coordinator must coordinate with the CM to ensure the facility's ability to protect inmates from sexual abuse. The PAQ as well as the interview with the Warden confirmed when updating or installing monitoring equipment the facility considers how the equipment will protect inmates from sexual abuse. The interview with the Agency Head Designee indicated that the agency has utilized technological enhancements via monitoring technology to supplement staffing and assist in the safety and protection of the offender population. The Warden stated that the facility reviews any incidents and part of the review is to determine if there a need for additional video monitoring. He stated there is video monitoring throughout the unit, with the exception of in the cells. During the tour, the auditor observed video monitoring technology in housing units and most common areas.

RESPONSIVE PLANNING

Standard 115.21: Evidence protocol and forensic medical examinations

115.21 (a)

- If the agency is responsible for investigating allegations of sexual abuse, does the agency follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions? (N/A if the agency/facility is not responsible for conducting any form of criminal OR administrative sexual abuse investigations.)  ☒ Yes ☐ No ☐ NA

115.21 (b)

- Is this protocol developmentally appropriate for youth where applicable? (N/A if the agency/facility is not responsible for conducting any form of criminal OR administrative sexual abuse investigations.)  ☒ Yes ☐ No ☐ NA

- Is this protocol, as appropriate, adapted from or otherwise based on the most recent edition of the U.S. Department of Justice’s Office on Violence Against Women publication, “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents,” or similarly comprehensive and authoritative protocols developed after 2011? (N/A if the agency/facility is not responsible for conducting any form of criminal OR administrative sexual abuse investigations.)  ☒ Yes ☐ No ☐ NA

115.21 (c)

- Does the agency offer all victims of sexual abuse access to forensic medical examinations, whether on-site or at an outside facility, without financial cost, where evidentiarily or medically appropriate?  ☒ Yes ☐ No
• Are such examinations performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible? ☒ Yes  ☐ No

• If SAFEs or SANEs cannot be made available, is the examination performed by other qualified medical practitioners (they must have been specifically trained to conduct sexual assault forensic exams)? ☒ Yes  ☐ No

• Has the agency documented its efforts to provide SAFEs or SANEs? ☒ Yes  ☐ No

115.21 (d)

• Does the agency attempt to make available to the victim a victim advocate from a rape crisis center? ☒ Yes  ☐ No

• If a rape crisis center is not available to provide victim advocate services, does the agency make available to provide these services a qualified staff member from a community-based organization, or a qualified agency staff member? (N/A if the agency always makes a victim advocate from a rape crisis center available to victims.) ☒ Yes  ☐ No  ☐ NA

• Has the agency documented its efforts to secure services from rape crisis centers? ☒ Yes  ☐ No

115.21 (e)

• As requested by the victim, does the victim advocate, qualified agency staff member, or qualified community-based organization staff member accompany and support the victim through the forensic medical examination process and investigatory interviews? ☒ Yes  ☐ No

• As requested by the victim, does this person provide emotional support, crisis intervention, information, and referrals? ☒ Yes  ☐ No

115.21 (f)

• If the agency itself is not responsible for investigating allegations of sexual abuse, has the agency requested that the investigating agency follow the requirements of paragraphs (a) through (e) of this section? (N/A if the agency/facility is responsible for conducting criminal AND administrative sexual abuse investigations.) ☒ Yes  ☐ No  ☐ NA

115.21 (g)

• Auditor is not required to audit this provision.

115.21 (h)

• If the agency uses a qualified agency staff member or a qualified community-based staff member for the purposes of this section, has the individual been screened for appropriateness to serve in this role and received education concerning sexual assault and forensic examination issues in general? (N/A if agency always makes a victim advocate from a rape crisis center available to victims.) ☒ Yes  ☐ No  ☐ NA

Interviews:
1. Interview with Random Staff
2. Interview with the PREA Compliance Manager
3. Interview with Inmates who Reported Sexual Abuse

Findings (By Provision):

115.21 (a): AD-16.03, Evidence Handling, and OIG-04.05 outline the uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. All investigators follow the same evidence protocol no matter the crime. The PAQ indicated that the facility is responsible for conducting administrative investigations while the Office of the Inspector General (OIG) is responsible for conducting administrative and criminal investigations. Interviews with random staff indicated that all fourteen were aware of the evidence protocol. They indicated they would preserve any evidence and treat the area like a crime scene. Staff also stated that investigations are completed by those who have the appropriate training, including the PREA/Safe Prisons staff, the Major and the OIG.

115.21 (b): AD-16.03 and OIG-04.05 outline the uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. Per the PAQ as well as the Safe Prisons/PREA Plan this was developed appropriate for youth and was adapted from the DOJ’s Office of Violence Against Women publication, “A National Protocol for Sexual Assault Medical Forensic Examinations, Adult/Adolescents”.

115.21 (c): The Safe Prisons/PREA Plan, page 13-14, section 5 indicates that all inmate victims of sexual abuse shall be offered access to forensic medical examinations at no cost. The facility does not offer forensic medical examinations on-site. Rather the inmate is transported to a local hospital where the forensic examination is performed by nurses with specialized training. The PAQ indicated that during the
previous twelve months, there have been five forensic examination conducted by a SAFE/SANE. The PAQ also indicate that victims of sexual assault who require a forensic examination are taken to the nearest hospital emergency department for completion of the exam. State law (SB-1191) requires that hospital staff have specialized training to complete a forensic exam but does not require that they be SANE or SAFE trained. When possible though, SANE or SAFE will be utilized. During the audit period, there were five instances where an inmate was provided a forensic medical examination. A review of documentation confirmed all five were provided an examination at a local hospital. An interview was unable to be conducted due to the SANEs/SAFEs being employed by the local hospital.

115.21 (d): The PAQ indicated that the facility attempts to make a victim advocate from a rape crisis center available to the victim, either in person or by other means and that these efforts are documented. Additionally, the PAQ indicated that if and when a rape crisis center is not available, the facility provides a qualified staff member from a community-based organization or a qualified agency staff member. The Safe Prisons/PREA Plan, page 12, outlines the process for offender victim services. The plan indicates that attempts shall be made to make a victim advocate from a rape crisis center available to the offender victim. Additionally, the plan indicates that the Warden shall designate at least two Offender Victim Representatives (OVR) to serve as the TDCJ qualified staff member to provide advocacy services. The facility has made numerous attempts to secure a victim advocate from a rape crisis center to accompany the inmate victim during forensic medical examinations and investigatory interviews. A review of numerous solicitation letters from 2018 to 2020 confirm the efforts. However, at the time of the audit they have been unable to establish an agreement. The agency continues to solicit community rape crisis organization to provide services, specifically the Guadalupe Valley Family Violence Shelter, Inc. for the Connally Unit. The facility has five staff identified to serve as the qualified staff members who provide advocacy services when necessary. All five are documented with Offender Victim Representative training. The interview with the CM confirmed that the agency has attempted to get a rape crisis center to provide services, however the agency has not been successful. She stated that once an inmate alleges sexual abuse he is immediately offered an OVR. If he accepts, the OVR will go to the hospital for the examination and will be there during interviews. Additionally, she stated that once the inmate gets to the hospital, hospital staff ask the inmate if he wants a second victim advocate. Five inmates who reported sexual abuse or sexual harassment were interviewed. All five indicated they were not offered anyone to speak to after their allegation. One of the inmates indicated that he was offered a mailing address and telephone number but he already had the information. It should be noted that all five of the inmates interviewed had allegations that did not involve penetration or a forensic examination. Additionally, a review of documentation indicated that after each sexual abuse allegation the inmate is offered access to the OVR. Their response is documented on the PREA checklist. Three of the five inmates who were provided a forensic examination accepted the OVR accompaniment.

115.21 (e): The Safe Prisons/PREA Plan, page 12, outlines the process for offender victim services. The plan indicates that attempts shall be made to make a victim advocate from a rape crisis center available to the offender victim. Additionally, the plan indicates that the Warden shall designate at least two OVRs to serve as the TDCJ qualified staff member to provide advocacy services. SPPOM-05.01, page 2 states that following an allegation of sexual abuse, the security supervisor shall offer the offender a victim advocate, where available, or an OVR to accompany and provide the offender with emotional support services during the forensic examination and/or investigatory interviews. The facility has made numerous attempts to secure a victim advocate from a rape crisis center to accompany the inmate victim during forensic medical examinations and investigatory interviews. A review of numerous solicitation letters from 2018 to 2020 confirm the efforts. However, at the time of the audit they have been unable to establish an agreement. The agency continues to solicit community rape crisis organization to provide services, specifically the Guadalupe Valley Family Violence Shelter, Inc. for the Connally Unit. The facility has five staff identified to serve as the qualified staff members who provide advocacy services when necessary. All five are documented with Offender Victim Representative training. The interview with the CM indicated that OVRs go through a special training that is outlined in the agency policy. Five inmates who reported
sexual abuse or sexual harassment were interviewed. All five indicated they were not offered anyone to speak to after their allegation. One of the inmates indicated that was offered a mailing address and telephone number but he already had the information. It should be noted that all five of the inmates interviewed had allegations that did not involve penetration or a forensic examination. Additionally, a review of documentation indicated that after each sexual abuse allegation the inmate is offered access to the OVR. Their response is documented on the PREA checklist. Three of the five inmates who were provided a forensic examination accepted the OVR accompaniment.

115.21 (f): The facility is responsible for conducting administrative investigations while the Office of the Inspector General is responsible for conducting administrative and criminal allegations. The OIG is independent of the agency, however policies including OIG-04.05, indicate they are required to comply with all federal PREA standards.

115.21 (g): The facility is responsible for conducting administrative investigations while the Office of the Inspector General is responsible for conducting administrative and criminal allegations. The OIG is independent of the agency, however policies including OIG-04.05, indicate they are required to comply with all federal PREA standards.

115.21 (h): SPPOM 02.02 outlines the requirements for offender victim representatives. Those authorized to serve in this capacity receive specialized training via the Offender Victim Representative training and include; mental health practitioners, sociologists, chaplains, social workers and case managers.

Based on a review of the PAQ, The Safe Prisons/PREA Plan, OIG-04.05, AD-16.03, SPPOM-05.01, SPPOM-02.02, CMHCPM-G-57.01, OVR training and handout, copies of solicitation letters and information from interviews with the PREA Compliance Manager, random staff and inmate who reported sexual abuse indicates that this standard appears to be compliant.

**Standard 115.22: Policies to ensure referrals of allegations for investigations**

115.22 (a)

- Does the agency ensure an administrative or criminal investigation is completed for all allegations of sexual abuse? ☒ Yes □ No
- Does the agency ensure an administrative or criminal investigation is completed for all allegations of sexual harassment? ☒ Yes □ No

115.22 (b)

- Does the agency have a policy and practice in place to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior? ☒ Yes □ No
- Has the agency published such policy on its website or, if it does not have one, made the policy available through other means? ☒ Yes □ No
Does the agency document all such referrals? ☒ Yes ☐ No

115.22 (c)

If a separate entity is responsible for conducting criminal investigations, does the policy describe the responsibilities of both the agency and the investigating entity? (N/A if the agency/facility is responsible for criminal investigations. See 115.21(a.)) ☒ Yes ☐ No ☐ NA

Findings (By Provision):

115.22 (a): SPPOM 05.05, pages 1-2, OIG-04.05, AD-16.20, PD-29 and the Safe Prisons/PREA Plan, outline the administrative and criminal investigative process. Policies require that all allegations be reported to a staff member which will then be forwarded to a supervisor. The supervisor or ranking staff member will determine if it requires immediate reporting to the OIG. If it requires an administrative investigation the supervisor or Warden will ensure an Administrative Incident Review is completed promptly. All criminal allegations will be forwarded to the OIG for investigation. The PAQ indicated that
the agency ensures an administrative or criminal investigation is completed for all allegations of sexual
abuse and sexual harassment. The PAQ stated that there have been 45 sexual abuse and sexual
harassment allegation reported in the previous twelve months. Of those, all had a criminal and/or an
administrative investigation initiated. The PAQ indicated that all investigations were completed with the
exception of nine criminal OIG investigations. At the time of the on-site portion of the audit, all
administrative investigations were completed. However, nine criminal investigations were still open with
the OIG. A review of a sample of fifteen investigative reports confirmed all had a completed facility
administrative investigation and ten were referred to the OIG for a criminal investigation. The interview
with the Agency Head Designee indicated all investigations are driven by policy and procedure and that
the investigative process is described in these policies. He stated that the OIG is responsible for all
criminal investigations.

115.22 (b): The PAQ indicated that the agency has a policy that requires that all allegations of sexual
abuse or sexual harassment be referred to an investigative agency with the legal authority to complete
criminal investigations. Texas Government Code 493.019 and BP-01.07 indicate that the OIG is the
primary investigative and law enforcement entity of the TDCJ. The OIG serves as the independent office
responsible for conducting investigations in accordance with professional standards related to the field
of investigations in a government environment. The PAQ stated that the agency policy requires that the
referral of allegations of sexual abuse or sexual harassment for criminal investigation is published on the
agency website and that all of these referrals are documented. The policy regarding investigations is
published at https://www.tdcj.texas.gov/divisions/oig/index.html. The interviews with the investigators
confirmed that the OIG is responsible and has the legal authority to complete all criminal investigations.

115.22 (c): Texas Government Code 493.019 and BP-01.07 indicate that the OIG is the primary
investigative and law enforcement entity of the TDCJ. The OIG serves as the independent office
responsible for conducting investigations in accordance with professional standards related to the field
of investigations in a government environment. The policy outlines the responsibilities of the OIG as it
relates to investigations.

115.22 (d): Texas Government Code 493.019 and BP-01.07 indicate that the OIG is the primary
investigative and law enforcement entity of the TDCJ. The OIG serves as the independent office
responsible for conducting investigations in accordance with professional standards related to the field
of investigations in a government environment. The policy outlines the responsibilities of the OIG as it
relates to investigations.

115.22 (e): This provision does not apply as no Department of Justice entity is responsible for conducting
investigations.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, SPPOM 05.05, OIG-04.05, AD-16.20, PD-
29, BP-01.07, Texas Government Code 493.019, the agency's website, investigative reports and
information obtained via interviews with the Agency Head Designee and investigators, this standard
appears to be compliant.

Findings (By Provision):

115.31 (a): The PAQ indicated that the agency trains all employees who may have contact with inmates on topics (1) through (10). PD-29 and the Safe Prisons/PREA Plan, page 33-35 indicate that all staff are required to receive PREA training at least every two years. It also indicates that the during the interim years, employees shall be provided refresher information on current sexual abuse and sexual harassment policies. A review of the three PREA training curriculums as well as the Safe Prisons/PREA in Texas video confirms that the agency trains all employees who may have contact with inmates on the following matters: its zero tolerance policy, how to fulfill their responsibilities under the agency's sexual abuse and sexual harassment policies and procedures, the inmates right to be free from sexual abuse and sexual harassment, the right of the inmate and staff to be free from retaliation for reporting sexual abuse or sexual harassment, the dynamics of sexual abuse and sexual harassment in a confinement setting, the common reactions of sexual abuse and sexual harassment victims, how to detect and respond to signs of threatened and actual sexual abuse, how to avoid inappropriate relationship with
inmates, how to communicate effectively and professionally with lesbian, gay, bisexual, transgender and intersex inmates and how to comply with relevant laws related to mandatory reporting. A review of a sample of fourteen staff training records indicated that 100% of those reviewed received PREA training. Additionally, records indicated that staff received training at least monthly at shift turnout. PREA was documented on the shift roster under training topics. Interviews with random staff confirmed that all fourteen had received PREA training and that all the topics are covered. Staff indicated that in addition to in-service training they continuously receive PREA training at shift turnout. The staff were very knowledgeable on the PREA.

115.31 (b): The Safe Prisons/PREA Plan, page 33-35 and SM-02.25, page 16, indicate that the training shall be tailored to the gender of the offenders at the unit of assignment and that the employee shall receive additional training when transferring to a unit with offenders of a different gender. The OJT Program Procedures Guide, page 17 states that a twelve-hour gender specific course will be completed for those correctional employees that will be assigned to a unit that houses female offenders and that they will be required to complete the training course prior to being assigned to a shift or a department. The facility houses only male inmates and as such the staff receive the regular PREA training. The PAQ indicated that training is tailored to the gender of inmate at the facility and that employees who are reassigned to facilities with opposite gender are given additional training. A review of a sample of fourteen staff training records indicated that 100% of those reviewed received PREA training.

115.31 (c): The PAQ indicated that 381 staff have been trained in PREA requirements and that they receive PREA training annually. This is over 100% as staff have since resigned, retried or were terminated. The PAQ also indicated that in between trainings staff are provided PREA information at shift turnouts. SPPOM-06.01 indicates that in addition to the annual training, the USPPM shall provide awareness education to unit staff and be available to answer any questions or concerns regarding the operational procedures of the Safe Prison/PREA Program. A review of documentation confirmed that all staff received PREA training and that they receive an annual refresher training during in-service. A sample of fourteen staff training records indicate that all fourteen had received PREA training in either 2019 or 2020. Of the fourteen reviewed, ten were new hires and completed the pre-service training academy, which includes the PREA training, in 2020. Some staff received 2020 training, however due to COVID-19, staff in-service was postponed beginning in April 2020. It should be noted that training is continued during shift turnout.

115.31 (d): The PAQ indicated that all staff are required to physically sign or electronically acknowledge that they received and understood the PREA training. ED-12.10 indicates that training courses are approved through the TDCJ training database. Employees are required to enroll and complete courses through this database. If the training is a classroom setting, the trainer of the class or designee is required to ensure the course is entered into the database. Additionally, a supplemental training record is kept for all classroom style training. A review of the training records indicate that all staff sign an acknowledgement of training once completed and then that acknowledgement is utilized to enter the training into the electronic system.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, PD-29, ED-12.10, SM-02.25, SPPOM-06.01, the PREA video transcript, the numerous PREA training curriculums, the OJT guide, a review of a sample of staff training records as well as interviews with random staff indicate that the facility exceeds this standard. The TDCJ conducts annual PREA training during in-service, which already exceeds the standard. In addition to the annual training, they cover specific PREA topics monthly during shift turnout. Staff were very knowledgeable on the PREA and indicated that they receive training at least monthly.

### Standard 115.32: Volunteer and contractor training
115.32 (a)

- Has the agency ensured that all volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency’s sexual abuse and sexual harassment prevention, detection, and response policies and procedures? ☒ Yes ☐ No

115.32 (b)

- Have all volunteers and contractors who have contact with inmates been notified of the agency’s zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents (the level and type of training provided to volunteers and contractors shall be based on the services they provide and level of contact they have with inmates)? ☒ Yes ☐ No

115.32 (c)

- Does the agency maintain documentation confirming that volunteers and contractors understand the training they have received? ☒ Yes ☐ No

Findings (By Provision):

115.32 (a): The PAQ indicated that volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency’s policies and procedures on sexual abuse and sexual...
harassment. All volunteers and contractors are required to receive the Safe Prisons PREA in Texas training video and receive information from the Volunteer Services Training Program (pages 32-33) as well as information in the volunteer handbook (pages 12-13). Additionally, health services contractors and/or volunteers receive PREA training via the Texas Tech University Health Sciences Center Annual PREA Policy Packet training or the UTMB Health Safe Prison/Sexual Assault training. A review of the training curriculums and video indicated that a plethora of PREA information is provided during the trainings, including responsibilities in prevention, detection and response. PD-29 and the Safe Prisons/PREA Plan, page 35, describe the required training and indicate that the training is based on the type and level of services provided and the level of contact with offenders. The PAQ indicated that 193 volunteers and contractors had received PREA training, which is equivalent to 100%. A review of a sample of training documents for seven contractors and six volunteers indicated that 100% of those reviewed received PREA training. Additionally, the interviews with the contract staff confirmed that they had received PREA training via a video. They all indicated they were aware of the zero-tolerance policy and who to report to if they learned of such information. It should be noted that due to COVID-19 all volunteers were prohibited from providing services and as such none were available for interview.

115.32 (b): The PAQ indicated that volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency’s policies and procedures on sexual abuse and sexual harassment. All volunteers and contractors are required to receive the Safe Prisons PREA in Texas training video and receive information from the Volunteer Services Training Program (pages 32-33) as well as the volunteer handbook (pages 12-13). Additionally, health services contractors and/or volunteers receive PREA training via the Texas Tech University Health Sciences Center (TTUHSC) Annual PREA Policy Packet training or the UTMB Health Safe Prison/Sexual Assault training. A review of the training curriculums and video indicated that a plethora of PREA information is provided during the trainings, including the agency’s zero tolerance policy and how to report incidents of sexual abuse and sexual harassment. PD-29 and the Safe Prisons/PREA Plan, page 35, describe the required training and indicate that the training is based on the type and level of services provided and the level of contact with offenders. The interviews with the contract staff confirmed that they had received PREA training via a video. They all indicated they were aware of the zero-tolerance policy and who to report to if they learned of such information. It should be noted that due to COVID-19 all volunteers were prohibited from providing services and as such none were available for interview.

115.32 (c): The PAQ and a review of a sample of training documents for contractors and volunteers indicated that 100% of those reviewed had signed either the TDCJ Volunteer Services Acknowledgment of Volunteer Training/Orientation (volunteers) or the employee training acknowledgement (contractors). Both forms document that individuals have received and understood the training.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, PD-29, the PREA training video transcript, the volunteer handbook, the Volunteer Services Training Program, the TTUHSC training, the UTMB training, a review of a sample of contractor and volunteer training records as well as and the interview with the contractor indicate that this standard appears to be compliant.

2. Observations of PREA Signs in English and Spanish

Findings (By Provision):

115.33 (a): Intake Procedures 1.10 and the Safe Prisons/PREA Operations Manual 02.03 outline the requirement for inmates to receive PREA education, specifically information on the agency’s zero tolerance policy and how to report incidents or suspicion of sexual abuse or sexual harassment. Inmates receive orientation within seven calendar days of arrival and receive five hours of peer education, to include sexual assault awareness. The PAQ indicated that 841 inmates received information on the zero-tolerance policy and how to report at intake. The is equivalent to 100% of inmates who received this information at intake. A review of documentation indicated the offender orientation handbook, pages 26-28, as well as the Safe Prisons/PREA Program brochure included information on the zero-tolerance
policy and the reporting methods. Both documents are provided to inmates at intake. A review of 20 inmate files that were received within the previous twelve months indicated that all 20 had been documented with receiving PREA information at intake. A box is marked on the offender assessment that indicates whether the offender received the PREA literature. The inmate then signs the bottom indicating the information is correct. During the tour, the auditor observed the intake area and was provided an overview of the intake process. Inmates are provided a handout/brochure as well as the offender handbook immediately upon arrival. They are then taken to a private office setting for the offender risk assessment. PREA posters are located throughout the intake area as well as in all housing units and commons areas. The interview with intake staff indicated that when inmates arrive they are provided the orientation packet which has the PREA information in it. She stated that she also tells them about the zero-tolerance policy and how to report. All inmates receive the information as soon as they arrive at the unit. Interviews with inmates indicated that 38 of the 43 had received information at the facility on the agency’s sexual abuse and sexual harassment policies.

115.33 (b): The Safe Prisons/PREA Operations Manual 06.02 outlines the requirement for inmates to receive PREA education, specifically the comprehensive education that is provided to the inmates. The manual indicates that the Offender Sexual Abuse/PREA Awareness video will be shown to all offenders within 30 days of arrival into the TDCJ and if the inmate is received at a facility and it is determined that he/she has not seen the video, they are to receive it immediately. A review of the video transcript indicated that inmates were educated on their rights to be free from sexual abuse and sexual harassment and their right to be free from retaliation. The video also goes over the agency’s policies and procedures related to prevention, detection and response. The PAQ indicated that 395 inmates received comprehensive PREA education within 30 days of intake. After further conversation this number is the number of inmates who received the peer training PREA course, which is only required once per incarceration. There were actually 695 inmates who had received the PREA training video at the Connally Unit. This is equivalent to 100% of those received in the previous twelve months whose length of stay was for more than 30 days. The interview with the intake staff member indicated that inmates receive the orientation packet which includes the PREA information as soon as they arrive at the unit. The intake staff also stated that all inmates watch the PREA video at the Connally Unit, whether they have seen it at another facility or not. A review of 20 inmate files indicated that all 20 had been documented with receiving comprehensive PREA education. All the inmates reviewed had received comprehensive PREA education previously at the intake facility or another facility. All TDCJ policies and procedure are the same and as such, additional comprehensive education is not required as policies and procedures do not differ. However, documentation indicated that nineteen of the 20 had comprehensive PREA education at the Connally Unit. In fact, many had received the PREA video at arrival at the Connally Unit and then a supplemental training was conducted with all inmates again in 2020. Interviews with 43 inmates indicated that 38 had received information on the agency’s sexual abuse and sexual harassment policies. Most of the inmates interviewed indicated that they had seen the video on the day or within the week they arrived.

115.33 (c): The PAQ indicated that all inmates had received comprehensive PREA education. Additionally, the PAQ indicated that agency policy requires that inmates who are transferred from one facility to another be educated regarding their rights to the extent that the policies and procedures of the new facility differ from those of the previous facility. SPPOM-06.02, page 1, states that the USPPM shall be responsible for ensuring offenders receive the Offender Sexual Abuse/PREA Awareness video every two years and that the USPPM at non-intake facilities ensure all offenders arriving at the facility view the video as soon as possible following knowledge that he or she did not receive the training. The auditor identified one inmate that was at the Connally Unit prior to 2013. He received PREA education in 2013. A review of 20 inmate training records indicated all had received PREA education. TDCJ completed a mass inmate PREA education following the release of the PREA standards. The interview with the intake staff indicated that all inmates are provided pamphlets and view the video when they arrive at the facility, regardless of if they have received the information at a prior facility.
115.33 (d): The Safe Prisons/PREA Plan, page 20-21 as well as Correctional Managed Health Care Policy Manual G-51.1 and AD-06.25 establishes the procedure to provide disabled inmates an equal opportunity to benefit from all the aspects of the agency’s efforts to prevent, detect and respond to sexual abuse and sexual harassment. Inmates who are deaf or hard of hearing are provided information in American Sign Language (ASL) while inmate who are blind or have an intellectual/cognitive disability would be read PREA information. The Safe Prisons/PREA Plan, page 20-21 as well as Correctional Managed Health Care Policy Manual E-37.05 and AD-04.25, establishes the procedure to ensure meaningful access to all the aspects of the agency’s efforts to prevent, detect and respond to sexual abuse and sexual harassment to inmates who are Limited English Proficient (LEP). The facility has a qualified staff interpreter list that is utilize for any inmates who are LEP. They can also utilize LanguageLine Solutions, a service they can call that will translate information between the staff member and LEP inmate. A review of disabled and LEP inmate files indicated that seventeen of 21 had signed that they received the PREA information in a format that they could understand. Four were unable to sign due to arrival circumstances. Interviews with seven LEP and disabled inmates indicated that all seven received PREA information in a format that they could understand. The LEP inmates indicated they received the information in Spanish. The disabled inmates indicted that they were given a booklet to read and that the booklet was in large letters. During the tour, the PREA signage was observed to be in large text, bright colors and in Spanish.

115.33 (e): The PAQ indicated that the agency maintains documentation of inmate participation in PREA education sessions. Initial intake is completed when the inmate signs the orientation sign-in sheets (SSP-117). Comprehensive PREA education is documented via the offender sexual abuse awareness education sign-in roster. This information is then entered on the offender’s individual treatment plan. A review of 20 inmate files indicate that all inmates signed that they had been provided comprehensive PREA education.

115.33 (f): The PAQ indicated that information is continuously available through posters, inmate handbooks or other written forms for the inmate population. SPPOM-02.03, page 1, states that the USPPM shall ensure the continuous display of English and Spanish Safe Prisons/PREA Program posters throughout the unit. A review of documentation indicated that the facility had PREA information via the offender orientation handbook, the Safe Prisons/PREA Program brochure and through PREA signage. During the tour, the auditor observed the PREA signage in each housing unit and in common areas.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, the SPPOM-02.03, the SPPOM-06.02, Intake Procedures 1.10, the offender orientation handbook, the Safe Prisons/PREA Program brochure, the Safe Prisons/PREA Program posters, the Offender Sexual Abuse/PREA Awareness Video NSPM-E.37.5 (Interpretive Services), CMHCPM-G-51.5 (American Sign Language), the staff translator list, the LanguageLine Solutions information, a sample of inmate records, observations made during the tour to include the availability of PREA information via signage as well information obtained during interviews with intake staff and random inmates indicates that the facility exceeds this standard. The standard requires that inmates receive comprehensive PREA education and that if an inmate transfers and the facility policies are the same they are not required to receive the education again. The documentation and interviews confirmed that the Connally Unit exceeds this requirement. Inmate receive comprehensive education as well as information at intake, regardless of whether they have received it elsewhere within the TDCJ. Nineteen of the 20 inmate records reviewed for those that arrived in the previous twelve months indicated they had viewed the video at the Connally Unit in addition to viewing it previously at another facility. PREA information was observed throughout the facility to provide additional information to the inmates. Additionally, interviews and documentation confirm that LEP and disabled inmates are
provided the same comprehensive education in an appropriate format. As such, the facility goes above the minimum requirements under this standard.

Standard 115.34: Specialized training: Investigations

115.34 (a)

- In addition to the general training provided to all employees pursuant to §115.31, does the agency ensure that, to the extent the agency itself conducts sexual abuse investigations, its investigators receive training in conducting such investigations in confinement settings? (N/A if the agency does not conduct any form of administrative or criminal sexual abuse investigations. See 115.21(a.).) ☒ Yes ☐ No ☐ NA

115.34 (b)

- Does this specialized training include techniques for interviewing sexual abuse victims? (N/A if the agency does not conduct any form of administrative or criminal sexual abuse investigations. See 115.21(a.).) ☒ Yes ☐ No ☐ NA

- Does this specialized training include proper use of Miranda and Garrity warnings? (N/A if the agency does not conduct any form of administrative or criminal sexual abuse investigations. See 115.21(a.).) ☒ Yes ☐ No ☐ NA

- Does this specialized training include sexual abuse evidence collection in confinement settings? (N/A if the agency does not conduct any form of administrative or criminal sexual abuse investigations. See 115.21(a.).) ☒ Yes ☐ No ☐ NA

- Does this specialized training include the criteria and evidence required to substantiate a case for administrative action or prosecution referral? (N/A if the agency does not conduct any form of administrative or criminal sexual abuse investigations. See 115.21(a.).) ☒ Yes ☐ No ☐NA

115.34 (c)

- Does the agency maintain documentation that agency investigators have completed the required specialized training in conducting sexual abuse investigations? (N/A if the agency does not conduct any form of administrative or criminal sexual abuse investigations. See 115.21(a.).) ☒ Yes ☐ No ☐ NA

Interviews:
1. Interview with Investigative Staff

Findings (By Provision):

115.34 (a): The PAQ stated that the agency has a policy that requires investigators to be trained in conducting sexual abuse investigations in confinement. The 2013 Operational Procedures Manual OIG-02.15, page 3, requires that all investigators receive mandatory training for sexual assault investigations as well as in-service training specifically related to sexual assaults within the prison facilities. This training is completed through two curriculums; Safe Prisons/PREA Investigator Training and Sexual Assault Investigative Topics. Additionally, specialized training is offered through the NIC training. A review of investigator training records indicated that all OIG investigators have completed the NIC investigation training. Additionally, 31 facility staff members are documented with completing the Conducting a Thorough Investigation training. The OIG investigator indicated he received specialized training through the NIC training which included topics such as victim interviews and evidence collection. The facility investigator indicated she received specialized training through the TDCJ.

115.34 (b): The 2013 Operational Procedures Manual OIG-02.15, page 3, requires that all investigators receive mandatory training for sexual assault investigations as well as in-service training specifically related to sexual assaults within the prison facilities. This training is completed through two curriculums; Safe Prisons/PREA Investigator Training and Sexual Assault Investigative Topics. Additionally, investigators complete the NIC training. The training curriculums included the following; techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings and the criteria and evidence required to substantiate a case for administrative action or criminal prosecution. A review of investigator training records indicated that all OIG investigators have completed the NIC investigation training. Additionally, 31 facility staff members are documented with completing the Conducting a Thorough Investigations training. The interview with the OIG investigators confirmed that he had received training and that the training comprised all the aforementioned topics. The facility investigator indicated she received specialized trainings through the TDCJ and it included the required topics.
115.34 (c): The PAQ indicated that currently there are 142 OIG investigators and 31 facility investigators who complete investigations on sexual abuse and sexual harassment. The PAQ also indicated that the agency maintains documentation showing that investigators have completed the training. Of the 162 investigators, the PAQ indicated that all have received specialized training. A review of the training documents indicated that all OIG investigators have received specialized training through NIC and all administrative investigators have received specialized training through the agency.

115.34 (d): The PAQ indicated that currently there are 142 investigators who complete criminal PREA investigations that work for the Office of the Inspector General. This office is independent of the TDCJ. A review of the training documents indicated that all OIG investigators have received specialized training through NIC and are required to receive this training prior to conducting sexual abuse investigations.

Based on a review of the PAQ, OIG-02.15, the NIC training, the Safe Prisons/PREA Investigation Training, the Sexual Assault Investigation Topics curriculum, a review of investigator training records as well as interviews with investigative staff, indicate that this standard appears to be compliant.

**Standard 115.35: Specialized training: Medical and mental health care**

115.35 (a)

- Does the agency ensure that all full- and part-time medical and mental health care practitioners who work regularly in its facilities have been trained in how to detect and assess signs of sexual abuse and sexual harassment? Site Review Observations:
1. Observations of Medical and Mental Health Areas

Findings (By Provision):
115.35 (a): The PAQ stated that the agency has a policy related to the training of medical and mental health practitioners who work regularly in facilities. CMHCPM C-25.1, requires that all medical and mental...
health care staff complete an orientation within 90 days. The orientation includes security, classification and health care topics and specifically discusses the detection, assessment and response to offender-victim sexual abuse and sexual harassment. Medical and mental health services are provided through Texas Tech University Health Science Center and UTMB Health. The orientation is completed through one of two curriculums; UTMB Health PREA: Part 4 Specialized Training for Medical and Mental Health or the PRC’s PREA Health Care Standards Training. A review of the two curriculums confirm that they both contain the following topics: how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment and how and whom to report allegations or suspicion of sexual abuse and sexual harassment. The PAQ indicated that the facility has 56 medical and mental health staff and that 100% of these staff received the specialized training. A review of five medical and mental health training records indicated that all five received the specialized training. Interviews with medical and mental health care staff confirmed that they had received the PREA specialized training. The staff indicated the training is three videos and a PowerPoint and goes over way to identify sexual abuse, the forensic medical examination, how to spot potential victims and abusers and how and who to report information to.

115.35 (b): This provision does not apply. Forensic exams are not conducted on-site by any of the facility’s medical staff. Inmates are transported to a local hospital, where nurses with specialized training completes the forensic medical examination. State law (SB-1191) requires that hospital staff have specialized training to complete a forensic exam but does not require that they be SANE or SAFE trained. When possible though, SANE or SAFE are utilized. Interviews with medical and mental health staff confirm that they do not perform forensic medical examinations.

115.35 (c): The PAQ indicated that documentation showing the completion of the training is maintained by the agency. A review of the five training documents for medical and mental health staff confirm that staff who complete the specialized training are required to complete a post text quiz and that a certificate is printed showing the test score and completion of the training. The certificate of completion is added to each staff members training file.

115.35 (d): All medical and mental health care staff are considered contractors. The PAQ indicated that contractors who have contact with inmates have been trained on their responsibilities under the facility’s policies and procedures on sexual abuse and sexual harassment. Health services staff receive contractor PREA training via the Texas Tech University Health Sciences Center Annual PREA Policy Packet training or the UTMB Health Safe Prison/Sexual Assault training. A review of the training curriculums and video indicated that a plethora of PREA information is provided during the trainings, including their responsibilities in prevention, detection and response, the agency’s zero tolerance policy and how and whom to report allegations to. A review of training documents for five medical and mental health care staff indicated that 100% of those reviewed completed the PREA contractor training. Additionally, interviews confirm that medical and mental health care staff had received contractor PREA training, including information on the zero-tolerance policy and how and who to report to.

Based on a review of the PAQ, CMHCPM C-25.1, the four PREA training curriculums, a review of medical staff training records as well as interviews with medical and mental health care staff, indicate that this standard appears to be compliant.

SCREENING FOR RISK OF SEXUAL VICTIMIZATION AND ABUSIVENESS
Standard 115.41: Screening for risk of victimization and abusiveness

115.41 (a)

- Are all inmates assessed during an intake screening for their risk of being sexually abused by other inmates or sexually abusive toward other inmates? ☒ Yes ☐ No
- Are all inmates assessed upon transfer to another facility for their risk of being sexually abused by other inmates or sexually abusive toward other inmates? ☒ Yes ☐ No

115.41 (b)

- Do intake screenings ordinarily take place within 72 hours of arrival at the facility? ☒ Yes ☐ No

115.41 (c)

- Are all PREA screening assessments conducted using an objective screening instrument? ☒ Yes ☐ No

115.41 (d)

- Does the intake screening consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (1) Whether the inmate has a mental, physical, or developmental disability? ☒ Yes ☐ No
- Does the intake screening consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (2) The age of the inmate? ☒ Yes ☐ No
- Does the intake screening consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (3) The physical build of the inmate? ☒ Yes ☐ No
- Does the intake screening consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (4) Whether the inmate has previously been incarcerated? ☒ Yes ☐ No
- Does the intake screening consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (5) Whether the inmate’s criminal history is exclusively nonviolent? ☒ Yes ☐ No
- Does the intake screening consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (6) Whether the inmate has prior convictions for sex offenses against an adult or child? ☒ Yes ☐ No
- Does the intake screening consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming (the facility affirmatively asks the
inmate about his/her sexual orientation and gender identity AND makes a subjective
determination based on the screener’s perception whether the inmate is gender non-conforming
or otherwise may be perceived to be LGBTI)? ☒ Yes ☐ No

- Does the intake screening consider, at a minimum, the following criteria to assess inmates for
  risk of sexual victimization: (8) Whether the inmate has previously experienced sexual
  victimization? ☒ Yes ☐ No

- Does the intake screening consider, at a minimum, the following criteria to assess inmates for
  risk of sexual victimization: (9) The inmate’s own perception of vulnerability? ☒ Yes ☐ No

- Does the intake screening consider, at a minimum, the following criteria to assess inmates for
  risk of sexual victimization: (10) Whether the inmate is detained solely for civil immigration
  purposes? ☐ Yes ☒ No

115.41 (e)
- In assessing inmates for risk of being sexually abusive, does the initial PREA risk screening
  consider, as known to the agency, prior acts of sexual abuse? ☒ Yes ☐ No

- In assessing inmates for risk of being sexually abusive, does the initial PREA risk screening
  consider, as known to the agency, prior convictions for violent offenses? ☒ Yes ☐ No

- In assessing inmates for risk of being sexually abusive, does the initial PREA risk screening
  consider, as known to the agency, history of prior institutional violence or sexual abuse?
  ☒ Yes ☐ No

115.41 (f)
- Within a set time period not more than 30 days from the inmate’s arrival at the facility, does the
  facility reassess the inmate’s risk of victimization or abusiveness based upon any additional,
  relevant information received by the facility since the intake screening? ☒ Yes ☐ No

115.41 (g)
- Does the facility reassess an inmate’s risk level when warranted due to a referral? ☒ Yes ☐ No

- Does the facility reassess an inmate’s risk level when warranted due to a request? ☒ Yes ☐ No

- Does the facility reassess an inmate’s risk level when warranted due to an incident of sexual
  abuse? ☒ Yes ☐ No

- Does the facility reassess an inmate’s risk level when warranted due to receipt of additional
  information that bears on the inmate’s risk of sexual victimization or abusiveness?
  ☒ Yes ☐ No

115.41 (h)
• Is it the case that inmates are not ever disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked pursuant to paragraphs (d)(1), (d)(7), (d)(8), or (d)(9) of this section? ☒ Yes ☐ No

115.41 (i)

• Has the agency implemented appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates? ☐ Yes ☒ No

Site Review Observations:
1. Observations of Risk Screening Area
2. Observations of Where Inmate Files are Located

Findings (By Provision):

115.41 (a): The PAQ indicates that the agency has a policy that requires screening for risk of sexual victimization or sexual abusiveness toward other inmates. The Safe Prisons/PREA Plan, pages 16-17, as well as the SPPOM 03.01, page 1, indicates that all inmates will be assessed during the intake screening for their risk of being sexual abused by other inmates or sexually abusive toward other inmates. During the tour, the auditor observed the intake area, however the screening is not conducted in this space. The risk screening is conducted in the CM’s office, which is a private setting. Interviews with 24 inmates received within the previous twelve months confirm that nineteen were asked the risk screening questions. The majority indicated they were asked the same day they arrived. The interview with the staff responsible for the risk screening indicated that inmates are screened at for their risk of victimization or abusiveness during intake.
115.41 (b): The PAQ states that the agency policy requires that inmates be screened for risk of victimization or risk of sexually abusing other inmates within 72 hours of their intake. The Safe Prisons/PREA Plan, pages 16-17, as well as the SPPOM 03.01, page 1, indicates that all inmates will be assessed during the intake screening for their risk of being sexual abused by other inmates or sexually abusive toward other inmates within 72 hours. The PAQ indicated that inmates are screened within this timeframe and that 832 inmates were received at the facility whose length of stay was for 72 hours or more. The PAQ indicated that 100% of those whose length of stay was for 72 hours or more received the risk screening within 72 hours. A review of a 20 inmate files confirmed that all 20 were screened within 72 hours, most within 24 hours. Interviews with 24 inmates received within the previous twelve months confirm that nineteen were asked the risk screening questions. The majority indicated they were asked the same day they arrived. The interview with the staff responsible for the risk screening confirmed that the facility completes the risk screening assessment within 72 hours.

115.41 (c): The PAQ indicated that the risk screening is conducted using an objective screening instrument. A review of Attachment E and E-1 indicated that inmates answer yes or no questions with one being multiple for gender identity/sexual preference and that many of the questions can be confirmed through a review of the inmate’s file.

115.41 (d): A review of Attachment E and E-1 indicates that the intake screening considers the following criteria to assess inmates for risk of sexual victimization: whether the inmate has a mental, physical or developmental disability; the age of the inmate; the physical build of the inmate; whether the inmate was previously incarcerated; whether the inmate’s criminal history is exclusively nonviolent; whether the inmate has prior convictions for sex offenses against an adult or child; whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex or gender nonconforming; whether the inmate has previously experienced sexual victimization and the inmate’s own perception of vulnerability. Inmates at the facility are not held solely for civil immigration purposes and as such this portion of the screening is not included. The interview with the risk screening staff indicated that the risk screening entails a file review and then yes or no questions. The staff stated that inmates have a chance to give details related to any yes responses. The staff stated that they ask questions such as if the inmate has ever been sexually abused and if they reported any prior sexual abuse. The screening also considers if the inmate has any mental or physical disabilities, their height, weight physical build, whether they have prior incarcerations, how much time they are currently serving and if they have any sex crimes against them.

115.41 (e): A review of Attachment E and E-1 confirms that the intake screening considers the following: prior acts of sexual abuse, prior convictions for violent offenses and prior institutional violence or sexual abuse known to the facility. The interview with the risk screening staff indicated that the risk screening entails a file review and then yes or no questions. The staff stated that inmates have a chance to give details related to any yes responses. The staff stated that they ask questions such as if the inmate has ever been sexually abused and if they reported any prior sexual abuse. The screening also considers if the inmate has any mental or physical disabilities, their height, weight physical build, whether they have prior incarcerations, how much time they are currently serving and if they have any sex crimes against them.

115.41 (f): The PAQ confirmed that policy requires that the facility reassess each inmate’s risk of victimization or abusiveness within a set time period, not to exceed 30 days. SPPOM 03.01, page 1 and 5, indicates that inmates would be reassessed for the inmate’s risk of victimization or abusiveness within 30 days from their arrival at the facility. The PAQ indicated that the facility requires inmates to be reassessed and that 695 inmates were reassessed within 30 days. The number indicates that 100% of those inmates whose length of stay was for 30 days or more received a reassessment. The interview with staff responsible for the risk screening indicated that inmates are reassessed within 30 days. Interviews with 24 inmates that arrived within the previous twelve months indicated that seven remember
being asked risk screening information on more than one occasion. Most indicated it was a few weeks after their arrival and a few stated they get asked every six months. A review of 20 inmate files indicated that all 20 were reassessed within the 30-day timeframe. It should be noted the risk reassessment does not include the full questionnaire but rather one follow up question related to if anything has changed.

115.41 (g): SPPOM 03.01, page 5, indicates that inmates would be reassessed for their risk of victimization or abusiveness when warranted due to referral, request, incident of sexual abuse or receipt of additional information that bears on their risk of sexual victimization or abusiveness. The PAQ indicated that this practice is occurring. The interview with the staff responsible for risk screening indicated that the facility will reassess the inmate when warranted. Interviews with 24 inmates that arrived within the previous twelve months indicated that seven remember being asked risk screening information on more than one occasion. Most indicated it was a few weeks after their arrival and a few stated they get asked every six months.

115.41 (h): The Safe Prisons/PREA Plan, pages 19-20, as well as the SPPOM 03.01, page 2, indicates that inmates would not be disciplined for refusing to answer the following questions during the risk screening: whether or not the inmate has a mental, physical or developmental disability; whether or not the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex or gender nonconforming; whether or not the inmate previously experienced sexual victimization and the inmate’s own perception of vulnerability. The PAQ indicated that inmates are not disciplined for refusing to answer. The interview with the staff responsible for risk screening indicated that inmates are not disciplined for refusing to answer any of the questions in the risk screening.

115.41 (i): The Safe Prisons/PREA Plan, pages 19-20, the SPPOM 03.01, page 2, and the PAQ indicated that the agency has implemented appropriate controls on the dissemination of the screening information to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates. Interviews with the PREA Coordinator, PREA Compliance Manager and staff responsible for the risk screening indicate that the information obtained during the risk screening moves through the automated classification system. The PC indicated that it is only accessed by those who have a need to know. The interview with the risk screening staff and the CM confirm that risk screening information is only accessible to the Safe Prison’s staff, the Majors and the Wardens.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, SPPOM 03.01, Attachment E and E-1, a review of inmate files and information from interviews with the PREA Coordinator, PREA Compliance Manager, staff responsible for conducting the risk screenings and random inmates indicates that this standard appears to be compliant.

**Standard 115.42: Use of screening information**

115.42 (a)

- Does the agency use information from the risk screening required by § 115.41, with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive, to inform: Housing Assignments? ☒ Yes ☐ No

1. Location of Inmate Records
2. Shower Area in Housing Units

Findings (By Provision):

115.42 (a): The PAQ confirmed that the agency/facility uses information from the risk screening to inform housing, bed, work, education and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Unit Classification Procedure 4.00, AD-04.17, pages 6-8 and SPPOM 03.01, indicates that the agency uses the information from the risk screening to inform housing, bed, work, education and program assignments with the goal of keeping separate inmates at high risk of being sexual abused from those at high risk of being sexually abusive. Interviews with the Compliance Manager and staff responsible for the risk screening indicated that the information is used to house inmates appropriately. Inmates who are identified as a predator are not housed with or around inmates who are identified as a victim. A review of inmate files and of inmate housing and work assignments confirmed that inmates at high risk of victimization and inmates at high risk of being sexually abusive were not housed together. Additionally, they did not work together and did not attend education/programs together to the extent possible.

115.42 (b): The PAQ indicated that the agency makes individualized determinations about how to ensure the safety of each inmate. The interview with the staff responsible for the risk screening indicated that the information is used to house inmates appropriately. Inmates who are identified as a predator are not housed with or around inmates who are identified as a victim.

115.42 (c): The Safe Prisons/PREA Plan, page 19, indicates that housing and program assignments for transgender and intersex inmates are considered on a case by case basis to ensure the inmate’s health and safety, and whether the placement would present management or security problems. The PAQ indicated that this practice is taking place and that this occurs at the agency’s reception centers where inmates arrive. At the time of the audit, 51 transgender inmates were housed at the Connally Unit. The agency as a whole has 1,190 inmates that identify as transgender or are intersex. Transgender and intersex inmate housing is completed at the intake center. The TDCJ completes the PEN Packet Document Checklist upon the inmate’s arrival in TDCJ. This checklist asks the inmate whether they identify as male or female. The packet also includes other pertinent information including their arrest information and criminal history. Inmates then go through the risk screening, a Sociology interview and a medical interview. All four of these components are then reviewed by classification at the intake center to determine the inmates housing based on safety and security. The interview with the CM indicated that the male and female unit housing determination is not made at the facility level but is done at the Central Office level. She did however state housing for all transgender inmates at the facility is done on a case by case basis. She stated that they discuss housing with the inmate to determine the best housing related to their safety. The interviews with the six transgender inmates indicated that five of the six were asked about their safety and none believed they were housed in a specific housing unit, wing or facility based on their gender identity.

115.42 (d): SPPOM 03.02, indicates that housing and program assignments for transgender and intersex inmates are reassessed at least twice each year to review any threats to the inmate’s safety. The interview with the PC indicated that transgender and intersex inmates are seen by classification every 30 days or sooner if needed to review their safety, security and assignments. A review of documentation for eight TDCJ inmates who identify as transgender indicated that seven had biannual assessments completed in 2019 and six had biannual assessments completed in 2020. One inmate had just entered
into TDCJ custody in 2020 and as such only had one assessment completed in 2020. The other inmate had the second 2020 assessment due in December. An additional review of the thirteen transgender inmates at the Connally Unit indicated that eleven had biannual reviews in 2019 and 2020. One only had a review in 2020 as she just identified recently. Another had 2020 reviews but none prior to 2020 and had identified in 2016. The interviews with the CM and the staff responsible for risk screening indicated that transgender and intersex inmates are reassessed at least twice a year.

115.42 (e): SPPOM 03.02, indicates that the inmate’s own views with respect to his or her safety is given serious consideration. The interview with the CM and staff responsible for the risk screening indicated that transgender and intersex inmates are asked about their safety and this information is given serious consideration. The interviews with three transgender inmates indicated five of the six were asked about their own views with respect to their safety.

115.42 (f): The Safe Prisons/PREA Plan, page 9, indicates that transgender and intersex inmates are given the opportunity to shower separately. During the tour the auditor observed that all showers are single person showers with saloon style doors or solid doors with privacy material and as such all inmates are able to shower separately. The interview with the CM and the staff responsible for risk screening confirmed that transgender and intersex inmates can shower separately. The CM stated that all showers, except building 18 and 19 have single person showers. Transgender inmates are not placed in building 18 or 19 to ensure they have a single shower. Interviews with the six transgender inmates indicated that all six are afforded the opportunity to shower separately.

115.42 (g): The Safe Prisons/PREA Plan, page 19, states that LGBTI offenders shall not be placed in dedicated facilities, units, or wings solely on the basis of this identification or status, unless the placement is in a dedicated wing established in connection with a consent decree, legal settlement or legal judgment for the purpose of protecting these offenders. The interviews with the PC and CM confirmed that the agency does not have a consent decree, legal settlement or legal judgment. The interviews indicated that LGBTI inmate are not placed in one specific housing unit. A review of housing assignments for inmates who identify as LGBTI indicated that these inmates were assigned to various units throughout the facility. Interviews with three inmates who identified as LGB indicated that two did not feel they were placed in any specific unit based on their sexual preference. One inmate indicated that all the LGB inmates are in 12 building.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, SPPOM 03.01, SPPOM 03.02, AD-04-17, Unit Classification Procedure 4.00, a review of inmate housing assignments, job assignments, program assignment and education assignments, a review of transgender and intersex inmate’s assessments and information from interviews with the Compliance Manager, staff responsible for conducting risk screenings and LGBTI inmates, indicates that this standard appears to be compliant.

**Standard 115.43: Protective Custody**

**115.43 (a)**

- Does the facility always refrain from placing inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers? ✗ Yes ☐ No
- If a facility cannot conduct such an assessment immediately, does the facility hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment?  
  ☒ Yes  ☐ No

115.43 (b)

- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Programs to the extent possible?  ☒ Yes  ☐ No

2. Interview with Staff who Supervise Inmates in Segregated Housing

Site Review Observations:
1. Observation of Segregated Housing Unit

Findings (By Provision):

115.43 (a): The PAQ indicates that the agency has a policy that prohibits the placement of inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there are no available alternative means of separation from likely abusers. The Safe Prisons/PREA Plan, page 18-19, and the Restrictive Housing Plan, page 11 indicate that the agency does not place inmates at high risk for sexual victimization in involuntary segregation unless an assessment of all available alternatives has been made and no alternative is available to separate the inmate from likely abusers. Specifically, the Restrictive Housing Plan indicates that inmates who are referred for protective custody are reviewed within seven days, and then every seven days for the first 60 days. After 60 days, the inmate would be reviewed every 30 days. The PAQ states that there have been no inmates at risk of sexual victimization who were held in involuntary segregated housing in the previous twelve months for one to 24 hours. A review of housing documents for inmates identified to be at high risk of sexual victimization indicated that none were in building 12 due to their risk of victimization. The interview with the Warden indicated that inmates at high risk of sexual victimization are not placed in involuntary segregated housing unless an assessment of all available alternatives have been made, and there are no available alternatives. He indicated that inmates would be placed in transient status and an investigation would be initiated. It should be noted that the facility does not have an official Restrictive Housing Unit, rather transient status inmates are placed in building 12.
115.43 (b): The Safe Prisons/PREA Plan, page 18-19, indicates that if an inmate was placed in segregation they would have access to programs, privileges, education and work opportunities to the extent possible and all limitations would be documented with indication of the reason and length of time of limitation. The I-216 form documents each inmate's daily activities, including recreation, education, work, etc. The I-203 form documents the placement and any restrictions for inmates in restrictive building 12. A review of housing documents for inmates identified to be at high risk of sexual victimization indicated that none were placed in restrictive housing and as such no additional documentation was reviewed. The interview with staff who supervise inmates in segregated housing indicated that inmates would have access to programs, education and privileges to the extent possible. The staff member stated that if they did restrict anything that it would be documented on the offender activity card and/or the daily log. There were no inmates in segregated housing due to their risk of victimization and as such no interviews were completed.

115.43 (c): The PAQ indicates that there have been zero inmates at risk of sexual victimization who were assigned to involuntary segregated housing for longer than 30 days (within the previous twelve months). The Safe Prisons/PREA Plan, page 18-19, indicates that if an inmate was placed in segregation due to risk of victimization they would only be placed until an alternative means of separation from likely abusers could be arranged, and such assignment would not ordinarily exceed 30 days. A review of housing documents for inmates identified to be at high risk indicated that none were involuntarily segregated and as such no additional documentation was reviewed. The interview with the Warden confirmed that the inmate would only be placed in involuntary segregated housing only until an alternative means of separation could be arranged. He stated that inmates are placed in transient status pending an investigation. The investigation typically is completed within 72 hours. There is a one-time additional 72-hour investigative extension that I approve. The interview with staff who supervise inmates in segregated housing indicated that inmates would only be placed in building 12 until they can find the inmate alternate housing. He stated that typically the investigations are completed within 72 hours. He stated that depending on the outcome they will be rehoused. There were no inmates in segregated housing due to their risk of victimization and as such no interviews were completed.

115.43 (d): The PAQ indicated that there were zero case files of inmates at risk of victimization that were held involuntarily an required justification. However, the Offender Protection Investigation form documents the basis for the concern for the inmates' safety and why no alternative means of separation could be arranged. A review of the form confirms this information is documented on the form in Section XII. A review of housing documents for inmates identified to be at high risk indicated that none were involuntarily segregated and as such no additional documentation was reviewed.

115.43 (e): The PAQ confirms that if an involuntary segregated housing assignment is made, the facility affords each inmate a review every 30 days to determine whether there is a continuing need for separation from the general population. The Restrictive Housing Plan, page 11, indicates that if an inmate was placed in segregation due to risk of victimization they would be reviewed every 30 days to determine if there was a continued need for the inmate to be separated from the general population. Additionally, it states that that inmates who are referred for protective custody are reviewed within seven days, and then every seven day for the first 60 days. After 60 days, the inmate would be reviewed every 30 days. The interview with staff who supervise inmates in segregated housing indicated that all inmates would be reviewed at least every 30 days for continued placement needs. There were no inmates in segregated housing due to their risk of victimization and as such no interviews were completed.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, the Restrictive Housing Plan, the I-216 form, the I-203 form, the Offender Protection Investigation Form, observations from the facility tour related...
to any segregation areas as well as information from the interviews with the Warden and staff that supervise inmates in segregated housing indicates that this standard appears to be compliant.

Site Review Observations:
1. Observation of PREA Reporting Information

Findings (By Provision):

115.51 (a): The PAQ indicates that the agency has established procedures allowing for multiple ways for inmates to report privately to agency officials about sexual abuse, sexual harassment, retaliation for reporting and/or staff neglect or violation of responsibilities that may have contributed to such incidents. The Safe Prisons/PREA Plan, page 20-21, outlines the multiple ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse or sexual harassment and staff neglect or violation of responsibilities that may have contributed to such incidents. A review of additional documentation to include the offender orientation handbook, the PREA Ombudsman brochure and PREA signage indicated that there are multiple ways for inmates to report. These reporting mechanisms include: to any employee, contractor or volunteer; on an inmate request (I-60 form), via sick call, via grievance, by calling or writing the PREA Ombudsman or by having any family member or friend report the allegation to the Office of the Inspector General, PREA Ombudsman or any facility staff member. During the tour, it was observed that information pertaining to how to report PREA allegations to the PREA Ombudsman and the OIG was posted in all housing units. Interviews with 43 inmates confirm that they are aware of at least one method to report sexual abuse and sexual harassment. Most inmates indicated that they would verbally report to an officer, file a grievance, submit an I-60 or tell their family. Interviews with fourteen staff confirm that they take all allegations seriously and that inmates have multiple ways, including verbally, in writing, anonymously and through a third party, to report sexual abuse and sexual harassment.
115.51 (b): The PAQ states that the agency provides at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency. The Safe Prisons/PREA Plan, page 20-21, indicates that the agency has a way for inmates to report abuse or harassment to a public or private entity that is not part of the agency, and that the entity can immediately forward the report back to the facility for investigation. A review of additional documentation to include the offender orientation handbook, the PREA Ombudsman brochure and PREA signage confirm the agency provides information including an address and a phone number for the outside entity. The outside entity is the PREA Ombudsman’s Office. This office is separate from the Texas Department of Criminal Justice. ED-02.10, page 4 and 6, provide direction on how to contact the PREA Ombudsman. It specifically states that an offender may privately and confidentially contact the PREA Ombudsman and may remain anonymous upon request. Additionally, BP-03.91, page 3 illustrates that any correspondence sent to the PREA Ombudsman is considered “special correspondence”. Page 8, states that special correspondence can be sent sealed and un inspected and any incoming “special correspondence” shall be opened in front of the inmate and can only be inspected for contraband. During the tour, it was observed that information pertaining on how to report PREA allegations to the PREA Ombudsman’s Office was posted in all housing units. Inmates can have a third-party call 936-437-5570 or can write to P.O. Box 99, Huntsville, TX 77342. During the on-site portion of the audit, the auditor sent a letter to the PREA Ombudsman to ensure the reporting method was functional. The auditor received communication from the PREA Ombudsman two days after the letter was mailed. Additionally, the auditor made contact with the PREA Ombudsman’s office via the phone number above to ensure the line was also functional. The interview with the CM indicated that inmates can report to the PREA Ombudsman as the outside reporting mechanism. She indicated that the PREA Ombudsman’s office would then contact the facility and forward the information to initiate an investigation. Interviews with 43 inmates indicated that ten were aware of the outside reporting entity and 23 were aware they can report anonymously. Many inmates (eighteen) indicated that they would report to their family as the outside entity and have their family report for them.

115.51 (c): The Safe Prisons/PREA Plan, page 20-21, notes that staff are required to accept all reports made verbally, in writing, anonymously and from a third party and will promptly document any verbal reports. The PAQ indicates that staff accept all reports and that they immediately document any verbal allegations of sexual abuse or sexual harassment. A review of additional documentation to include the offender orientation handbook, the PREA Ombudsman brochure and PREA signage indicated inmates could report verbally, in writing, anonymously or through a third party. Interviews with 43 inmates confirm that they are aware of at least one method available for reporting sexual abuse and/or sexual harassment. 42 indicated that they knew a third party could report an allegation on their behalf. Interviews with fourteen staff indicate they accept all allegations of sexual abuse and sexual harassment. They indicated that they immediately report any allegation to their supervisor and they would immediately document any verbal reports in an incident report.

115.51 (d): The Safe Prisons/PREA Plan, page 20-21, describes that the agency provides a method for staff to privately report sexual abuse and sexual harassment of inmates. The PAQ indicates staff can privately report to the Office of the Inspector General or the PREA Ombudsman’s Office. Interviews with staff indicate that they can privately report sexual abuse and sexual harassment of inmates to any supervisor, the OIG, the Safe Prison’s staff, the Warden or the Ombudsman.

Based on a review of the PAQ, Safe Prisons/PREA Plan, ED-02.1, BP-03.91, the offender orientation handbook, the PREA Ombudsman brochure, PREA signage, observations from the facility tour related to PREA signage and posted information and information interviews with the CM, random inmates and staff indicate that this standard appears to be compliant.

**Standard 115.52: Exhaustion of administrative remedies**

PREA Audit Report – V6.  Page 76 of 131  Connally Unit
115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. ☐ Yes ☒ No

115.52 (b)

- Does the agency permit inmates to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

- Does the agency always refrain from requiring an inmate to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

115.52 (c)

- Does the agency ensure that: An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

115.52 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

115.52 (e)
Are third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

Are those third parties also permitted to file such requests on behalf of inmates? (If a third-party files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

If the inmate declines to have the request processed on his or her behalf, does the agency document the inmate’s decision? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

115.52 (f)

Has the agency established procedures for the filing of an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

After receiving an emergency grievance alleging an inmate is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.). ☒ Yes ☐ No ☐ NA

After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

Does the initial response and final agency decision document the agency’s determination whether the inmate is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

Does the initial response document the agency’s action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

Does the agency’s final decision document the agency’s action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

115.52 (g)

If the agency disciplines an inmate for filing a grievance related to alleged sexual abuse, does it do so ONLY where the agency demonstrates that the inmate filed the grievance in bad faith? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

Interviews:
1. Interview with Inmates who Reported Sexual Abuse

Findings (By Provision):

115.52 (a): The Safe Prisons/PREA Plan, AD-03.82 and OGOM 9.00, are the policies related to inmate grievances. The PAQ indicates that the agency is not exempt from this standard.

115.52 (b): The PAQ indicates that the agency has a policy that allows inmates to submit a grievance regarding sexual abuse at any time regardless of when the incident is alleged to have occurred. Additionally, the PAQ confirms that inmates are not required to use the informal grievance process, otherwise attempt to resolve with staff, an alleged incident of sexual abuse. The Safe Prisons/PREA Plan, pages 21-22, outlines the grievance process for allegations of sexual abuse and sexual harassment. Specifically, that the agency does not impose a time limit on when an inmate may submit a grievance regarding an allegation of sexual abuse. It also discusses that the agency does not require an inmate to use the informal grievance process, or attempt to resolve with staff, an alleged incident of sexual abuse. A review of the offender orientation handbook indicates that part 17 discusses the grievance procedures for the facility, including timelines and procedures for PREA grievances.

115.52 (c): That PAQ indicates that the agency has a policy that states inmates are not required to submit the grievance to the staff member who is the subject of the complaint and that the policy states that the grievance not be referred to the staff member who is the subject of the complaint. The Safe Prisons/PREA Plan, pages 21-22, outlines the grievance process for allegations of sexual abuse and sexual harassment. Specially, that the inmate may submit a grievance without submitting it to the staff member who is the subject of the complaint and that grievances will not be referred to staff members who are the subject of the complaint. A review of the offender orientation handbook indicates that part 17 discusses the grievance procedures for the facility.
115.52 (d): The Safe Prisons/PREA Plan, pages 21-22, outlines the grievance process for allegations of sexual abuse and sexual harassment. Specifically, that the agency would issue a final decision on grievances related to sexual abuse within 90 days of the initial filing. The 90 days does not include the time used by the inmate to prepare any administrative appeal. The agency may claim an extension up to 70 days if the normal time period for response is insufficient to make an appropriate decision. The inmate must be notified in writing of the extension and provide a date by which the decision will be made. The policy also indicates that if the inmate does not receive a response within the allotted timeframe, the inmate will consider the absence of a response to be a denial. A review of the offender orientation handbook indicates that part 17 discusses the grievance procedures for the facility, including timelines and procedures. The PAQ indicated that there have been 42 grievances of sexual abuse filed in the previous twelve months and that all 42 had a final decision within 90 days. Additionally, the PAQ states that the agency always notifies the inmate in writing when the agency files any extensions. A review of thirteen grievances indicated that all thirteen were responded to within 90 days. Eight of the thirteen allegations indicated that they were investigated without sufficient evidence to support the allegation. Five of the grievances were filed by a third party and the inmate declined to proceed. Interviews with inmate who reported sexual abuse indicated that three of the five submitted information via a grievance. Two of the three indicated they received information within 90 days. One inmate indicated he wasn’t sure on the timeframe he was informed.

115.52 (e): The PAQ stated that the agency has a policy that permits third parties to assist inmates in filing requests for administrative remedies related to allegations of sexual abuse and are able to file such requests on the inmate’s behalf. AD-03.82, OGOM Appendix U and OGOM 9.00, outline the grievance process for third party allegations of sexual abuse and sexual harassment. Specifically, they state that third parties are permitted to assist inmates in filing request for administrative remedies for sexual abuse and are permitted to file such request on behalf of the inmate. In addition, they state that if a third-party files a report on behalf of an inmate that the agency may require the alleged victim to agree with the request prior to filing and if the inmate declines, will require the inmate to complete a sworn affidavit stating he does not want the grievance to proceed. The PAQ indicated that in the previous twelve months, there have been seven grievances where the inmate declined third-party assistance. A review of the five of the grievances indicated the victim declined to proceed with the grievance in all five.

115.52 (f): The PAQ indicates that the agency has a policy related to filing an emergency grievance alleging substantial risk of imminent sexual abuse and that policy requires an initial response within 48 hours. The Safe Prisons/PREA Plan, pages 21-22, outlines the grievance process for allegations of sexual abuse and sexual harassment. Specifically, it requires that the agency provides inmates the opportunity to file an emergency grievance alleging substantial risk of imminent sexual abuse and requires that the grievance be addressed immediately. The policy states that an initial response will be provided within 48 hours and that a final decision will be provided within five calendar days by the housing Captain. The final decision must document the agency’s determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The PAQ indicated that there have been four emergency grievances alleging substantial risk of imminent sexual abuse filed in the previous twelve months. It was determined after a review that none of the grievances filed were emergency grievances. The TDCJ automatically upgrades certain grievances to an emergency grievance based on their policy. All grievances reviewed were regular grievances and were responded to within the required 90 days. Any upgraded grievances through TDCJ staff require the grievance to be responded to within five days.

115.52 (g): The Safe Prisons/PREA Plan, page 22, indicates that inmates may be disciplined for filing a grievance in bad faith. The PAQ indicated that no inmates have been disciplined for filing a grievance in bad faith in the previous twelve months. A review of thirteen grievances illustrates that none involved inmate discipline.
Based on a review of the PAQ, the Safe Prisons/PREA Plan, AD-03.82, OGOM, OGOM 9.00, OGOM Appendix U, the offender orientation handbook, the nine sexual abuse grievances, a review of the grievance log and information obtained from interviews with inmates who reported sexual abuse, this standard appears to be compliant.

**Standard 115.53: Inmate access to outside confidential support services**

### 115.53 (a)

- Does the facility provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations? ☒ Yes ☐ No
- Does the facility provide persons detained solely for civil immigration purposes mailing addresses and telephone numbers, including toll-free hotline numbers where available of local, State, or national immigrant services agencies? (N/A if the facility never has persons detained solely for civil immigration purposes.) ☐ Yes ☐ No ☒ NA
- Does the facility enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible? ☒ Yes ☐ No

### 115.53 (b)

- Does the facility inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws? ☒ Yes ☐ No

### 115.53 (c)

- Does the agency maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide inmates with confidential emotional support services related to sexual abuse? ☒ Yes ☐ No
- Does the agency maintain copies of agreements or documentation showing attempts to enter into such agreements? ☒ Yes ☐ No

Interviews:

2. Inmates who Reported Sexual Abuse

Findings (By Provision):

115.53 (a): The PAQ states that the facility provides inmates access to outside victim advocates for emotional support services related to sexual abuse by giving them mailing address and phone numbers. Additionally, the PAQ states that the facility enables reasonable communication between inmates and these organizations in a confidential manner as possible. The Safe Prisons/PREA Plan, page 12, indicates that the agency provides access to outside victim advocates for emotional support related to sexual abuse by giving inmates mailing addresses and telephone numbers to victim advocates or rape crisis organizations and enables reasonable communication in as confidential manner as possible. A review of numerous solicitation letters from 2018 to 2020 confirm the efforts. However, at the time of the audit they have been unable to establish an agreement. The agency continues to solicit community rape crisis organization to provide services, specifically the Guadalupe Valley Family Violence Shelter, Inc. for the Connally Unit. While, the agency does not have an agreement, they do provide the inmates with the TAASA directory that includes mailing addresses and phone number of all the rape crisis centers in Texas. Inmates have access to the TAASA number by requesting through staff to call. Additionally, the facility offers emotional support services through the on-site OVRs. The offender orientation handbook (page 29) and Safe Prisons/PREA Program brochure describes the available agency services via the OVRs. Interviews with inmates indicated that five knew about victim advocacy services outside the facility. The majority indicated that there was information in their handbook about the services. None of the five inmates who reported sexual abuse indicated that they were allowed to contact anyone after their allegation and one stated he received mailing addresses and/or telephone numbers. It should be noted that a review of investigations confirm that all inmates are offered an OVR after reporting sexual abuse. Inmates are not detained solely for civil immigration purposes at the facility, therefore that part of the provision does not apply.

115.53 (b): The PAQ indicates that the facility informs inmates, prior to giving them access to outside support services, the extent to which communication will be monitored. It also indicates that the facility provides information to inmates related to mandatory reporting rules governing privacy and confidentiality. The Safe Prisons/PREA Plan, page 13, confirms that prior to giving inmates access to outside support services that they are informed of the extent which communication will be monitored as well as any mandatory reporting rules and limits to confidentiality. A review of the offender orientation handbook indicates that inmates are informed about confidentiality and that all calls on the inmate phones are recorded. A review of numerous solicitation letters from 2018 to 2020 confirm the efforts. However, at the time of the audit they have been unable to establish an agreement. The agency continues to solicit community rape crisis organization to provide services, specifically the Guadalupe Valley Family Violence Shelter, Inc. for the Connally Unit. While, the agency does not have an agreement, they do provide the
inmates with the TAASA directory that includes mailing addresses and phone number of all the rape crisis centers in Texas. Inmates have access to the TAASA number by requesting through staff to call. Additionally, the facility offers emotional support services through the on-site OVRs. The offender orientation handbook (page 29) and Safe Prisons/PREA Program brochure describes the available agency services via the OVRs.

115.53 (c): The PAQ indicated that the facility has been unable to obtain an MOU or other agreement with community service providers. Additionally, it states that the agency maintains documentation of the attempts to enter into such agreements. The agency has attempted to solicit local advocacy services from 2014 to current. The facility is currently one that the agency has been unable to obtain an MOU for services. A review of the solicitation letters confirmed attempts have been made each year to partner with local rape crisis centers, specifically the Guadalupe Valley Family Violence Shelter, Inc. for the Connally Unit. The letters express the requirements under the PREA standards, the services they would like to receive from the organization and the change in the Victims of Crime Act (VOCA) funding requirements that allow them to utilize their current funding to assist inmates. Additionally, the letters indicate the TDCJ is willing to provide support to the organization to allow them to become familiar with the correctional environment.

Based on a review of the PAQ, the Safe Prison/PREA Plan, the TAASA directory, the offender orientation handbook, the Safe Prisons/PREA Program brochure, solicitation letters, and interviews with random inmates and inmate who reported sexual abuse, this standard appears to be compliant.

### Standard 115.54: Third-party reporting

**115.54 (a)**

- Has the agency established a method to receive third-party reports of sexual abuse and sexual harassment? ☒ Yes ☐ No
- Has the agency distributed publicly information on how to report sexual abuse and sexual harassment on behalf of an inmate? ☒ Yes ☐ No

**Auditor Overall Compliance Determination**

- ☒ **Exceeds Standard** *(Substantially exceeds requirement of standards)*
- ☑ **Meets Standard** *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*
- ☐ **Does Not Meet Standard** *(Requires Corrective Action)*

**Documents:**

1. Pre-Audit Questionnaire
2. Offender Orientation Handbook
3. PREA Posters
Findings (By Provision):

115.54 (a): The PAQ indicated that the agency has a method to receive third-party reports of sexual abuse and sexual harassment and publicly distributes that information on how to report sexual abuse and sexual harassment on behalf of an inmate. A review of the general information guide for families of offenders and PREA posters as well as the agency’s website (www.tdcj.texas.gov/lbci/prea.html or www.tdcj.texas.gov/ks_offender.html) confirm that third parties can report on behalf of an inmate. Third parties can report via the PREA Ombudsman’s office, the OIG or reporting directly to the facility Warden.

Based on a review of the PAQ, the offender orientation handbook, the general information guide for families of offenders, PREA posters and the agency's website this standard appears to be compliant.

Interviews:
1. Interview with Random Staff
2. Interview with Medical and Mental Health Staff
3. Interview with the Warden
4. Interview with the PREA Coordinator

Findings (By Provision):

115.61 (a): The Safe Prisons/PREA Plan, page 23, AD-16.20, pages 3-4 and PD-29, pages 4-5, outline the staff and agency reporting duties. Specifically, it requires all staff to report immediately any knowledge, suspicion or information regarding an incident of sexual abuse or sexual harassment, retaliation against any inmate or staff that reported such incidents and any staff neglect or violation of responsibility that may have contributed to an incident. The PAQ along with interviews with staff confirm that they take all allegations seriously and that they know they are required and would report any knowledge, suspicion or information regarding an incident of sexual abuse and sexual harassment. Interviews also confirmed they would report retaliation or any staff neglect related to these incident types.

115.61 (b): The Safe Prisons/PREA Plan, page 23 and the SPPOM 05.01, page 4, describes that staff will not reveal any information related to an incident of sexual abuse other than as necessary for treatment, investigation and other security decisions. The PAQ along with interviews with staff confirm that they would immediately report the information to their supervisor. Staff indicated the only others they would report to are the Majors, Wardens and PREA staff.
115.61 (c): The Safe Prisons/PREA Plan, page 23, indicates that medical and mental health staff are required to report sexual abuse as described in section (a) and that they are required to inform inmates of their duty to report and limits to confidentiality at the initiation of services. The PAQ along with interviews with medical staff confirm that they would immediately report any allegation of sexual abuse that occurred within a confinement setting. Medical staff indicated they are required to inform inmates of their limitations of confidentiality and duty to report.

115.61 (d): CMHCPM G-57.1 indicates that any alleged victims under the age of 18 or considered to be a vulnerable adult would require the agency to report the allegation to the designated State or local service under applicable mandatory reporting laws. The PAQ along with interviews with the PREA Coordinator and the Warden indicated that the facility is responsible for notifying the OIG and any outside notifications would be completed through their office.

115.61 (e): AD-16.20, pages 3-4, indicates that all allegations of sexual abuse and sexual harassment, including third party and anonymous reports would be reported to the Office of the Inspector General. The PAQ along with the interview with the Warden confirmed that this is the practice. A review of investigative reports indicate two allegations were reported by a staff member who observed the actions. Both of these allegations were reported and investigated. Additionally, all other allegations reviewed were forwarded to the OIG for review and had an completed facility investigation.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, AD-16.20, PD-29, SPPOM 05.01, CMHCPM G-57.1, investigative reports and interviews with medical staff, the PREA Coordinator and the Warden confirm this standard appears to be compliant.

Standard 115.62: Agency protection duties

115.62 (a)

- When the agency learns that an inmate is subject to a substantial risk of imminent sexual abuse, does it take immediate action to protect the inmate? ☒ Yes ☐ No

4. Safe Prisons/PREA Operations Manual SPPOM 05.03
Interviews:
1. Interview with the Agency Head Designee
2. Interview with the Warden
3. Interview with Random Staff

Findings (By Provision):

115.62 (a): SPPOM 02.04, 05.01 and 05.03, indicate that when the agency learns that an inmate is subject to substantial risk of imminent sexual abuse, it takes immediate action to protect the inmate. SPPOM 02.04 specifically illustrates the available actions, to include, verbal intervention, changes in housing assignments, work assignments or work shift hours, placement of aggressive or assaultive offender in restrictive housing, unit transfers, assignment to safekeeping status, assignments to protective safekeeping and interstate corrections compact. The PAQ noted that there were no inmates who were determined to be at risk of imminent sexual abuse. The interview with the Agency Head Designee indicated the agency takes immediate action in order to protect the offender. He stated that this can be done by placement into an investigative status and removing the offender from general housing into transient housing. He further stated a committee would review the offenders housing, job changes, unit transfers and placement in safekeeping housing as several of the intervention strategies designed to separate the victim from the predator. The interview with the Warden confirmed that any inmate at imminent risk would be placed in transient status and an investigation would be initiated. Interviews with random staff indicated that they would immediately separate the inmate, keep him/her safe and notify a supervisor.

Based on a review of the PAQ, SPPOM 02.04, 05.01 and 05.03 and interviews with the Agency Head Designee, Warden and random staff indicate that this standard appears to be compliant.

Standard 115.63: Reporting to other confinement facilities

115.63 (a)
- Upon receiving an allegation that an inmate was sexually abused while confined at another facility, does the head of the facility that received the allegation notify the head of the facility or appropriate office of the agency where the alleged abuse occurred? ☒ Yes ☐ No

115.63 (b)
- Is such notification provided as soon as possible, but no later than 72 hours after receiving the allegation? ☒ Yes ☐ No

115.63 (c)
- Does the agency document that it has provided such notification? ☒ Yes ☐ No

115.63 (d)
- Does the facility head or agency office that receives such notification ensure that the allegation is investigated in accordance with these standards? ☒ Yes ☐ No

Findings (By Provision):

**115.63 (a):** The Safe Prisons/PREA Plan, pages 24-25 and SPPOM 04.01 and 04.02, describe the requirements for reporting to other confinement facilities. Specifically, it requires that upon receiving an allegation that an inmate was sexually abused while confined at another facility, the USPPM will notify the Safe Prisons PREA Management Office who will then notify the appropriate office of the outside agency. The PAQ indicated that during the previous twelve months, the facility had zero inmates report that they were abused while confined at another facility. A review of investigative reports confirmed that all allegations were reported to have occurred at the Connally Unit.

**115.63 (b):** The Safe Prisons/PREA Plan, pages 24-25 and SPPOM 04.01 and 04.02, describes the requirements for reporting to other confinement facilities. Specifically, it requires that upon receiving an allegation that an inmate was sexually abused while confined at another facility, the Safe Prisons PREA Management Office will notify the head of the facility where the alleged abuse occurred within 72 hours. The PAQ indicated that during the previous twelve months, the facility had zero inmates report that they were abused while confined at another facility. A review of investigative reports confirmed that all allegations were reported to have occurred at the Connally Unit.

**115.63 (c):** The Safe Prisons/PREA Plan, pages 24-25 and SPPOM 04.01 and 04.02, describes the requirements for reporting to other confinement facilities. Specifically, it requires that upon receiving an allegation that an inmate was sexually abused while confined at another facility, the Safe Prisons PREA Management Office will notify the head of the facility where the alleged abuse occurred and documentation will be retained that such notification occurred. The PAQ indicated that during the previous twelve months, the facility had zero inmates report that they were abused while confined at another facility. A review of investigative reports confirmed that all allegations were reported to have occurred at the Connally Unit.

**115.63 (d):** The Safe Prisons/PREA Plan, page 25 and SPPOM 04.02, indicates that if the facility receives information from another agency head that an inmate alleges they were sexually abuse while housed at the facility, the allegation will be reported to the PREA Ombudsman and the Office of the Inspector General. The PAQ indicated that during the previous twelve months, the facility received one report from another facility indicating an inmate reported that he was abused while confined at the Connally Unit. A
review of investigative reports confirmed that the allegation was entered into the electronic system, that the Warden was notified and that an investigation was completed. The interview with the Agency Head Designee indicated any allegation that is reported to the agency or another facility within the agency would be referred to the OIG and PREA Ombudsman for an investigation. He indicated that it would be handled the same as if the inmate reported it internally within the agency or at the facility where he/she is currently housed. The interview with the Warden indicated that the information would be entered into the electronic system and an investigation would be initiated. He stated that they would communicate with the facility where the inmate is housed in order to get statements and any other necessary information. The Warden stated he had received one allegation of this type.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, SPPOM 04.01 and 04.02, investigative reports and interviews with the Agency Head Designee and Warden, this standard appears to be compliant.

**Standard 115.64: Staff first responder duties**

**115.64 (a)**

- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Separate the alleged victim and abuser? ☒ Yes ☐ No

- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence? ☒ Yes ☐ No

- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence? ☒ Yes ☐ No

- Upon learning of an allegation that an inmate was sexually abused, is the first security staff member to respond to the report required to: Ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence? ☒ Yes ☐ No

**115.64 (b)**

- If the first staff responder is not a security staff member, is the responder required to request that the alleged victim not take any actions that could destroy physical evidence, and then notify security staff? ☒ Yes ☐ No

2. Interview with Inmates who Reported Sexual Abuse

**Findings (By Provision):**

115.64 (a): The Safe Prisons/PREA Plan, pages 26-27 and the SPPOM 05.01, describes staff first responder duties. Specifically, they require that upon learning that an inmate was sexually abused, the first security staff member separate the alleged victim and the alleged perpetrator; preserve and protect any crime scene until evidence can be collected and if the abuse occurred within a time period that still allows for the collection of physical evidence request that the alleged victim and ensure that the alleged perpetrator not take any action to destroy physical evidence, including washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking or eating. The PAQ indicated that during the previous twelve months, there were 39 allegations of sexual abuse. Of the 39 allegations, all required a security staff member to separate the alleged victim and abuser, 23 allowed for the collection of physical evidence and eight involved the security staff member to preserve and protect the crime scene and request that the alleged victim and alleged perpetrator not destroy any physical evidence. A review of a sample of fifteen sexual abuse allegations confirmed that two involved immediate physical separation of the victim and perpetrator while the rest involved separation from the alleged abuser through housing changes. Two involved the collection of physical evidence where staff collected clothing. Five involved the preservation and collection of evidence through forensic medical examinations. All fourteen random staff interviewed were well versed on first responder duties. All staff indicated they would separate the alleged victim and alleged perpetrator and would contact their supervisor. Most indicated they would secure the crime scene and would not allow the inmates to destroy any physical evidence on their body. Security staff first responders indicated they would do the aforementioned steps but would also ensure the inmate is seen by medical. The non-security first responder indicated she would separate the inmates and go get security. The six inmates who reported sexual abuse indicated that two believed the staff responded timely. Four of the six indicated they were eventually separated from their abuser. Two indicated that nothing was done. It should be noted that the two who said nothing was done were sexual harassment allegations against staff and the staff remains employed at the facility.

115.64 (b): The Safe Prisons/PREA Plan, pages 26-27 and the SPPOM 05.01 describe staff first responder duties. Specifically, they require that non-security staff first responders advise the alleged victim and ensure the alleged perpetrator not take any action to destroy physical evidence, if it occurred within a time period that still allows for the collection of physical evidence. Staff would tell the inmate not to wash, brush their teeth, change their clothes, urinate, defecate, smoke, drink or eat. The PAQ indicated that during the previous twelve months, there have been zero allegations of sexual abuse that involved
a non-security staff first responder. A review of a sample of fifteen sexual abuse allegations confirmed that two involved immediate physical separation of the victim and perpetrator while the rest involved separation from the alleged abuser through housing changes. Two involved the collection of physical evidence where staff collected clothing. Five involved the preservation and collection of evidence through forensic medical examinations. All fourteen random staff interviewed were well versed on first responder duties. All staff indicated they would separate the alleged victim and alleged perpetrator and would contact their supervisor. Most indicated they would secure the crime scene and would not allow the inmates to destroy any physical evidence on their body. Security staff first responders indicated they would do the aforementioned steps but would also contact ensure the inmate is seen by medical. The non-security first responder indicated she would separate the inmates and go get security. The six inmates who reported sexual abuse indicated that two believed the staff responded timely. Four of the six indicated they were eventually separated from their abuser. Two indicated that nothing was done. It should be noted that the two who said nothing was done were sexual harassment allegations against staff and the staff remains employed at the facility.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, the SPPOM 05.01, investigative reports and information from interviews with random staff and security and non-security first responders indicate that this standard appears to be compliant.

**Standard 115.65: Coordinated response**

**115.65 (a)**

- Has the facility developed a written institutional plan to coordinate actions among staff first responders, medical and mental health practitioners, investigators, and facility leadership taken in response to an incident of sexual abuse? ☒ Yes ☐ No

**Auditor Overall Compliance Determination**

**Documents:**

1. Pre-Audit Questionnaire
2. Connally Unit Sexual Abuse Coordinated Response Plan

**Interviews:**

1. Interview with the Warden

**Findings (By Provision):**

**115.65 (a):** The PAQ indicated that the facility has a written plan that coordinates actions taken in response to incidents of sexual abuse among staff first responders, medical and mental health,
investigators and facility leaders. A review of the coordinated response shows that all areas are accounted for in the plan. Each section includes the actions that each person and/or department is responsible for and includes information on how all areas work together to respond to allegations. The Warden confirmed that the facility has a plan and that it includes all the required components.

Based on a review of the PAQ, the coordinated response and the interview with the Warden, this standard appears to be compliant.

**Standard 115.66: Preservation of ability to protect inmates from contact with abusers**

115.66 (a)

- Are both the agency and any other governmental entities responsible for collective bargaining on the agency's behalf prohibited from entering into or renewing any collective bargaining agreement or other agreement that limits the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted? ☒ Yes ☐ No

115.66 (b)

- Auditor is not required to audit this provision.

**Auditor Overall Compliance Determination**

**Interviews:**

1. Interview with the Agency Head Designee

**Findings (By Provision):**

115.66 (a): The PAQ indicated that this provision does not apply as the agency does not have any collective bargaining agreement. No entity has the ability to limit the facility from removing alleged staff abusers from contact with any inmates. The interview with the Agency Head Designee confirmed that the agency has no collective bargaining or any entity that would be able to have collective bargaining on the agency's behalf.
115.66 (b): The PAQ indicated that this provision does not apply as the agency does not have any collective bargaining agreement. No entity has the ability to limit the facility from removing alleged staff abusers from contact with any inmates. The interview with the Agency Head Designee confirmed that the agency has no collective bargaining or any entity that would be able to have collective bargaining on the agency’s behalf.

Based on a review of the PAQ and the interview with the Agency Head Designee, this standard appears to be compliant.

**Standard 115.67: Agency protection against retaliation**

115.67 (a)
- Has the agency established a policy to protect all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other inmates or staff? ☒ Yes ☐ No
- Has the agency designated which staff members or departments are charged with monitoring retaliation? ☒ Yes ☐ No

115.67 (b)
- Does the agency employ multiple protection measures, such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services, for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations? ☒ Yes ☐ No

115.67 (c)
- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Monitor the conduct and treatment of inmates or staff who reported the sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff? ☒ Yes ☐ No
- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Monitor the conduct and treatment of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff? ☒ Yes ☐ No
- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Act promptly to remedy any such retaliation? ☒ Yes ☐ No
- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Monitor any inmate disciplinary reports? ☒ Yes ☐ No
- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Monitor inmate housing changes? ☒ Yes ☐ No

- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Monitor inmate program changes? ☒ Yes ☐ No

- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Monitor negative performance reviews of staff? ☒ Yes ☐ No

- Except in instances where the agency determines that a report of sexual abuse is unfounded, for at least 90 days following a report of sexual abuse, does the agency: Monitor reassignments of staff? ☒ Yes ☐ No

- Does the agency continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need? ☒ Yes ☐ No

115.67 (d)

- In the case of inmates, does such monitoring also include periodic status checks? ☒ Yes ☐ No

115.67 (e)

- If any other individual who cooperates with an investigation expresses a fear of retaliation, does the agency take appropriate measures to protect that individual against retaliation? ☒ Yes ☐ No

115.67 (f)

- Auditor is not required to audit this provision.

2. Interview with the Warden
3. Interview with Designated Staff Member Charged with Monitoring Retaliation
4. Interview with Inmates who Reported Sexual Abuse

**Findings (By Provision):**

**115.67 (a):** The Safe Prisons/PREA Plan, page 24 and the SPPOM 05.08, outline the agency’s method for protection against retaliation. It addresses that the agency will protect all inmates and staff who report sexual abuse and sexual harassment from retaliation by other inmates and staff and has designated staff responsible for monitoring. The PAQ indicated that the facility has a policy and that the Warden, Associate Wardens, Majors and USPPM are responsible for monitoring for retaliation.

**115.67 (b):** SPPOM 02.04, outlines the agency’s protection against retaliation. It addresses the multiple measures that the facility will take to protect inmates and staff. These measures include; housing changes or unit transfers, removal of the alleged staff abuser from contact with the victim, work changes for inmates, placement in safe keeping or protective custody, if necessary, and emotional support services. A review of monitoring forms and investigative reports indicated that there have been no allegations of retaliation nor any reported fear of retaliation. The interview with the Agency Head Designee indicated that monitoring for retaliation is driven by policy and procedure. He stated that monitoring is conducted 90 days in 30-day increments. The interviews with the Warden confirmed that inmates would be placed in transient status and that they have numerous ways to protect the inmate to include housing changes, unit transfers, post changes for staff and termination of staff, if appropriate. The staff responsible for monitoring retaliation stated that she monitors inmates for 90 days, with 30 day in-person status checks. She stated that she asks the inmate whether there is anything else to report since the allegation, whether he/she is having any issues and whether he/she is comfortable in their current housing. Interviews with six inmate who reported sexual abuse indicated that three of the six felt protected against retaliation. The other three indicated that nothing has been done to them but that staff can toss their cell at any time and that staff can harass them whenever they want.

**115.67 (c):** The Safe Prisons/PREA Plan, page 24 and the SPPOM 05.08, outline the agency’s protection against retaliation. It addresses that the facility will monitor the inmate for at least 90 days following a report of sexual abuse and will monitor the conduct and treatment of the inmate or staff to see if there are any changes that may suggest possible retaliation and will act promptly to remedy any retaliation. The policy requires that the process include; monitoring any inmate disciplinary reports, housing or program changes or any negative performance reviews or reassignments of staff. The policy indicates that monitoring can extend beyond 90 days if the initial monitoring indicates a need to continue. Attachments N.S. and N.O. are utilized by staff to monitoring staff and inmates. The PAQ indicated that the facility monitors for retaliation and that it does so for at least 90 days. The PAQ indicated that there had been no instances of retaliation in the previous twelve months. A review of fifteen sexual abuse allegations indicated that thirteen required monitoring under the standard. Of those, ten had monitoring completed. Two did not have monitoring completed because the inmate transferred to another facility prior to the first 30-day status check. One was not completed as the inmate departed the TDCJ custody. Of the ten completed monitoring, all had the 90-day monitoring with 30-day status checks and necessary housing, job and disciplinary checks. All included information obtained from the inmate related to whether he felt retaliated against or had any issues. The interview with the Warden indicated that if the facility suspects retaliation that they would immediately get with the OIG and move forward with an investigation.
and possible criminal charges. He indicated that any retaliation by staff would involve termination. The monitoring staff stated that she would review housing changes, job changes, education changes and any disciplinary reports. She stated she would do this for 90 days, with 30-day status checks.

115.67 (d): The Safe Prisons/PREA Plan, page 24 and the SPPOM 05.08, outline the agency’s protection against retaliation. It addresses that the facility will monitor the inmate for at least 90 days following a report of sexual abuse and will conduct a minimum of three status checks. The facility utilizes two forms to monitor for retaliation, Attachment N.O. and Attachment N.S. These forms are utilized to ensure all requirements are met and staff and inmates are safe from retaliation. A review of fifteen sexual abuse allegations indicated that thirteen required monitoring under the standard. Of those, ten had monitoring completed. Two did not have monitoring completed because the inmate transferred to another facility prior to the first 30 days status check. One was not completed as the inmate departed the TDCJ custody. Of the ten completed monitoring, all had the 90-day monitoring with 30-day status checks and necessary housing, job and disciplinary checks. All included information obtained from the inmate related to whether he felt retaliated against or had any issues. The interview with staff responsible for monitoring indicated that she would review the inmate for at least 90 days with 30-day status checks.

115.67 (e): The Safe Prisons/PREA Plan, page 24 and the SPPOM 05.08, outline the agency’s protection against retaliation. It addresses that the facility will take appropriate measures to protect any individual who cooperates with an investigation or expresses fear of retaliation. The interview with the Agency Head Designee indicated that monitoring for retaliation is driven by policy and procedure. He stated that monitoring is conducted 90 days in 30-day increments. The interview with the Warden indicated that they would employ the same protective measures as stated previously such as housing changes, unit transfers and post changes. He stated any retaliation would be reported to the OIG for investigation. A review of documentation indicated that one case had monitoring for the inmate witnesses.

115.67 (f): Auditor not required to audit this provision.

Based on a review of the PAQ, Safe Prisons/PREA Plan, SPPOM 02.04, SPPOM 05.08, Attachment N.O., Attachment N.S. and interviews with the Agency Head Designee, Warden, staff charged with monitoring for retaliation and inmates who reported sexual abuse indicate that this standard is compliant.

Interviews:

2. Interview with Staff who Supervise Inmates in Segregated Housing

Site Review Observations:
1. Observations of the Absence of a Segregation Unit

Findings (By Provision):

115.68 (a): The Safe Prisons/PREA Plan, page 18-19, indicates any use of segregated housing to protect an inmate who alleged to have suffered sexual abuse will not be involuntary unless an assessment of all available alternatives has been made and no alternative is available to separate the inmate from likely abusers. Additionally, required justifications related to the concerns for safety and no alternatives are required to be documented and the inmate is required to be reviewed every 30 days. The PAQ indicated that no inmates who alleged sexual abuse were involuntarily segregated for zero to 24 hours or longer than 30 days. A review of housing assignments for inmates who reported sexual abuse indicated that seven were removed from general population and placed in transient status. Of the seven, two were scheduled for a unit transfer and remained in transient status until the transfer (within 30 days). The other five were placed in transient status during the protection investigation and all restrictions were documented. During the tour, it was observed that no inmates who reported sexual abuse were housed in involuntary segregation. The interview with the Warden indicated that inmates who alleged sexual abuse would be placed in transient status pending a protection investigation. He indicated that this would typically not exceed 72 hours. The staff who supervise inmates in segregated housing indicated that inmates may be placed in involuntary segregation under transient status, that they would be reviewed every 30 days and that all restrictions would be documented. He stated inmates typically do not stay in transient status longer than 72 hours.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, the Protective Safekeeping Plan, Attachments A-E, housing logs and the interview with the Warden and staff who supervise inmates in segregated housing, this standard appears to be compliant.

INVESTIGATIONS

Standard 115.71: Criminal and administrative agency investigations

115.71 (a)

- When the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, does it do so promptly, thoroughly, and objectively? [N/A if the agency/facility is not
responsible for conducting any form of criminal OR administrative sexual abuse investigations. See 115.21(a).] ☒ Yes ☐ No ☐ NA

- Does the agency conduct such investigations for all allegations, including third party and anonymous reports? [N/A if the agency/facility is not responsible for conducting any form of criminal OR administrative sexual abuse investigations. See 115.21(a).] ☒ Yes ☐ No ☐ NA

115.71 (b)

- Where sexual abuse is alleged, does the agency use investigators who have received specialized training in sexual abuse investigations as required by 115.34? ☒ Yes ☐ No

115.71 (c)

- Do investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data? ☒ Yes ☐ No
- Do investigators interview alleged victims, suspected perpetrators, and witnesses? ☒ Yes ☐ No
- Do investigators review prior reports and complaints of sexual abuse involving the suspected perpetrator? ☒ Yes ☐ No

115.71 (d)

- When the quality of evidence appears to support criminal prosecution, does the agency conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution? ☒ Yes ☐ No

Findings (By Provision):

115.71 (a): The PAQ indicated that the agency/facility has a policy related to criminal and administrative agency investigations. The Safe Prisons/PREA Plan, page 25, section A4, states that all allegations of sexual abuse and sexual harassment will be conducted promptly, thoroughly and objectively. OIG-04.05 details the sexual abuse investigative process. There were 39 allegations of sexual abuse and six allegations of sexual harassment reported at the facility. A review of fifteen investigative reports determined that all were investigated at the facility level and ten were referred to the OIG for investigation. All fifteen reports reviewed were through, objective and completed promptly. The interview with the OIG investigator as well as the facility investigator confirmed that all investigations (administrative and criminal) are completed promptly, thoroughly and objectively. The OIG investigator stated that the investigation would initiate immediately upon notification and that all investigations would be handled the same regardless of how they were reported.

115.71 (b): The PAQ indicated that currently there are 173 investigators who complete PREA investigations. A review of training documents confirmed that all investigators have received specialized training. The interviews with the investigative staff confirmed that the OIG investigator received the NIC training and the facility investigator received specialized training through the agency.

115.71 (c): OIG-04.05, describes the criminal and administrative investigation process. Specifically, it discusses evidence collection including; physical, DNA, electronic monitoring data and interviews. It also indicates that they will review prior complaints and reports of sexual abuse involving the alleged perpetrator. There were 39 allegations of sexual abuse and six allegations of sexual harassment reported at the facility. A review of fifteen investigative reports determined that all were investigated at the facility level and ten were referred to the OIG for investigation. All facility investigations included an interview of the victim, an interview of the alleged perpetrator (if applicable) and interviews of available witnesses (if applicable). All of the allegations involved collection of either documentation (housing assignments, security rosters, photos, etc.) as evidence or electronic video evidence, if available. Five allegations involved the collection of physical evidence, including inmate clothing and/or DNA. The interviews with investigative staff confirmed that they would initially gather as much information as possible, interview all applicable staff and offenders, collect necessary evidence including physical and electronic, process the evidence and document the information in a report. They indicated they would collect and process evidence including video monitoring, statements, clothing, DNA and anything additional from the scene or related to the allegation.

115.71 (d): The Safe Prisons/PREA Plan, page 28, describes the criminal and administrative investigation process. Specifically, it states that when evidence appears to support criminal prosecution that the agency will conduct compelled interviews only after consulting with prosecutors. A review of investigative reports indicates that one inmate on inmate allegation was referred for prosecution. The case was currently pending grand jury presentation. The interview with the OIG investigator indicated that he is not required to consult with prosecutors before conducting interviews.

115.71 (e): The Safe Prisons/PREA Plan, pages 28-29, describes the criminal and administrative investigation process. Specifically, it states that the credibility of the alleged victim, perpetrator and/or witness will be assessed on an individual basis and will not be determined based on the individual’s
status as an inmate or staff member. Additionally, it indicates that inmates would not be required to submit to a polygraph examination or any other truth-telling device as a condition for proceeding with the investigation. The interview with the investigators confirmed that credibility is based off of evidence and that no offender would be required to take a polygraph or truth telling device test. All of the six inmates interviewed who reported sexual abuse indicated they were not required to take a polygraph test.

115.71 (f): The Safe Prisons/PREA Plan, page 29, describes the criminal and administrative investigation process. Specifically, it states that all administrative investigations will include an effort to determine whether staff actions or failure to act contributed to the abuse and shall be documented in a written report that includes a description of the physical and testimonial evidence, the reasoning behind credibility assessments and investigative facts and findings. There were 39 allegations of sexual abuse and six allegations of sexual harassment reported at the facility. A review of fifteen investigative reports determined that all were investigated at the facility level and ten were referred to the OIG for investigation. Of the fifteen reviewed, all had an administrative investigation completed. All investigations were documented in reports that included required elements under this provision. The investigators gathered evidence to include physical and testimonial and a description of the evidence was included in the reports. No reports included a credibility assessment; however the outcome of the investigation was based on the facts and findings that were found in the reports. Interviews with investigative staff confirm that administrative investigations would be documented in written reports and include a summary of the allegation, inmate statements and interviews, a description of the evidence, a summary of the investigative process, fact and finding and ultimately the outcome of the investigation. They also indicated that they would determine if staff actions or failure to act contributed to the allegation and that this was part of the investigative process through a review of any policy or procedure violations.

115.71 (g): There were 39 allegations of sexual abuse and six allegations of sexual harassment reported at the facility. A review of the fifteen investigative reports determined that all were investigated at the facility level and ten were referred to the OIG for investigation. Of the ten, four had a completed criminal investigation. The OIG is a separate independent law enforcement agency and as such they do not provide their investigations to the facility, rather just the investigative outcome. As such, the auditor was unable to review any closed criminal cases to ensure the required elements under this provision. The interview with the OIG investigator confirmed that criminal investigations are completed in a written document and include a summary of the allegation, inmate statements and interviews, a description of the evidence, a summary of the investigative process, fact and finding and ultimately the outcome of the investigation.

115.71 (h): The PAQ indicated that substantiated allegations of conduct that appear to be criminal will be referred for prosecution. The PAQ indicated that there were two allegations referred for prosecution since the last PREA audit. A review of investigative reports determined that one administrative investigation was substantiated, however the allegation did not rise to the criminal level for an OIG investigation. Further review did reveal that one OIG investigation was referred for prosecution and was waiting grand jury presentation. The interview with the OIG investigator confirmed that if elements are met and there is sufficient evidence that indicates the allegation occurred, he would refer it for prosecution.

115.71 (i): The Safe Prisons/PREA Plan, page 31, describes the criminal and administrative investigation process. Specifically, it indicates that all written reports will be retained per the retention schedule. The retention schedule is found in a document from 2014. All administrative investigations are retained seven years after closure or after termination while criminal investigations are permanently retained. A review of a sample of historical investigations confirmed that they were retained per the agency retention schedule.
115.71 (j): The Safe Prisons/PREA Plan, page 29, describes the criminal and administrative investigation process. Specifically, it indicates that the departure of the alleged victim or alleged abuser from employment or custody of the agency does not provide a basis for terminating an investigation. The interviews with investigators confirmed that all investigations are completed no matter if staff leave/resign or if inmates depart the facility or agency’s custody.

115.71 (k): The Office of the Inspector General is responsible for conducting investigations at all facilities within the Texas Department of Criminal Justice. The OIG policies were reviewed and are included throughout this report. The OIG complies with all PREA policies and procedures related to investigations.

115.71 (l): The Office of the Inspector General is responsible for conducting investigations at all facilities within the Texas Department of Criminal Justice. The OIG policies were reviewed and are included throughout this report. The OIG complies with all PREA policies and procedures related to investigations. Interviews with the Warden and CM indicated that they stay in touch with the OIG and receive updates through their Safe Prison’s Management Office. The OIG indicated they are responsible for investigation and no other outside entity would conduct investigations. The interview with the PC confirmed that the OIG provides a monthly report to the PC and other TDCJ staff regarding the progress of all open investigations.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, OIG-04.05, the retention schedule, investigative reports, training records and information from interviews with the Agency Head Designee, Warden, PC, CM and investigative staff, this standard appears to be compliant.

**Standard 115.72: Evidentiary standard for administrative investigations**

115.72 (a)

- Is it true that the agency does not impose a standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated? ☒ Yes ☐ No

**Auditor Overall Compliance Determination**

☐ Does Not Meet Standard *(Requires Corrective Action)*

**Documents:**
1. Pre-Audit Questionnaire
2. Safe Prisons/PREA Plan
3. PREA Investigations Training

**Interviews:**
1. Interview with Investigative Staff
Findings (By Provision):

115.72 (a): The Safe Prisons/PREA Plan, page 28 and the PREA Investigations Training, page 6, describes the administrative investigation process. Specifically, they indicate that the agency imposes no higher standard than a preponderance of evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. A review of fifteen investigations indicated that one allegation was deemed substantiated. The standard of evidence for the administrative substantiated cases was based on the preponderance of evidence. Additionally, the other fourteen allegations did not meet the evidence level for a substantiated outcome. The interviews with investigative staff confirmed that all administrative investigations require a preponderance of evidence.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, the PREA Investigations Training and information from the interviews with investigative staff it is determined that this standard appears to be compliant.

Standard 115.73: Reporting to inmates

115.73 (a)
- Following an investigation into an inmate’s allegation that he or she suffered sexual abuse in an agency facility, does the agency inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded? ☒ Yes ☐ No

115.73 (b)
- If the agency did not conduct the investigation into an inmate’s allegation of sexual abuse in an agency facility, does the agency request the relevant information from the investigative agency in order to inform the inmate? (N/A if the agency/facility is responsible for conducting administrative and criminal investigations.) ☒ Yes ☐ No ☐ NA

115.73 (c)
- Following an inmate’s allegation that a staff member has committed sexual abuse against the inmate, unless the agency has determined that the allegation is unfounded, or unless the inmate has been released from custody, does the agency subsequently inform the inmate whenever: The staff member is no longer posted within the inmate’s unit? ☒ Yes ☐ No
- Following an inmate’s allegation that a staff member has committed sexual abuse against the inmate, unless the agency has determined that the allegation is unfounded, or unless the inmate has been released from custody, does the agency subsequently inform the inmate whenever: The staff member is no longer employed at the facility? ☒ Yes ☐ No
- Following an inmate’s allegation that a staff member has committed sexual abuse against the inmate, unless the agency has determined that the allegation is unfounded, or unless the inmate has been released from custody, does the agency subsequently inform the inmate whenever: The agency learns that the staff member has been indicted on a charge related to sexual abuse in the facility? ☒ Yes ☐ No
Following an inmate’s allegation that a staff member has committed sexual abuse against the inmate, unless the agency has determined that the allegation is unfounded, or unless the inmate has been released from custody, does the agency subsequently inform the inmate whenever: The agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility? ☒ Yes ☐ No

115.73 (d)

Following an inmate’s allegation that he or she has been sexually abused by another inmate, does the agency subsequently inform the alleged victim whenever: The agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility? ☒ Yes ☐ No

115.73 (e)

Does the agency document all such notifications or attempted notifications? ☒ Yes ☐ No

115.73 (f)

Auditor is not required to audit this provision.

6. Investigative Reports

Interviews:
1. Interview with the Warden
2. Interview with Investigative Staff
3. Interview with Inmates who Reported Sexual Abuse

Findings (By Provision):
115.73 (a): The Safe Prisons/PREA Plan, page 30, SPPOM 05.05 and SPPOM 05.10 describes the process for reporting investigative information to inmates. Specifically, they state that following an investigation into an inmate’s sexual abuse allegation, the facility will inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated or unfounded. The PAQ indicated that there were 39 criminal and/or administrative investigations completed within the previous twelve months and that all 39 included an inmate notification, either verbally or in writing. A review of investigative reports indicated that all fifteen were documented with an investigative outcome notification. The facility provided each inmate victim with information on the outcome of their investigation. The interviews with the Warden and investigative staff confirmed that inmates are informed of the outcome of the investigation into their allegation. Interviews with six inmates who reported sexual abuse indicated that four of the six received notification on the outcome of their investigation.

115.73 (b): The OIG is responsible for conducting all criminal and certain administrative investigations for the agency. The OIG provides the outcome of the investigation to the PREA Coordinator who in turn provides the memo to the facilities to notify the inmate. The PAQ indicated that there were six investigations completed within the previous twelve months by an outside agency and all six had a notification. A review of fifteen completed sexual abuse investigations indicated that the OIG completed their own investigation for four of the sexual abuse allegations. Of the four investigations, all had an investigative outcome notification to the inmate.

115.73 (c): The Safe Prisons/PREA Plan, page 27 and SPPOM 05.10, page 1, describe the process for reporting investigative information to inmates. Specifically, they state that following an investigation into an inmate’s sexual abuse allegation against a staff member, the agency will inform the inmate as to whether the staff member is no longer posted within the inmate’s unit, the staff member is no longer employed at the facility, if the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility or if the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. The PAQ indicated inmates are informed of the requirements under this provision and that there have been substantiated or unsubstantiated complaints in the previous twelve months. A review of investigative reports indicates there were no substantiated staff on inmate allegations, and as such no notifications were required. Interviews with the six inmates who reported sexual abuse indicated that none were provided any information under this provision.

115.73 (d): The Safe Prisons/PREA Plan, page 27 and SPPOM 05.10, page 1, describes the process for reporting investigative information to inmates. Specifically, they state that following an investigation into an inmate’s sexual abuse allegation by another inmate, the agency will inform the inmate as to whether the alleged abuser has been indicted on a charge related to sexual abuse within the facility or if the alleged abuser has been convicted on a charge related to sexual abuse within the facility. The PAQ indicated that six investigations were completed within the previous twelve months and all six had a notification. A review of fifteen investigative reports confirmed that there was one inmate on inmate substantiated sexual abuse allegation. However, that allegation did not rise to the criminal level. Interviews with the six inmates who reported sexual abuse indicated that none were provided any information under this provision.

115.73 (e): The Safe Prisons/PREA Plan, page 28, describes the process for reporting investigative information to inmates. Specifically, it states that all notifications or attempted notifications would be documented. The PAQ indicated that 45 notifications were made under this standard. A review of fifteen investigations indicated that all fifteen were documented with sexual abuse investigative outcomes. Additionally, four notifications related to the outcome of an OIG criminal investigation were provided as well.
115.73 (f): This provision is not required to be audited.

Based on a review of the PAQ, Safe Prisons/PREA Plan, SPPOM 05.05, SPPOM 05.10, investigative reports, inmate notifications and information from interviews with the Warden, investigative staff and inmate who reported sexual abuse, it appears the meets this standard.

**DISCIPLINE**

**Standard 115.76: Disciplinary sanctions for staff**

115.76 (a)
- Are staff subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies? ☒ Yes ☐ No

115.76 (b)
- Is termination the presumptive disciplinary sanction for staff who have engaged in sexual abuse? ☒ Yes ☐ No

115.76 (c)
- Are disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) commensurate with the nature and circumstances of the acts committed, the staff member’s disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories? ☒ Yes ☐ No

115.76 (d)
- Are all terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, reported to: Law enforcement agencies (unless the activity was clearly not criminal)? ☒ Yes ☐ No
  - Are all terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, reported to: Relevant licensing bodies? ☒ Yes ☐ No

Documents:
1. Pre-Audit Questionnaire
2. Safe Prisons/PREA Plan
4. Investigative Reports
5. Disciplinary Action Documents

Findings (By Provision):

115.76 (a): The PAQ indicated that staff are subject to disciplinary sanctions up to and including termination for violating the sexual abuse or sexual harassment policies. The Safe Prisons/PREA Plan, page 31 and PD-22, pages 42, 49, 52 and 54, describes the process for disciplinary sanctions against staff. Specifically, they indicate that staff are subject to disciplinary sanctions up to and including termination for violating the sexual abuse or sexual harassment policies.

115.76 (b): The Safe Prisons/PREA Plan, page 39, indicates that termination will be the presumptive disciplinary sanction for staff who engage in sexual abuse. The PAQ indicated that there were zero staff who violated the sexual abuse and sexual harassment policies in the previous twelve months. A review of the investigative tracking log and fifteen investigative reports confirmed no staff on inmate allegations were substantiated.

115.76 (c): The Safe Prisons/PREA Plan, page 39, describes the process for disciplinary sanctions against staff. Specifically, it illustrates that disciplinary sanctions for violating the agency’s sexual abuse and sexual harassment policies shall be commensurate with the nature and circumstances of the act, the staff member’s disciplinary history and the sanctions imposed for comparable offenses by other staff members with similar histories. The PAQ indicated that there have been no staff that were disciplined, short of termination, for violating the sexual abuse and sexual harassment policies within the previous twelve months. A review of the investigative tracking log and fifteen investigative reports confirmed no staff on inmate allegations were substantiated.

115.76 (d): The Safe Prisons/PREA Plan, page 39, indicates that staff who are terminated for violating the sexual abuse or sexual harassment policies, or staff who resign prior to being terminated, will be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. The PAQ indicated that there have been no staff members that were terminated for violating the sexual abuse and sexual harassment policies within the previous twelve months and thus none were reported to law enforcement or relevant licensing bodies.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, PD-22 and investigative reports, this standard appears to be compliant.

**Standard 115.77: Corrective action for contractors and volunteers**

- Is any contractor or volunteer who engages in sexual abuse reported to: Law enforcement agencies (unless the activity was clearly not criminal)? ☒ Yes ☐ No

- Is any contractor or volunteer who engages in sexual abuse reported to: Relevant licensing bodies? ☒ Yes ☐ No

115.77 (b)

- In the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer, does the facility take appropriate remedial measures, and consider whether to prohibit further contact with inmates? ☒ Yes ☐ No

Findings (By Provision):

115.77 (a): The Safe Prisons/PREA Plan, pages 39-40, PD-29, page 6, WBP-07.44, page 1 and the Volunteer Services Plan, page 22, describe the process for corrective action for volunteers and contractors. Specifically, they indicate that any contractor or volunteer who engages in sexual abuse is prohibited from contact with inmates, will be subject to disciplinary action and be reported to law enforcement, unless the activity was clearly not criminal, and to relevant licensing bodies (Texas Board of Nursing, Texas Department of Aging and Disability Services and Texas Board of Physicians). The PAQ indicated that any contractor or volunteer who engages in sexual abuse be prohibited from contact with inmates. Additionally, the PAQ stated that contractors or volunteers who engage in sexual abuse are reported to law enforcement agencies and relevant licensing bodies. There have been no contractors or volunteers who have been reported to law enforcement or relevant licensing bodies in the previous twelve months. A review of the sexual abuse allegations confirmed that none of the allegations involved a contractor or volunteer as an alleged abuser.

115.77 (b): PD-29, page 6 and the PAQ indicated that the agency takes remedial measures and considers whether to prohibit further contact with inmates in the case of any other violation of sexual
abuse or sexual harassment policies. The interview with the Warden indicated that any violation of the sexual abuse and sexual harassment policies would result in the volunteer or contractor no longer being allowed in the unit and would be removed from their position. He also stated that they would be referred to the OIG for possible criminal charges.

Based on a review of the PAQ, Safe Prisons/PREA Plan, PD-29, WBP-07.44, the Volunteer Services Plan and information from the interview with the Warden, this standard appears to be compliant.

Standard 115.78: Disciplinary sanctions for inmates

115.78 (a)
- Following an administrative finding that an inmate engaged in inmate-on-inmate sexual abuse, or following a criminal finding of guilt for inmate-on-inmate sexual abuse, are inmates subject to disciplinary sanctions pursuant to a formal disciplinary process? ☒ Yes ☐ No

115.78 (b)
- Are sanctions commensurate with the nature and circumstances of the abuse committed, the inmate’s disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories? ☒ Yes ☐ No

115.78 (c)
- When determining what types of sanction, if any, should be imposed, does the disciplinary process consider whether an inmate’s mental disabilities or mental illness contributed to his or her behavior? ☒ Yes ☐ No

115.78 (d)
- If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, does the facility consider whether to require the offending inmate to participate in such interventions as a condition of access to programming and other benefits? ☒ Yes ☐ No

115.78 (e)
- Does the agency discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact? ☒ Yes ☐ No

115.78 (f)
- For the purpose of disciplinary action does a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred NOT constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation? ☒ Yes ☐ No

115.78 (g)
If the agency prohibits all sexual activity between inmates, does the agency always refrain from considering non-coercive sexual activity between inmates to be sexual abuse? (N/A if the agency does not prohibit all sexual activity between inmates.) ☒ Yes ☐ No ☐ NA

2. Interview with Medical and Mental Health Staff

Findings (By Provision):

115.78 (a): The Safe Prisons/PREA Plan, page 31 and the Disciplinary Rules and Procedures for Offenders, describe the disciplinary process for inmates. Specifically, they state that inmates will be subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the inmate engaged in inmate on inmate sexual abuse or following a finding of guilt from a criminal investigation. The PAQ indicated there has been one administrative finding of inmate on inmate sexual abuse within the previous twelve months. A review of investigative reports and disciplinary records confirmed that one inmate on inmate investigation was substantiated. The inmate perpetrator received a disciplinary report related to the allegation.

115.78 (b): The Safe Prisons/PREA Plan, page 31, describes the disciplinary process for inmates. Specifically, it indicates that the sanctions will commensurate with the nature and circumstances of the abuse committed, the inmates’ disciplinary history and sanctions imposed for comparable offenses by inmates with similar histories. The PAQ indicated there has been one administrative finding of inmate on inmate sexual abuse within the previous twelve months. A review of investigative reports and disciplinary records confirmed that one inmate on inmate investigation was substantiated. The inmate perpetrator received a disciplinary report related to the allegation. The interview with the Warden indicated that there are certain ranges of discipline for substantiated allegations, based on the type of offense. He stated disciplinary measures can include a change in their custody level, time in the RHU, loss of good time, demotion in line class and numerous privilege restrictions.
115.78 (c): The Safe Prisons/PREA Plan, page 31 and CMHCPM A-08.01, describe the disciplinary process for inmates. Specifically, they indicate that the disciplinary process will consider whether the inmate’s mental illness or mental disability contributed to the behavior when determining what sanctions, if any, should be imposed. The PAQ indicated there has been one administrative finding of inmate on inmate sexual abuse within the previous twelve months. A review of investigative reports and disciplinary records confirmed that one inmate on inmate investigation was substantiated. The inmate perpetrator received a disciplinary report related to the allegation. The interview with the Warden indicated that if anyone is identified to meet the mental health criteria that they are reviewed by mental health staff prior to proceeding with the disciplinary process.

115.78 (d): The Safe Prisons/PREA Plan, page 31, describes the disciplinary process for inmates. Specifically, it indicates that the agency will offer therapy, counseling and other interventions to correct underlying reasons or motivations for the abuse and will consider whether to require the abuser to participate in these interventions as a condition of access to programming and other benefits. The PAQ indicated that the facility offers therapy, counseling, or other underlying interventions designed to address and correct the underlying reasons or motivations for abuse. It also indicated that the facility considers whether to require the offending inmate to participate in such interventions as a condition of access to programming and other benefits. The interviews with medical and mental health staff indicated that the facility does offer therapy however it is all voluntary.

115.78 (e): The Safe Prisons/PREA Plan, page 31, describes the disciplinary process for inmates. Specifically, it indicates that the agency may discipline an inmate for sexual contact with staff only upon finding that the staff member did not consent. The PAQ indicated that the agency disciplines inmates for sexual conduct with staff only upon finding that the staff member did not consent to such contact. A review of investigative reports and disciplinary records confirms that there have been no instances where inmates have been disciplined for sexual contact with staff.

115.78 (f): The PAQ stated that the agency prohibits disciplinary action for a report of sexual abuse made in good faith. The Safe Prisons/PREA Plan, page 31, describes the disciplinary process for inmates. Specifically, it indicates that inmates will not be disciplined for falsely reporting an incident or lying if the sexual abuse allegation is made in good faith based upon reasonable belief that the alleged conduct occurred. There have been three instances where inmates have been disciplined for falsely reporting an incident of sexual abuse or sexual harassment. Inmates were given a disciplinary report once the allegation was determined to be unfounded.

115.78 (g): The PAQ indicates that the agency does prohibit all sexual activity between inmates and that they only deem the activity sexual abuse if it is determined that the activity was coerced. The Safe Prisons/PREA Plan, page 31, describes the disciplinary process for inmates. Specifically, it indicates that inmates are prohibited from all sexual activity and as such can be disciplined. Consensual sexual activity does not constitute a PREA allegation.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, Disciplinary Rules and Procedures for Offenders, CMHCPM A-08.01, investigative reports, disciplinary records and information from interviews with the Warden and medical and mental health care staff, this standard appears to be compliant.

- If the screening pursuant to § 115.41 indicates that a prison inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening? (N/A if the facility is not a prison.)
  - ☒ Yes  ☐ No  ☐ NA

## 115.81 (b)
- If the screening pursuant to § 115.41 indicates that a prison inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening? (N/A if the facility is not a prison.)
  - ☒ Yes  ☐ No  ☐ NA

## 115.81 (c)
- If the screening pursuant to § 115.41 indicates that a jail inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening?
  - ☒ Yes  ☐ No

## 115.81 (d)
- Is any information related to sexual victimization or abusiveness that occurred in an institutional setting strictly limited to medical and mental health practitioners and other staff as necessary to inform treatment plans and security management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law?
  - ☒ Yes  ☐ No

## 115.81 (e)
- Do medical and mental health practitioners obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18?
  - ☒ Yes  ☐ No

Site Review Observations:
1. Observations of Risk Screening Area

Findings (By Provision):

115.81 (a): The Safe Prisons/PREA Plan, pages 17-18 and CMHCPM E-35.2, describe medical and mental health screenings related to sexual abuse. Specifically, they state that inmates who indicate during the risk screening that they have experienced prior sexual victimization will be offered a follow up with medical or mental health within fourteen days of the screening. The PAQ indicated that 100% of inmates who reported prior victimization were offered a follow-up meeting with medical or mental health within fourteen days. The PAQ also indicated that medical and mental health maintain documents related to compliance with these services. The I-214 form is utilized by staff to refer an inmate for medical and mental health services. The form contains two boxes for PREA, one for medical services and one for mental health services. The auditor reviewed six inmates who were identified to have disclosed prior victimization within the previous twelve months. A review of medical and mental health files indicated that all six inmates were offered mental health services within fourteen days. The interview with staff responsible for the risk screening indicated that after the inmate discloses prior victimization they are seen by mental health fairly quickly. Interviews with three inmates who disclosed prior victimization indicated that two did not have a follow up with mental health. A review of documentation indicated that all three were offered a follow-up with mental health.

115.81 (b): The Safe Prisons/PREA Plan, pages 17-18 and CMHCPM E-35.2 describe medical and mental health screenings related to sexual abuse. Specifically, they state that inmates who indicate during the risk screening that they have previously perpetrated sexual abuse will be offered a follow up with medical or mental health within fourteen days of the screening. The PAQ indicated that 100% of those inmates who reported to have previously perpetrated sexual abuse were offered a follow up with medical or mental health within fourteen days. The PAQ also indicated that medical and mental health maintain documents related to compliance with these services. The I-214 form is utilized by staff to refer an inmate for medical and mental health services. The form contains two boxes for PREA, one for medical services and one for mental health services. There was one inmate identified during the audit to have reported prior perpetration of sexual abuse. A review of his medical and mental health documentation indicated he was seen by mental health within the fourteen-day timeframe. The interview with the staff responsible for risk screening indicated inmates who report prior sexual abusiveness are seen fairly quickly by mental health.

115.81 (c): The Safe Prisons/PREA Plan, pages 17-18 and CMHCPM E-35.2, describe medical and mental health screenings related to sexual abuse. Specifically, they state that inmates who indicate
during the risk screening that they have experienced prior sexual victimization will be offered a follow up with medical or mental health within fourteen days of the screening. The PAQ indicated that 100% of inmates who reported prior victimization were offered a follow-up meeting with medical or mental health within fourteen days. The PAQ also indicated that medical and mental health maintain documents related to compliance with these services. The I-214 form is utilized by staff to refer an inmate for medical and mental health services. The form contains two boxes for PREA, one for medical services and one for mental health services. The auditor reviewed six inmates who were identified to have disclosed prior victimization within the previous twelve months. A review of medical and mental health files indicated that all six inmates were offered mental health services within fourteen days. The interview with staff responsible for the risk screening indicated that after the inmate discloses prior victimization they are seen by mental health fairly quickly. Interviews with three inmates who disclosed prior victimization indicated that two did not have a follow up with mental health. A review of documentation indicated that all three were offered a follow-up with mental health.

115.81 (d): The PAQ indicated that information related to sexual victimization or abusiveness is not strictly limited to medical and mental health. However, the information is only shared with other staff to assist with security and management decisions. The Safe Prisons/PREA Plan, pages 19-20, describes medical and mental health screenings related to sexual abuse. Specifically, it states that information related to sexual victimization or abusiveness that occurred in an institutional setting is not limited to medical and mental health staff but rather other staff, as necessary, to make housing, program, safety and security decisions. A review of documentation indicated that the risk screening is completed by the CM and that she forwards the appropriate information to medical and mental health. This information is then only shared with necessary staff. During the tour the auditor confirmed that classification (risk screening) records are now maintained electronically and that only certain individuals have access to this electronic information. Additionally, medical and mental health documents are also maintained electronically with limited access. During the tour, the auditor observed the area where the risk screening is conducted. The screening is conducted in a private office setting by the CM.

15.81 (e): The PAQ indicated that medical and mental health obtain informed consent from inmates prior to reporting information about prior victimization that did not occur in an institutional setting, unless the inmate is under the age of 18. The Safe Prisons/PREA Plan, pages 19-20 and CMHCPM G-57.1, describe the medical and mental health screenings related to sexual abuse. Specifically, they state that medical and mental health staff are required to obtain informed consent from inmates prior to reporting information about prior sexual victimization that did not occur within an institutional setting, unless the inmate was under 18. Interviews with medical staff indicate that they obtain informed consent prior to reporting, that they disclose their duty to report and that they have not had any instances of this in the previous twelve months.

Based on a review of the PAQ, Safe Prisons/PREA Plan, CMHCPM G-57.1, CMHCPM E35.2, medical and mental health documents and information from interviews with staff who perform the risk screening, medical and mental health care staff and inmates who disclosed victimization during the risk screening, this standard appears to be compliant.

Standard 115.82: Access to emergency medical and mental health services

115.82 (a)

- Do inmate victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by
medical and mental health practitioners according to their professional judgment?
☒ Yes ☐ No

115.82 (b)

- If no qualified medical or mental health practitioners are on duty at the time a report of recent sexual abuse is made, do security staff first responders take preliminary steps to protect the victim pursuant to § 115.62? ☒ Yes ☐ No

- Do security staff first responders immediately notify the appropriate medical and mental health practitioners? ☒ Yes ☐ No

115.82 (c)

- Are inmate victims of sexual abuse offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate? ☒ Yes ☐ No

115.82 (d)

- Are treatment services provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident? ☒ Yes ☐ No

3. Interview with Security Staff and Non-Security Staff First Responders

Site Review Observations:
1. Observations of Medical and Mental Health Areas
Findings (By Provision):

**115.82 (a):** The Safe Prisons/PREA Plan, page 13, describes inmate access to emergency medical and mental health treatment. Specifically, it states that inmate victims of sexual abuse receive timely and unimpeded access to emergency medical treatment and crisis intervention services as determined by the medical and mental health practitioners. The PAQ indicated that victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. It also indicated that the nature and scope of services are determined based on staff professional judgment and that medical and mental health maintain secondary materials documenting the timeliness of services. The I-214 form is utilized by staff to refer an inmate for medical and mental health services. The form contains two boxes for PREA, one for medical services and one for mental health services. During the tour, the auditor noted that the medical area consisted of an emergency room as well as exam rooms. All rooms had full doors, were private and allowed for adequate confidentiality. Interviews with medical staff confirm that inmates receive timely services, typically immediately. Interviews with the medical and mental health care staff confirmed that they provide services that are based on their professional judgement. The six inmates who reported sexual abuse indicated that five were seen by medical and/or mental health. One inmate indicated he did not see either. A review of investigative reports as well as medical and mental health information indicated all fifteen inmate victims were seen by medical and mental health.

**115.82 (b):** SPPOM 05.01, page 4 indicates that if no qualified medical or mental health practitioners were on duty at the time of a report of recent abuse, that security staff first responders would take the preliminary steps to protect the victim and notify the appropriate medical and mental health services. Policy indicates that the inmate would be transported to the nearest Hospital Emergency Department that has medical staff qualified to conduct forensic medical examinations. The I-214 form is utilized by staff to refer an inmate for medical and mental health services. The form contains two boxes for PREA, one for medical services and one for mental health services. A review of investigative reports as well as medical and mental health information indicated all fifteen inmate victims were seen by medical and mental health. Five of the inmates were transported to a local hospital for a forensic medical examination. The interviews with first responders indicated the inmate would be immediately separated, that they would secure any evidence, including any on the inmate’s body and they would contact their supervisor and get the inmate the required medical attention.

**115.82 (c):** The PAQ stated that inmate victims of sexual abuse are offered timely information about and timely access to emergency contraception and sexually transmitted infection prophylaxis, where medically appropriate and that medical and mental health staff maintain secondary documentation of these services. The Safe Prisons/PREA Plan, page 13 and CMHCPM G-57.1, describe inmate’s access to emergency medical and mental health treatment. Specifically, they indicate that inmate victims of sexual abuse receive timely access to emergency contraception and sexually transmitted infection prophylaxis. When the inmate is transferred to the local hospital, medical and mental health care at the facility determine if these services were already provided at the hospital and if they were not, they are provided at the facility upon the inmates return. 39 sexual abuse allegations were reported during the audit period. A review of fifteen allegations indicated that ten involved penetration. A review of medical and mental health documentation indicated that eight had labs drawn related to sexually transmitted infections to determine if prophylaxis was necessary. One inmate indicated that the allegation he initially made was actually consensual sex and the other inmate’s allegation involved a staff digital penetration allegation and as such the labs were not applicable. Interviews with medical staff confirm that inmates receive timely information about access to emergency contraception and sexual transmitted infection prophylaxis. The six inmates who reported sexual abuse indicated that none of the inmates interviewed involved an allegation with penetration and as such this provision would not be applicable.
115.82 (d): The PAQ indicated that treatment and services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with the investigation. The Safe Prisons/PREA Plan, page 13, describes inmate’s access to emergency medical and mental health treatment. Specifically, it states that inmate victims of sexual abuse will receive treatment services without financial cost and regardless whether the victim names the alleged abuser or cooperates with any investigation.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, SPPOM 05.01, Correctional Managed Health Care Policy Manual G-57.1, medical and mental health documentation and information from interviews with medical and mental health care staff, staff first responders and inmate who reported sexual abuse, this standard appears to be compliant.

Standard 115.83: Ongoing medical and mental health care for sexual abuse victims and abusers

115.83 (a)  
Does the facility offer medical and mental health evaluation and, as appropriate, treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility? ☒ Yes ☐ No

115.83 (b)  
Does the evaluation and treatment of such victims include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody? ☒ Yes ☐ No

115.83 (c)  
Does the facility provide such victims with medical and mental health services consistent with the community level of care? ☒ Yes ☐ No

115.83 (d)  
Are inmate victims of sexually abusive vaginal penetration while incarcerated offered pregnancy tests? (N/A if “all-male” facility. Note: in “all-male” facilities, there may be inmates who identify as transgender men who may have female genitalia. Auditors should be sure to know whether such individuals may be in the population and whether this provision may apply in specific circumstances.) ☒ Yes ☐ No ☒ NA

115.83 (e)  
If pregnancy results from the conduct described in paragraph § 115.83(d), do such victims receive timely and comprehensive information about and timely access to all lawful pregnancy-related medical services? (N/A if “all-male” facility. Note: in “all-male” facilities, there may be inmates who identify as transgender men who may have female genitalia. Auditors should be sure to know whether such individuals may be in the population and whether this provision may apply in specific circumstances.) ☒ Yes ☐ No ☒ NA
115.83 (f)
- Are inmate victims of sexual abuse while incarcerated offered tests for sexually transmitted infections as medically appropriate? ☒ Yes ☐ No

Findings (By Provision):

115.83 (a): The PAQ indicated that the facility offers medical and mental health evaluation and treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup or juvenile facility. The
Safe Prisons/PREA Plan, page 14 and CMHCPM G-57.1 describe ongoing medical and mental health care for sexual abuse victims and abusers. Specifically, they state that the agency will offer medical and mental health evaluations and, as appropriate, treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup or juvenile facility. The I-214 form is utilized by staff to refer an inmate for medical and mental health services. The form contains two boxes for PREA, one for medical services and one for mental health services. A review of the fifteen of the 39 sexual abuse allegations indicated that all fifteen were offered medical and mental health services. Additionally, a review of six inmate files who disclosed prior victimization indicated all six were offered a mental health follow up. During the tour, the auditor noted that the medical area consisted of an emergency room as well as exam rooms. All rooms had full doors, were private and allowed for adequate confidentiality.

115.83 (b): The Safe Prisons/PREA Plan, page 14 and CMHCPM E-44.1 describe ongoing medical and mental health care for sexual abuse victims and abusers. Specifically, they state that evaluations and treatments of such victims will include; follow up services, treatment plans, and when necessary, referrals for continued care following transfer or release from custody. CMHCPM E-44.1 describes services for those inmates being released from the agency’s custody. A review of the fifteen of the 39 sexual abuse allegations indicated that all fifteen were offered medical and mental health services. Additionally, a review of six inmate files who disclosed prior victimization indicated all six were offered a mental health follow up. During the tour, the auditor noted that the medical area consisted of an emergency room as well as exam rooms. All rooms had full doors, were private and allowed for adequate confidentiality. Interviews with inmates who reported sexual abuse indicated that two of the six saw mental health for follow up services.

115.83 (c): The Safe Prisons/PREA Plan, page 14, describes ongoing medical and mental health care for sexual abuse victims and abusers. Specifically, it states that medical and mental health services will be consistent with the community level of care. All medical and mental health staff are required to have the appropriate credentials and licensures. The facility utilizes the local hospital for forensic medical examinations. A review of the fifteen of the 39 sexual abuse allegations indicated that all fifteen were offered medical and mental health services. Interviews with medical staff confirm that the services they provide are consistent with the community level of care.

115.83 (d): The Safe Prisons/PREA Plan, page 14, indicates female offenders who have been sexually victimized while incarcerated are offered pregnancy tests. However, this provision does not apply as the facility does not house female offenders.

115.83 (e): The Safe Prisons/PREA Plan, page 14, indicates female offenders who become pregnant due to sexual victimization while incarcerated will receive timely and comprehensive information and access to pregnancy related medical services. However, this provision does not apply as the facility does not house female offenders.

115.83 (f): The PAQ indicated that inmate victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. The Safe Prisons/PREA Plan, page 14 and CMHCPM G-57.1, describe ongoing medical and mental health care for sexual abuse victims and abusers. Specifically, they state that victims of sexual abuse while incarcerated will be offered tests for sexually transmitted infections as medically appropriate. CMHCPM G-57.1 indicates that all offender victims will be offered test and treatment for syphilis, gonorrhea, HIV and Hepatitis B. 39 sexual abuse allegations were reported during the audit period. A review of fifteen allegations indicated that ten involved penetration. A review of medical and mental health documentation indicated that eight had labs drawn related to HIV and sexually transmitted infections. One inmate indicated that the allegation he initially made was actually consensual sex and the other inmate’s allegation involved a staff digital penetration allegation and as such the test were not applicable. The six inmates who reported sexual
abuse indicated that none of the inmates interviewed involved an allegation with penetration and as such this provision would not be applicable.

115.83 (g): The PAQ indicated that treatment and services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with the investigation. The Safe Prisons/PREA Plan, page 13, describes inmate’s access to emergency medical and mental health treatment. Specifically, it states that inmate victims of sexual abuse will receive treatment services without financial cost and regardless whether the victim names the alleged abuser or cooperates with any investigation. Interviews with six inmates who reported sexual abuse indicated that the five who said they were seen by medical or mental health were not charged for their services.

115.83 (h): The PAQ stated that the facility attempts to conduct a mental health evaluation on all known inmate on inmate abusers within 60 days of learning of such abuse history. The Safe Prisons/PREA Plan, page 14, indicates that a mental health evaluation of all known offender-on-offender abusers shall be attempted within 60 days of learning of the abuse and treatment will be offered when deemed appropriate in accordance with policy. There have been 25 inmate on inmate sexual abuse allegations within the audit period, one which was substantiated. A review of mental health documents indicated that the inmate perpetrator was seen the day of the allegation as well as three days after the allegation.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, CMHCPM G-57, CMHCPM E-44.1, medical and mental health documentation and information from interviews medical staff, this standard appears to be compliant.

### DATA COLLECTION AND REVIEW

**Standard 115.86: Sexual abuse incident reviews**

115.86 (a)

- Does the facility conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded?  ✔ Yes ☐ No

115.86 (b)

- Does such review ordinarily occur within 30 days of the conclusion of the investigation?  ✔ Yes ☐ No

115.86 (c)

- Does the review team include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners?  ✔ Yes ☐ No

115.86 (d)

- Does the review team: Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse?  ✔ Yes ☐ No
- Does the review team: Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; gang affiliation; or other group dynamics at the facility? ☒ Yes ☐ No

- Does the review team: Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse? ☒ Yes ☐ No

- Does the review team: Assess the adequacy of staffing levels in that area during different shifts? ☒ Yes ☐ No

- Does the review team: Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff? ☒ Yes ☐ No

- Does the review team: Prepare a report of its findings, including but not necessarily limited to determinations made pursuant to §§ 115.86(d)(1) - (d)(5), and any recommendations for improvement and submit such report to the facility head and PREA compliance manager? ☒ Yes ☐ No

**115.86 (e)**

- Does the facility implement the recommendations for improvement, or document its reasons for not doing so? ☒ Yes ☐ No

**Auditor Overall Compliance Determination**

- ☒ Exceeds Standard *(Substantially exceeds requirement of standards)*

- ☐ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

- ☐ Does Not Meet Standard *(Requires Corrective Action)*

**Documents:**
1. Pre-Audit Questionnaire
2. Safe Prisons/PREA Plan
3. Administrative Directive AD-02.15
4. Administrative Incident Review Form
5. Incident Review via Safe Prisons/PREA Automated Network System (SPANS)

**Interviews:**
1. Interview with the Warden
2. Interview with the PREA Compliance Manager
3. Interview with Incident Review Team

**Findings (By Provision):**
115.86 (a): The Safe Prisons/PREA Plan, page 32, outlines information related to sexual abuse incident reviews. Specifically, it states that the facility will conduct sexual abuse incident reviews of every sexual abuse investigation, except for those allegations that are deemed to be unfounded. The PAQ indicated that the facility conducts sexual abuse incident reviews and that 25 were completed within the previous twelve months. A review of fifteen sexual abuse allegations indicated that twelve were substantiated or unsubstantiated and required a review. Of those, all twelve had a review completed via the facility administrative review. Additionally, the three allegations that were unfounded also had a review completed.

115.86 (b): AD-02.15, outlines information related to sexual abuse incident reviews. Specifically, it states that the facility will conduct an administrative incident review of all sexual abuse allegations. The review is required to be forwarded to the appropriate Regional Director within ten days after being reported. The PAQ indicated that the facility ordinarily conducts a sexual abuse incident review within 30 days and that 25 were completed within that time frame during the audit period. A review of fifteen sexual abuse allegations indicated that twelve were substantiated or unsubstantiated and required a review. Of those, all twelve had a review completed via the facility administrative review within 30 days. Additionally, the three allegations that were unfounded also had a review completed within 30 days.

115.86 (c): The PAQ indicated that the sexual abuse incident review team includes upper level management officials and allows for input from line supervisors, investigators, and medical and mental health staff. The Safe Prisons/PREA Plan, page 32, outlines information related to sexual abuse incident reviews. Specifically, it states that the review team will consist of upper management officials, with input from line supervisors, investigators and medical and mental health. A review of the completed administrative reviews confirmed that the review team included upper level managers, line supervisors, investigators and medical staff. The interview with the Warden confirmed that these reviews are being completed and they include the necessary staff.

115.86 (d): The PAQ stated that the facility prepares a report of its findings from sexual abuse incident reviews and submits the report to the facility head and CM. The Administrative Incident Review form and the Incident Review in SPANS outlines information required to be completed for each sexual abuse incident review. Specifically, it includes: consider whether the allegation or investigation indicates a need to change policy or practice; whether the incident or allegation was motivated by race, ethnicity, gender identity or sexual preference (identified or perceived), gang affiliation, or if it was motivated by other group dynamics; examine the area where the incident allegedly occurred to assess whether there were any physical barriers; assess the staffing levels; assess video monitoring technology and prepare a report of its findings to include any recommendations for improvement. The Warden or supervisor submits this report to the Regional Director within ten days and to the Agency Head Designee within 20 days. A review of the administrative reviews confirmed that at the end of the review a section includes the five requirements under this provision. Each review had this information and was approved by the Warden and sent to the Regional Director. Interviews with the Warden, CM and incident review team member confirmed that these reviews are being completed and they include all the required elements. The Warden stated that the reviews are utilized to assist with determining if there are any areas of concern. He stated it allows the facility to determine if video monitoring is sufficient, if there are any training needs, if policy need modified, if there are any physical plant issues and if the staffing levels are sufficient.

115.86 (e): The PAQ stated that the facility implements the recommendations for improvement or documents its reasons for not doing so. The Safe Prisons/PREA Plan, page 32, outlines information related to sexual abuse incident reviews. Specifically, it states that the agency will implement the recommendations for improvement or document the reasons for not doing so. A review of the Administrative Incident Review form and Incident Review via SPANS indicated that a section exists for recommendations and corrective action.
Based on a review of the PAQ, Safe Prisons/PREA Plan, AD-02.15, Administrative Incident Review Form or the Incident Reviews via SPANS and information from interviews with the Warden, the CM and a member of the sexual abuse incident review team, this standard appears to exceed the standard. A review of the documentation confirmed that all allegations, whether substantiated, unsubstantiated or unfounded had a completed sexual abuse incident review within 30 days. While the standard does not require a review to be completed for unfounded allegations, the facility goes above the standard and ensures one is completed.

## Standard 115.87: Data collection

### 115.87 (a)
- Does the agency collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions? ☒ Yes □ No

### 115.87 (b)
- Does the agency aggregate the incident-based sexual abuse data at least annually? ☒ Yes □ No

### 115.87 (c)
- Does the incident-based data include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice? ☒ Yes □ No

### 115.87 (d)
- Does the agency maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews? ☒ Yes □ No

### 115.87 (e)
- Does the agency also obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its inmates? (N/A if agency does not contract for the confinement of its inmates.) ☒ Yes □ No □ NA

### 115.87 (f)
- Does the agency, upon request, provide all such data from the previous calendar year to the Department of Justice no later than June 30? (N/A if DOJ has not requested agency data.) ☒ Yes □ No □ NA

4. Survey of Sexual Victimization (SSV)
5. PREA Program Annual Report

Findings (By Provision):

115.87 (a): The PAQ stated that the agency collects accurate, uniform data for every allegation of sexual abuse at facilities under its direct control utilizing a standard instrument that includes at minimum the data necessary to complete the SSV. The Safe Prisons/PREA Plan, page 36, outlines how PREA data is collected. Specifically, it states that the agency will collect accurate uniform data for every allegation of sexual abuse and sexual harassment. It also indicates that the data will include at minimum, data to answer questions on the Survey of Sexual Victimization. A review of collected data confirmed that the agency utilizes the definitions set forth in the PREA standards. Data is collected from information from the Emergency Action Center, the Office of the Inspector General and monthly PREA reports.

115.87 (b): The PAQ indicated that the agency aggregates the incident based sexual abuse data annually. The Safe Prisons/PREA Plan, page 36, outlines how PREA data is collected. A review of the SSVs as well as the PREA Program Annual Report confirmed that the agency aggregates sexual abuse data at least annually.

115.87 (c): The PAQ stated that the agency collects accurate, uniform data for every allegation of sexual abuse at facilities under its direct control utilizing a standard instrument that includes at minimum the data necessary to complete the SSV. The Safe Prisons/PREA Plan, page 36, outlines how PREA data is collected. Specifically, it states that the agency will collect accurate uniform data for every allegation of sexual abuse and sexual harassment. It also indicates that the data will include at minimum, data to answer questions on the Survey of Sexual Victimization. A review of collected data confirmed that the agency utilizes the definitions set forth in the PREA standards. Data is collected from information from the Emergency Action Center, the Office of the Inspector General and monthly PREA reports.

115.87 (d): The PAQ indicated that the agency maintain, reviews and collects data as needed from all available incident-based documents. The Safe Prisons/PREA Plan, page 36, outlines how PREA data is collected. Specifically, it states that the agency will maintain, review and collect data as needed from available incident-based documents. At the facility level data is collected through reports. Agency wide it is collected through data from information from the Emergency Action Center, the Office of the Inspector General and monthly PREA reports.

115.87 (e): The PAQ indicated that the agency obtains incident-based and aggregated data from every private facility with which it contracts for the confinement of its inmate. This data is included in the annual report but is not reported in the Survey of Sexual Victimization as outlined by the Department of Justice. A review of data indicated that the data is reported to the agency and that it is included in the agency’s annual aggregated data.

115.87 (f): The PAQ indicated that the agency provides data from the previous calendar year to the Department of Justice no later than June 30th. A review of the Survey of Sexual Victimization indicated
that the last one was submitted in 2018 for 2017 data. This is the last published SSV form on the Bureau of Justice Statistics website.

Based on a review of the PAQ, Safe Prisons/PREA Plan, SPPOM 08.01, the PREA Program Annual Report, aggregated data and the Survey of Sexual Victimization this standard appears to be compliant.

**Standard 115.88: Data review for corrective action**

Documents:
1. Pre-Audit Questionnaire
2. Safe Prisons/PREA Plan
3. PREA Program Annual Report

Interviews:
1. Interview with the Agency Head Designee
2. Interview with the PREA Coordinator
3. Interview with the PREA Compliance Manager

Findings (By Provision):

115.88 (a): The PAQ indicated that the agency reviews data annually in order to assess and improve the effectiveness of its sexual abuse prevention, detection and response policies and training. The review includes: identifying problem areas, taking corrective action on an ongoing basis and preparing an annual report of its findings and any corrective action. A review of the current and historical PREA Program Annual Reports indicate that reports break down the collected data by types of cases, location of incidents, outcome of the investigations as well as compares the data from the current year with prior years. Additionally, it includes problem areas and corrective action. Interviews with the Agency Head Designee, PC and CM confirmed that the report is done annually. The Agency Head Designee indicated that the data is used to determine if changes in policy are needed, as well as to determine any necessary changes to staffing and video monitoring technology. The interview with the PC confirmed that the Warden and the Safe Prisons staff are responsible for generating statistics and that they are reviewed by the Executive Services division. This division then generates recommendations for policy, procedure and/or staffing changes. The interview with the CM confirmed that they use the data to determine if there are any issues that need modifications at the facility. She stated she also sends the information to Central Office to ensure that any other TDCJ facilities have the availability to make such modification at their facility, if applicable.

115.88 (b): The PAQ indicated that the agency’s annual report includes a comparison of the current year’s data and corrective actions with those from prior years and provides an assessment of the progress. A review of the current and historical PREA Program Annual Reports indicates that reports break down the collected data by types of cases, location of incidents, outcome of the investigations as well as compares the data from the current year with prior years. Additionally, it includes problem areas and corrective action.

115.88 (c): The PAQ indicated that the agency’s annual report is approved by the Agency Head Designee and made available to the public through its website. The interview with the Agency Head Designee confirmed that after it is approved it is distributed as required by Texas statute and agency policy. A review of the website: https://www.tdcj.texas.gov/publications/index.html confirmed that the current annual report as well as previous reports are available to the public online. The interview with the Agency Head Designee indicated that he approves the annual report and that it is available on the agency website.

115.88 (d): The PAQ stated that the agency redacts material from an annual report for publication. The redactions are limited to specific materials where publication would present a clear and specific threat to the safety and security of the facility. A review of the PREA Program Annual Report and the interview with the PC confirmed that the agency does not include any identifiable information or sensitive information on its annual report and as such does not require any information to be redacted.
Based on a review of the PAQ, the PREA Program Annual Report, the website and interviews with the Agency Head Designee, the PC and the CM, this standard appears to be compliant.

**Auditor Overall Compliance Determination**

- [ ] **Exceeds Standard** *(Substantially exceeds requirement of standards)*
- [x] **Meets Standard** *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*
- [ ] **Does Not Meet Standard** *(Requires Corrective Action)*

**Documents:**
1. Pre-Audit Questionnaire
2. PREA Program Annual Report
3. Records Retention Schedule

**Interviews:**
1. Interview with the PREA Coordinator

**Findings (By Provision):**
115.89 (a): The Safe Prisons/PREA Plan, page 37, describes the data storage, publication and destruction information related to sexual abuse and sexual harassment allegations. Specifically, it states that the agency will ensure all data is securely retained. The PAQ as well as the interview with the PREA Coordinator confirm that data is securely retained through the agency’s automated system. She indicated the data is reconciled on a quarterly basis.

115.89 (b): The PAQ stated that agency policy requires that aggregated sexual abuse data from facilities under its direct control and private facilities with which it contracts be made readily available to the public, at least annually, through its website. The Safe Prisons/PREA Plan, page 37, describes the data storage, publication and destruction information related to sexual abuse and sexual harassment allegations. Specifically, it states that the agency will make all aggregated sexual abuse data readily available to the public annually through its website. A review of the website: https://www.tdcj.texas.gov/publications/index.html confirmed that the current annual report, which includes aggregated data, is available to the public online.

115.89 (c): The PAQ indicated that before making aggregated sexual abuse data publicly available the agency removes all personal identifiers. The agency does not include any identifiable information or sensitive information on its annual report and as such does not require any information to be redacted. A review of the annual report confirmed that no personal identifiers were publicly available.

115.88 (d): The PAQ indicates that the agency maintains sexual abuse data that is collected for at least ten years after the date of initial collection. The records retention schedule confirmed the PREA Program Annual Report is retained ten years from the end of the calendar year it was submitted. A review of the agency’s website confirmed that data is available from 2009 to present.

Based on a review of the PAQ, the Safe Prisons/PREA Plan, the records retention schedule, the PREA Program Annual Reports, the website and information obtained from the interview with the PREA Coordinator, this standard appears to be compliant.

AUDITING AND CORRECTIVE ACTION

Standard 115.401: Frequency and scope of audits

115.401 (a)

- During the prior three-year audit period, did the agency ensure that each facility operated by the agency, or by a private organization on behalf of the agency, was audited at least once? (Note: The response here is purely informational. A "no" response does not impact overall compliance with this standard.) ☒ Yes ☐ No

115.401 (b)

- Is this the first year of the current audit cycle? (Note: a “no” response does not impact overall compliance with this standard.) ☐ Yes ☒ No

- If this is the second year of the current audit cycle, did the agency ensure that at least one-third of each facility type operated by the agency, or by a private organization on behalf of the

☐ **Does Not Meet Standard** *(Requires Corrective Action)*

**Findings (By Provision):**

**115.401 (a):** The facility is part of the Texas Department of Criminal Justice. All TDCJ facilities were audited in the previous three-year audit cycle.

**115.401 (b):** The facility is part of the Texas Department of Criminal Justice. The TDCJ has a schedule for all their facilities to be audited within the three-year cycle, with one third being audited in each cycle. The facility is being audited in the second year of the three-year cycle.
115.401 (h) – (m): The auditor had access to all areas of the facility; was permitted to receive and copy any relevant policies, procedure or documents; was permitted to conduct private interviews and was able to receive confidential information/correspondence from inmates.

**Standard 115.403: Audit contents and findings**

115.403 (f)

- The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports. The review period is for prior audits completed during the past three years PRECEDING THIS AUDIT. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or in the case of single facility agencies that there has never been a Final Audit Report issued.) ☒ Yes ☐ No ☐ NA
