**Physical Plant**

| Number of buildings: | 29 |

Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.

| Number of inmate housing units: | 20 |

Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) re-certification audit for the Eastham Unit, Texas Department of Criminal Justice (TDCJ) in Lovelady, Texas was conducted on July 10-12, 2019, to determine the continued compliance of the Prison Rape Elimination Act Standards. The audit was conducted by Noelda Martinez, United States Department of Justice Prison Rape Elimination Act Certified Auditor. The auditor conducted the audit through a third-party entity as a contractor and is personally accountable for complying with the DOJ certification requirements and audit findings. The agency contract was secured through a third-party entity, PREA Auditors of America and not directly by the auditor herself. The contract described the specific work required according to the DOJ standards and PREA audit handbook to include the pre-audit, onsite audit and post-audit. The third-party contract was signed by the auditor on September 3, 2018. The third-party contract assigns the auditors after the contract was executed and clearly identifies the lead auditors responsibilities. The first PREA Audit was conducted by PREA auditor Maggie Chapel on July 13-15, 2016. The previous summary of audit findings included 41 met, and 2 not applicable.

The facility was provided with the pre-audit questionnaire and process map six to eight weeks prior. The agency was prepared prior to receiving the audit information by mailing the USB-drive by FedEx to the auditor. The agency included an email with a tracking number and instructions on retrieving the confidential information and return of the USB-drive after the 15-month retention period. The auditor received the USB-drive within 2-3 days which included the pre-audit questionnaire, supporting documentation and master folder. The PAQ and additional audit information was expedited in a timely manner allowing follow-up questions & additional documentation as needed.

Auditor Notice:
The facility posted the notice of audit with the auditor information six to eight weeks prior to the audit in both English and Spanish for inmates to send confidential information or correspondence to the auditor. The notices were posted throughout the facility to include visitation, housing units, restrictive housing, to include signs placed in lower areas with large letters for inmates with disabilities. The auditor verified the audit notice on 7/10/19 during the onsite review and through random inmate interviews. The audit notice was posted on 5/19/19 and observed by the auditor in the front lobby, visitation, central sally port entrance, education, food service, laundry, and housing units including the housing units, education, front office, & maintenance area.

Correspondence:
Inmates were allowed to write the auditor in a confidential manner marked as legal mail as needed. The auditor received a total of 1 inmate correspondence letter. The auditor interviewed the inmate during the on-site portion of the audit in an office setting with privacy and individually addressed all issues and concerns.

The auditor did not encounter any difficulties while completing any portion of the audit. The facility provided the auditor with unfettered access to areas requested by the auditor to include chemical, electrical and janitor closets. There was no pressure during the audit or prohibited access by the facility administration during the tour, the facility administration was transparent with policies, procedures, inmate and staff interviews. The staff encountered by the auditor were eager to assist and provide any information requested by the auditor with no hesitation.
Good communication was established throughout the duration of the audit with the Senior Warden, Regional PREA Manager, and USPPM to include additional staff. The auditor did not receive any correspondence from any inmates assigned to the facility prior to the audit. During the random inmate interviews, the auditor asked the inmates if they were aware of the Audit Notice with the auditor's information, and the responses were “yes”. During the site review, the auditor randomly asked inmates if they could point out the auditors posted information to ensure it was made available. The information was posted for the inmate population.

**Audit Methodology (Pre-Onsite Audit Phase):**

The auditor utilized the paper audit instruments which included the pre-audit questionnaire, auditor compliance tool, instructions for PREA audit tour, interview protocols: agency head or designee, warden or designee, PREA compliance manager/contractor, specialized staff, random staff and inmates. The auditor also used the PREA auditor handbook for continued guidance, audit report template, process map and checklist of documents. The Senior Warden contacted the auditor several times prior to the audit to establish good means of communication. The auditor established a positive working relationship with the Senior Warden and key facility staff engaging in a productive working atmosphere.

The Senior Warden was exceptionally receptive and eager to engage in dialogue and discussions regarding the standards. It was explained to the Warden and his staff about the importance to have unfettered access to all areas of the facility, file review of personnel contractors, volunteers, and inmates to include a variety of sensitive and confidential documentation and information referencing standard 115.401 (PREA Auditor Handbook pg. 32 & 37). The auditor explained the 30-day interim report if corrective action was required and the 180-day corrective action timeframe, if needed. The auditor explained to the warden the 45-day timeframe for the submission of the final PREA report. The auditor also notified the warden and staff of her responsibilities and expectations as an auditor and the agencies right to report any violation of the auditors code of conduct to the PREA resource center. The warden and auditor discussed information regarding the 90-day appeal process.

**Litigation/Internet Search:**

The Warden was interviewed and stated that the facility was not under any litigation, DOJ involvement, and or federal consent decree. The auditor conducted an internet search regarding the Eastham Unit with the following website links and information.

**Point of Contact:**

A point of contact (POC) was established with the staff at the Eastham Unit prior to the audit and good communication was maintained. The auditor and warden discussed the location for interviews and decided that the staff and inmate interviews would be conducted in an office with privacy. During the audit planning and logistics phase, the auditor remained engaged with the Warden, unit PREA manager, and Regional PREA manager regarding the audit process, expectations, and coordinated the logistics of the onsite portion of the audit. The auditor provided the warden with the PREA audit memorandum which described in detail the audit process & initial meeting with key staff. The memorandum also discussed the transportation, daily schedule, workspace, adequate outlets, permissible technology (laptop, cell phone etc,) and other necessary audit materials and information required to conduct the audit. The auditor focused on multiple sources of information during the audit process applying audit planning & logistics, posting notice of the audit, reviewing facility policies, procedures, supporting documentation and conducting outreach to advocacy organizations.
Outreach/Community Based Victim Services:
The auditor reached out to the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual) and spoke to a victim’s advocacy representative organization prior to the onsite audit to learn about the issues of sexual safety and related concerns. The representative did not disclose any issues regarding the facility. The auditor followed up on any issues or concerns voiced by inmates or staff in a confidential manner during the audit review process. The agency has made numerous attempts with local rape crisis centers to obtain a Memorandum of Understanding (MOU). The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the inmates as required. During the site review, the auditor observed the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project in the inmate housing units.

The auditor observed the PREA signs and rape crisis center information in the following housing units: Front lobby, Administrative offices, contact visitation, Chapel, 6 dorm, 8 dorm, R housing, Infirmary, B line, D housing, F line, H line, South gym, J line, L housing, N housing, South office complex, South shower, North shower, Chow hall, South comissary, Administrative segregation, Garment factory, Maintenance, Culinary arts, Laundry, Food Service, law library, boiler room, back gate and Trusty Camp. The inmates randomly interviewed expressed their knowledge of how to obtain and contact the Texas Association Against Sexual Assault (TAASA) rape crisis center information in the event it was needed. The inmates explained that the rape crisis information was posted in the inmate housing units for easy access and the TAASA pamphlet was located in the law library for inmate use as needed.

On-Site Audit Phase:
On the first day of the audit 7/10/19 an introductory meeting was held with the following staff in attendance: Senior Warden, Unit Safe Prisons PREA Manager; Regional Safe Prisons Manager and additional staff. The auditor conducted a site review on 7/10/19 and observed the operations at the facility and was given unimpeded access to areas requested by the auditor. The auditor spent three days on the unit to observe and assess the day-to-day practice of the staff’s interaction and promotion of the overall sexual safety. During the site review, the auditor interviewed food service, laundry and random correctional officers regarding the reporting and notification process. The auditor reviewed the following functions to include intake and risk screening, cross-gender announcements in housing units, cross-gender viewing in housing areas, grievance boxes are located in the hallways for general population, zero-tolerance posters, auditor notice of onsite visit, access to reporting entities, housing activity, restroom and shower procedures, staffing ratios, cameras and surveillance deployment, working telephones, and supervision practices.

Site Review/Locations:
The following information describes the areas observed by the auditor during the site review which included: Front lobby, Administrative offices, contact visitation, Chapel, 1 & 3 dorm, 6 dorm, 8 dorm, R housing, Infirmary, B line, D housing, F line, H line, South gym, J line, L housing, N housing, 13 dorm, 11 dorm, South office complex, South shower, North shower, Chow hall, South comissary, Administrative segregation, Garment factory, Maintenance, Culinary arts, Laundry, Food Service, law library, boiler room, back gate, craft shop and Trusty Camp. The facility did not have any basements or tunnels. The administration building is composted of the following areas: front gate, front lobby, Warden’s office, warden’s secretary, Assistant Warden, inmate records, mailroom, chapel offices, visitation, human resources and central control. The front lobby had a bulletin board with the following signs displayed: PREA zero-tolerance signs in both English and Spanish to include the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit in both English and Spanish to include a photo of the Unit Safe Prisons PREA manager with contact information for the inmate population.
The inmate janitor closets were observed for limited staff and inmate access and lighting for clear visibility. The inmate strip searches are conducted in a designated strip search area behind a privacy screen, by a trained employee of the same gender.

The visitation area for contact and non-contact had a large bulletin board with the following signs displayed: third party reporting, photos and information of the PREA staff, PREA Ombudsman zero-tolerance signs in both English and Spanish to include the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit in both English and Spanish to include several other PREA signs. The visitation area had surveillance cameras with no direct visibility into the inmate urinal or strip search area. The strip search procedure for all inmates is conducted in the back area of visitation in a private setting with privacy screens conducted only by male correctional staff. There is no visibility for cross-gender viewing. Female correctional officers do not enter the back area if a strip search of a male inmate is in progress. The inmate interviews determined that they had plenty of privacy when the searches took place and only conducted by male correctional officers. The PREA zero-tolerance signs were posted throughout visitation to include the search area in both English and Spanish.

**Video Surveillance/Security Mirrors:**
The facility utilizes Security Operations to service the surveillance system at the Eastham Unit. The facility had 201 surveillance cameras located throughout the housing units in the facility with a 21-day recording video retention. The facility had a total of 44 security mirrors positioned in the following areas: north commissary (2), south store (2), north chapel (2), medical department (5), laundry department (2), trusty camp (7), food service (11), education (6), main building (3), LCT (2), maintenance (1), and unit supply (1) to eliminate hidden areas and blind spots identified by the facility. General population O, P, R, & S lines consist of 60 cells each and 120 beds each. Dorms 1 through 8 consist of 80 beds each and housings 9 through 14 consist of 36 beds each. A through H lines and M & N/Administrative segregation consist of 51 cells each and 51 beds each. I through L lines (general population) consist of 51 cells each and 102 beds each.

1 and 3 dorm have 80 beds each with a large bulletin board displaying the following signs: third party reporting, photos and information of the PREA staff, PREA Ombudsman zero-tolerance signs in both English and Spanish to include the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit in both English and Spanish to include several other PREA signs. The auditor entered the dorm/cell block and the officers announced, “female on the run”, and surveillance cameras were observed in the dorms. All housing unit entrances had the opposite gender announcement painted for all staff to view prior to entering.

The dayroom toilets were towards the back of the dorm with a large black permanent metal privacy wall preventing cross-gender viewing from any angle in the dorm. The inmate dayrooms had TV’s, phones (rape crisis center information) and access to grievances. The dayrooms are open areas with tables for inmate use. The auditor tested the phone lines and observed the PREA signs, third-party notice, Auditor Notice, Rape Crisis Information in both English and Spanish by the phones. The inmates housed in the dorm/cell blocks were supervised by correctional staff. There were no showers in the dorms. The housing areas displayed good lighting and clear visibility from the front to the back of the dorm. The auditor walked from the first floor all the way up to the third-floor housing area to observe the visibility of cross-gender viewing from the stairwell into the inmate restroom area.
The first and third floor did not have any visibility of cross-gender viewing because the windows were painted to prevent view and provide privacy. The auditor observed a slight possibility of cross-gender viewing on the second floor from the stairwell into the restroom area. The auditor suggested for the windows to be painted in the same way that the other housings were provided with privacy from cross-gender viewing. The facility administration immediately had the maintenance department paint the windows onsite. The auditor opened the inmate janitor closet and electrical closet for limited access and clear visibility. Inmate strip searches are conducted in a designated strip search areas behind privacy screens, by a trained employee of the same gender. 1 and 3 dorm mechanical room lighting fixtures needed some lightbulbs replaced and the maintenance department replaced them onsite.

6 dorm and 8 dorm have 80 beds each with a large bulletin board displaying the following signs: third party reporting, photos and information of the PREA staff, PREA Ombudsman zero-tolerance signs in both English and Spanish to include the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit in both English and Spanish to include several other PREA signs. The auditor entered the dorm/cell block and the officers announced, “female on the run”, and surveillance cameras were observed in the dorms. All housing unit entrances had the opposite gender announcement painted for all staff to view prior to entering. The dayroom toilets were towards the back of the dorm with a large black permanent metal privacy wall preventing cross-gender viewing from any angle in the dorm. The inmate dayrooms had TV’s, phones (rape crisis center information) and access to grievances. The dayrooms are open areas with tables for inmate use. The auditor tested the phone lines and observed the PREA signs, third-party notice, Auditor Notice, Rape Crisis Information in both English and Spanish by the phones. The inmates housed in the dorm/cell blocks were supervised by correctional staff. There were no showers in the dorms. The housing areas displayed good lighting and clear visibility from the front to the back of the dorm. The auditor opened the inmate janitor closet and electrical closet for limited access and clear visibility. Inmate strip searches are conducted in a designated strip search areas behind privacy screens, by a trained employee of the same gender.

Inmates were interviewed in an office, in a separate room on an individual basis with privacy and sufficient time. The inmates were interviewed using the Department of Justice protocol interview questions generally and specifically targeting their knowledge of reporting mechanisms available for inmates to report sexual abuse and sexual harassment. The inmates interviewed were well informed about the PREA reporting process, their rights to be free from sexual abuse, and how to report sexual abuse or sexual harassment. No inmates refused during the inmate interview process. An exit meeting was held on 7/10/19 to discuss the overall audit process with the Senior Warden. The auditor discussed the review of the pre-audit process to include the post notice of upcoming audit, communication with the community-based victim advocates, and auditor review of submitted agency facility questionnaire, policies and procedures. The facility was prepared with primary and secondary documentation with resources supporting each PREA standard. The on-site audit consisted of the site review, additional document review, to include staff and inmate interviews. The Post Audit included the auditor compliance tool, review of policies/procedures, review of documentation and data. The auditor noted that this audit was the recertification for the facility, staff, and inmates.
Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Eastham Unit is a maximum-security prison located at 2665 Prison Road One, Lovelady, Texas. Originally the land, a 12,789-acre plantation, was purchased in 1891 by the Eastham family. The property was leased soon afterward to the Texas State Prison System for farming, on a shared basis. The prison supplied the labor to plant, tend and harvest crops, and the landowner supplied the seed, machinery, tools and mules. The main crops at that time were cotton and sugar cane for which the prison system received 60% and 50% respectively. In 1915, after the death of Mrs. Delha Eastham, the state bought the land. In 1919 a maximum-security building, the first in the state, was constructed to house 300 inmates. The construction on the current facility was completed in 1958. Eastham Unit along with a trusty camp located on the prison grounds, houses up to 2,474 maximum, medium and minimum-security inmates. The facility ACA reaccreditation was conducted on July 11-13, 2016. The Eastham Unit is a Texas Department of Criminal Justice (TDCJ) prison that has the designed facility capacity to house 2,474 adult, male offenders. The custody levels of the general population offenders housed includes G1-G4, Administrative Segregation, Transient and OT. The facility also houses Administrative Segregation offender’s levels 1A, 2A, and 3A. The offender population was 2,308 on the first day of the audit.

The Eastham Unit displayed all forms of zero-tolerance posters, signs, and notices meeting the standard for the recertification period.
The facility labeled the designated strip search area by painting it on the door or permanent privacy barrier for identification of the area. The auditor observed a large bulletin boards displaying the PREA zero-tolerance signs in both English and Spanish to include the rape crisis center contact information with addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit along with lots of other PREA literature for the inmate population.

115.11 (b) The director of the Correctional Institutions Division is appointed as the PREA coordinator and through interviews determined they have a TDCJ Safe Prisons/PREA Plan to ensure every effort is made to maintain a safe and secure environment for staff and inmates, as well as oversee TDCJ endeavors to comply with PREA standards. The PREA coordinator interview determined that there was enough time to fulfill all the duties and responsibilities required. The following information describes the areas observed by the auditor during the site review which included: Front lobby, Administrative offices, contact visitation, Chapel, 1 & 3 dorm, 6 dorm, 8 dorm, R housing, Infirmary, B line, D housing, F line, H line, South gym, J line, L housing, N housing, 13 dorm, 11 dorm, South office complex, South shower, North shower, Chow hall, South commissary, Administrative segregation, Garment factory, Maintenance, Culinary arts, Laundry, Food Service, law library, boiler room, back gate, craft shop and Trusty Camp. The facility did not have any basements or tunnels. The administration building is composed of the following areas: front gate, front lobby, Warden’s office, warden’s secretary, Assistant Warden, inmate records, mailroom, chapel offices, visitation, human resources and central control. The front lobby had a bulletin board with the following signs displayed: PREA zero-tolerance signs in both English and Spanish to include the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit in both English and Spanish to include a photo of the Unit Safe Prisons PREA manager with contact information for the inmate population.

The facility has a detailed policy and organizational chart the auditor was provided during the pre-audit phase of the audit. The facility staff interviewed acknowledged and understood the zero-tolerance policy along with the specific Prison Rape Elimination Act policy. Twenty-six random staff presented their PREA cards as part of their uniform to the auditor during the site review. This determination is based in part on the agency level staff completing the Prison Rape Elimination Act auditor training. The auditor also commended the facility for implementing what is considered good practices in corrections and in accordance with the intent of the Prison Rape Elimination Act. The Eastham Unit displayed all forms of zero-tolerance posters, and signs meeting the standard for the recertification period.

115.13 (b) The staffing plans were reviewed to include the staffing plan review minutes by the auditor. The Eastham Unit staffing plan was reviewed prior to the onsite audit. The staffing plan provides adequate staffing levels, video monitoring to protect inmates against sexual abuse. Intermediate and Upper-level Supervisors are conducting unannounced rounds on all shifts daily to include night shift with no patterns identified. Video Surveillance/Security Mirrors: The facility utilizes Security Operations to service the surveillance system at the Eastham Unit. The facility had 201 surveillance cameras located throughout the housing units in the facility with a 21-day recording video retention. 115.13 (c) This determination is based on the staffing plan reviews, staffing rosters, interviews conducted with facility intermediate staff or higher-level staff who conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The auditor reviewed the documentation of unannounced rounds covering day and night shifts at different times.

115.13 (d) The supervisors interviewed during the audit articulated the process proceeding the responsibility of addressing issues on alerting staff regarding unannounced rounds. The staffing plan reviewed was comprehensive of the number and placement of staff and amount of video technology (where applicable) that is necessary to ensure the sexual safety of the inmate population to include the facility layout and characteristics, classifications of inmates, and unique security needs and programming.

The staffing plan was reviewed for the normal and expected operational conditions that can affect staffing shortages include:

**Site Review Observations:**

The following information describes the areas observed by the auditor during the site review which included: Front lobby, Administrative offices, contact visitation, Chapel, 1 & 3 dorm, 6 dorm, 8 dorm, R housing, Infirmary, B line, D housing, F line, H line, South gym, J line, L housing, N housing, 13 dorm,
11 dorm, South office complex, South shower, North shower, Chow hall, South commissary, Administrative segregation, Garment factory, Maintenance, Culinary arts, Laundry, Food Service, law library, boiler room, back gate, craft shop and Trusty Camp. The facility did not have any basements or tunnels.

The administration building is composed of the following areas: front gate, front lobby, Warden’s office, warden’s secretary, Assistant Warden, inmate records, mailroom, chapel offices, visitation, human resources and central control. The front lobby had a bulletin board with the following signs displayed: PREA zero-tolerance signs in both English and Spanish to include the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit in both English and Spanish to include a photo of the Unit Safe Prisons PREA manager with contact information for the inmate population. The inmate janitor closets were observed for limited staff and inmate access and lighting for clear visibility. The inmate strip searches are conducted in a designated strip search area behind a privacy screen, by a trained employee of the same gender. The facility did an excellent job at strategically positioning the privacy screens, mobile permanent barriers, metal fabricated screens in a neat and clean format with a clean appearance and plenty of privacy for the inmate population and for the prevention of cross-gender viewing.

Findings:

115.15 (a) Safe Prisons-PREA Plan 2/19; Safe Prisons/PREA Operational Manual 02.05 Cross-Gender Searches and Log: The number of cross-gender strip or cross-gender visual body cavity searches of inmates: 3. The number of cross-gender strip or cross-gender visual body cavity searches of inmates that did not involve exigent circumstances or were performed by non-medical staff: 0. The auditor did not observe any cross-gender strip searches or visual body cavity searches on inmates during the site review. The auditor did not interview nonmedical staff involved in cross-gender strip or visual searches.

115.15 (b) The facility does not house female inmates.

115.15 (c) The facility does not house female inmates.

115.15 (d) The Safe Prisons/PREA Plan (dated 2/19) addresses the cross-gender viewing and searches. Correctional officers shall make the best efforts to allow inmates to shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine checks. Staff of the opposite gender shall announce their presence when entering an inmate housing area in accordance with applicable post orders. Under no circumstances shall an inmate search be conducted solely for the purpose of determining an inmate’s genital status. During the site review the auditor observed staff of the opposite gender conduct the “knock and announce,” by saying “female on the floor” when entering the inmate housing areas. The Regional PREA Managers provide training for each facility and the USPPM are required to disseminate the training on the facility. The shift supervisors conduct training on PREA related standards to include cross-gender Searches and viewing during shift briefing. The auditor reviewed LGBTI transgender for 2017, 2018 & 2019. The auditor interviewed 26 random staff who received the training for cross-gender searches and viewing. The auditor interviewed 25 random inmate and stated that they were able to shower, change and use the restroom with privacy from the opposite gender. The auditor observed staff make the verbal announce of female in housing during the site review from both male and female staff prior to female staff entering the inmate housing unit. The inmate interviews indicated staff of the opposite gender make an announcement prior to entering the housing unit for privacy reasons.
115.15 (e) The auditor conducted interviews with the transgender population during the interview process and discovered that they had the opportunity to shower, change and use the toilet with privacy.

115.15 (f) The CTSD training curriculum addresses the cross-gender viewing & searches. The auditor reviewed the documentation of exigent circumstances with none conducted for the audit cycle. The inmates interviewed clearly described their ability to shower, change clothes, and use the toilet without the opposite-gender staff viewing them.

**Corrective Action:** The auditor recommends no corrective action.

- PREA Manager
- Random Staff
- Intake Staff
- Medical staff

**Site Review Observations:**

The PREA information was displayed on a large bulletin board including: zero-tolerance signs in both English and Spanish, PREA ombudsman/third-party reporting (English/Spanish), Notice of PREA audit, victim support services, and a photo/description of the Safe Prisons/PREA manager and Safe Prisons officer for the inmate population. This allows inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The Eastham Unit takes appropriate steps to ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The agency takes reasonable steps to ensure meaningful access to all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient.

**Findings:**

115.16 (a) The Safe Prisons/PREA Plan (2/19) addresses inmates with disabilities shall have access to education in formats accessible to all inmates, including those who are limited English proficient, deaf, hard of hearing, blind, visually impaired, or otherwise disabled, as well as inmate who have limited reading skills. The agency shall provide qualified interpreters in informal governmental proceedings for inmates who use American Sign Language (ASL) as their primary means of communicating. Assistive Disability Services (ADS), describes UTMB program that is designed to coordinate and/or provide care for inmates with mobility, vision, hearing or speech impairments. Interpreter Services G-51.5; the ADS must be notified and
will provide an Advanced, Master, or equivalent ASL interpreter for inmates with a significant hearing loss necessitating written communication and/or the use of sign language as described in the policy. AD 04.25 provides language assistance services to inmates identified as monolingual Spanish speaking. The interviews with the agency head and inmates with disabilities or who are limited English proficient determined that inmates have adequate care needed for communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision.

115.16 (b) The Safe Prisons/PREA Plan (2/19) addresses inmates with disabilities shall have access to education in formats accessible to all inmates, including those who are limited English proficient, deaf, hard of hearing, blind, visually impaired, or otherwise disabled, as well as inmate who have limited reading skills. Inmates with disabilities or who are limited English proficient have equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

115.16 (c) The agency has a policy which prohibits use of inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate’s safety, the performance of first-response duties under §115.64, or the investigation of the inmate’s allegations. The facility documents the limited circumstances in individual cases where inmate interpreters, readers, or other types of inmate assistants are used. In the past 12 months, the number of instances where inmate interpreters, readers, or other types of inmate assistants have been used and it was not the case that an extended delay in obtaining another interpreter could compromise the resident's safety, the performance of first-response duties under §115.64, or the investigation of the resident’s allegations: 0.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making compliance determination:

**Documentation Reviewed: (Policies, directives, forms, files, records, etc.)**
- Safe Prisons PREA Plan 2/19;
- SPPOM-03.01 Inmate Assessment Screening with Attachment E & E1
- CMHC E-35.01 Mental Health Appraisal for Incoming Inmates;
- CMHC A-09.01 Privacy of Care;
- Disclosed Sexual Victimization;
- IPM-CL-69 Psychological Screening Interview;
- IPM 5.06 Intake Procedure Security Referrals

**Interviews:**
- Staff responsible for Risk Screening
- Random inmates
- PREA Compliance Manager

**Findings:**

115.41 (a) The number of inmates entering the facility within the past 12 months who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry to the facility: 1116. The number of inmates entering the facility within the past 12 months who were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake: 998.

115.41 (b) The auditor reviewed 45 inmate files for the following documentation: PREA Intake Screening within 72 hours of admission; Potential Victim or Potential Aggressor; LGBTI; Follow-up meeting with Medical/Mental Health offered; Reassessment within 30-days from arrival to the facility;
warranted reassessment (incident, referral, request, new info); & PREA Information/Comprehensive Training.

115.41 (c) SPPOM-03.01 Inmate Assessment Screening with Attachment E & E1.

115.41 (d) SPPOM-03.01 Inmate Assessment Screening with Attachment E & E1. The agency does not detain inmates solely for civil immigration purposes.

115.41 (e) The interview with the staff responsible for risk screening determined that the initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive. The agency does not detain inmates solely for civil immigration purposes.

115.41 (f) SPPOM-03.01 Inmate Assessment Screening with Attachment E & E1. The policy requires that the facility reassess each inmate’s risk of victimization or abusiveness within a set time period, not to exceed 30 days after the inmate’s arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening. The number of inmates entering the facility (either through intake or transfer) who were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake: 998.

115.41 (g) The number of inmates entering the facility (either through intake or transfer) who were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake: 998.

115.41 (h) The facility prohibits the use of disciplinary sanctions for inmates refusing to answer or disclose complete questions. The interview with staff responsible for risk screening stated that inmates would not be disciplined if they refused to answer the questions.

115.41 (i) The PREA Coordinator, PREA Manager and Staff Responsible for Risk Screening stated during the interview that only authorized staff were allowed to view the assessments.

Corrective Action: The auditor recommended the following corrective action. Finding:§115.41 Use of Screening Information: (f) Within a set time period, not to exceed 30 days from the inmate’s arrival at the facility, the facility will reassess the inmate’s risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening. (g) An inmate’s risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness. Forty-five inmate files were reviewed and determined that two of the forty-five PREA risk assessments required the reassessment and or required the reassessment to be completed within the timeframe of the 30-day and not to exceed the standard requirement. The facility conducted a review of the risk screening due to a change in newly assigned staff to the department. The facility took proactive measures to thoroughly review the files to ensure the required PREA standards and assessments were conducted. The Warden along with the Safe Prisons Management office identified the issue and the training was completed by the PREA Ombudsman staff. The documentation for the staff trained and risk screenings were provided to the auditor onsite as the corrective action plan. The discrepancies were discussed with the Warden and Safe Prisons staff and worked together towards achieving compliance. The auditor recommended for the Major or Warden to monitor the PREA risk screening for 30-days. The Warden monitored the PREA risk screenings for the 30-day duration and no further action was required.

The following areas were observed by the auditor for privacy of showers in housing units and privacy for all restroom areas: food service, education, medical and boiler room, visitation area, maintenance, commissary, educational, inmate housing (dormitory and cell block), recreation yard, gymnasium, and laundry.

Findings:

115.42 (a) The Safe Prisons/PREA Plan (2/19) addresses the standard in the policy. Inmates identified as transgender or intersex shall be given the opportunity to shower separately from the inmates in accordance with Correctional Managed Health Care (CMHC) policies. LGBTI inmates shall not be placed in dedicated facilities, units, or wings solely on the basis of this identification or status, unless the placement is in a dedicated wing established in connection with a consent decree, legal settlement, or legal judgement for the purpose of protecting these inmates.

115.42 (b) All inmates shall be assessed during intake and if transferred to another unit for permanent assignment, to determine the risk of being sexually abused by or sexually abusive toward other inmates. Intake screening shall take place within 24 hours of arrival at the unit in accordance with the SPPOM. Assignments shall be made through collaborative efforts of intake staff, the USPPM, and medical and mental health services by using objective screening instruments.

115.42 (c) The intake screening shall include at a minimum the following criteria to assess inmates for risk of sexual victimization: any mental, physical, or developmental disability; the age of the inmate; the physical build of the inmate; previous incarceration; whether the criminal history is exclusively
nonviolent; prior convictions for sex offenses against an adult or child; perception of the inmate as gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; previous sexual victimization; and the inmates own perception of vulnerability. Within a period of time not to exceed 30-days from the inmates arrival at an intake facility, the inmate shall be reassessed for risk of victimization or abusiveness following receipt of any additional or relevant information by the TDCJ since the initial intake screening. An inmates risk level shall be reassessed following a referral, request, incident of sexual abuse, or receipt of additional information that may affect the inmates risk of sexual victimization or abusiveness. The facility has identified those at heightened risk of being sexually victimized and those at heightened risk of being sexually abusive so that it can make housing and programming decisions with the goal being to use this information to prevent sexual abuse. A review of the documentation of reassessment of programming assignments were reviewed.

115.42 (d) Placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year to review any threats to safety experienced by the inmate. The PREA Compliance Manager and Staff Responsible for Risk Screening to determine compliance. Interviews with the PREA Compliance Manager, Staff Responsible for Risk Screening and Transgender and Intersex Inmates verified compliance with the standard.

115.42 (e) Interviews with transgender and intersex inmates determined inmate’s own views with respect to his or her own safety shall be given serious consideration.

115.42 (f) Transgender and intersex inmates are given the opportunity to shower separately from other inmates. Interviews with transgender and intersex inmates verified compliance with the standard.

115.42 (g) The facility did not place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such inmates. The PREA Coordinator, PREA Compliance Manager and Transgender/Intersex/Gay/Lesbian inmates interviews verified compliance.

Corrective Action: The auditor recommends no corrective action.

115.81 (a) The Safe Prisons/PREA Plan (2/19) addresses the standard in the policy. Inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgement in accordance with CMHC policies. Twenty investigative files were reviewed confirming access to medical and mental health services are provided according to the standard. Treatment services shall be provided to the inmate victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising from the incident. The auditor found one of fifteen investigations that did not meet the required medical/mental health referral/timeframes within 14 days according to the TDCJ policy and in a timely response.

115.82 (b) If no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, security staff first responders shall take preliminary steps to protect the victim pursuant to § 115.62 and shall immediately notify the appropriate medical and mental health practitioners. Security staff and non-security staff first responders were interviewed and described their first duty responder protocols.

115.82 (c) Inmate victims of sexual abuse while incarcerated are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Medical and mental health staff maintain secondary materials (e.g., form, log) documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning contraception and sexually transmitted infection prophylaxis.

115.82 (d) Treatment services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

**Corrective Action:** The auditor required no corrective action.
