- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

In making the above decision, this auditor reviewed policy II-C-16, PREA Plan, A.B.O.D.E. Treatment, Inc. conduct investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. Where sexual abuse is alleged, the investigator who has received special training in sexual abuse investigations conduct these investigations for the agency.

The investigators preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator. When the quality of evidence appears to support criminal prosecution, the local police department is notified, all evidence is turned over and they proceed with a criminal investigation.

The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and is not determined by the person's status as resident or staff. Neither the A.B.O.D.E. Treatment, Inc. nor TDCJ requires a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation. Administrative investigations include efforts to determine whether staff actions or failures to act contributed to the abuse; and are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Criminal investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appears to be criminal are referred to the local police department for prosecution.

A.B.O.D.E. Treatment, Inc. retain all written reports for as long as the alleged abuser is in the treatment program or employed by the agency, plus five years. The departure of the alleged abuser or victim from the employment or control of the agency does not provide a basis for terminating an investigation.

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor reviewed the PREA Plan and interviews with the agency investigator in making the above determination. - Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Decision was based on a review of policy III-B-01. Sexual misconduct with a resident is a violation of A.B.O.D.E. Treatment, Inc. employee conduct guidelines, Texas State Law, and for those employees who have licensures, a violation of the two year personal relations with a client will result in the termination of their licensure and employment. All terminations for violations of the agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. Treatment, Inc. and TDCJ Policy clearly states that any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with residents and shall be reported to applicable law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies.

A.B.O.D.E. Treatment, Inc. take appropriate remedial measures, and shall consider whether to prohibit further contact with residents, in the case of any other violation of sexual abuse or sexual harassment policies by a contractor or volunteer. Volunteers are prohibited from establishing or continuing in personal relationships with residents, including engaging in, or attempting to engage in, any form of consensual sexual misconduct with residents, including forcing or attempting to force residents to participate in nonconsensual sexual misconduct. It is a felony offense if anyone, including a volunteer, at an A.B.O.D.E. Treatment Center violates the rights of a person or engages in sexual misconduct with a resident. Standard 115.278 Disciplinary sanctions for residents

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The above decision was based on a review of A.B.O.D.E. Treatment, Inc. policy, PREA Plan, and interview with the A.B.O.D.E. Treatment, Inc. investigator.

Residents are subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse or following a criminal finding of guilt for resident-on-resident sexual abuse.

The sanctions are commensurate with the nature and circumstances of the abuse committed, the resident's disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. The disciplinary process considers whether a resident's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

A report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred does not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

A.B.O.D.E. Treatment, Inc. prohibit all sexual activity between residents and may discipline residents for such activity, to include reporting the incident as a parole violation to the resident's Parole Officer.

Standard 115.282 Access to emergency medical and mental health services

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The above decision was based on a review of A.B.O.D.E. Treatment, Inc. policies and audit interviews with staff. Resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by external medical and mental health practitioners per their professional judgment. Emergency Medical and mental health are provided by the local hospital and is manned 24 hours daily. Resident victims of sexual abuse are offered timely information and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

A.B.O.D.E. Treatment, Inc. provide such victims with external medical and mental health services consistent with the community level of care. Resident victims of sexual abuse while in the Treatment Center program are offered tests for sexually transmitted infections as medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Standard 115.286 Sexual abuse incident reviews

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor reviewed the PREA Plan and PREA Ombudsman Annual Report SOP, and the interview with the PREA Manager and Facility Director in making the above determination of compliance. Each calendar year, the PREA ombudsman, in coordination with the TDCJ and the agency investigator, submits a written report regarding the activities of the PREA ombudsman during the preceding year. The report includes public information regarding statistical information regarding the total number of allegations of sexual assault investigated by the agency, the outcome of the investigations, and any disciplinary sanctions imposed as a result of the investigations.

In accordance with PREA National Standard §115.88, the report includes: areas identified by facilities as needing corrective action; a summary of the corrective action taken for each facility where corrective action needed has been identified; a comparison of the current years' data and corrective actions with those from prior years, and an assessment of the agency's progress in addressing sexual abuse.

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

TDCJ makes all aggregated sexual abuse data, from facilities under its direct control and private facilities with which it contracts, readily available to the public at least annually. All reports are securely retained and maintained for at least 10 years after the date of the initial collection unless Federal, State, or local law requires.
