AUDIT FINDINGS

NARRATIVE

An audit of the TDCJ Ferguson Unit was conducted on February 23rd – 25th, 2015 by Chris Sweney, DOJ Certified PREA Auditor. On Monday February 25th I was greeted by Warden Charles Vondra and his command staff and conducted an in-briefing to discuss the schedule for the onsite audit. Following the briefing, we toured the facility from 0815 hrs. – 1400 hrs. All areas of the facility where toured including intake, classification, medical, food service, warehouses, library, industries, special management, and offender housing. All housing areas were toured. Following the tours staff interviews were conducted including specialty interviews and several random staff from each shift. A total of twenty-two staff were interviewed. During the two days on site, twenty (20) inmates were interviewed including LGTBI offenders, randomly selected offenders and two offenders who had submitted letters prior to my arrival. Varying levels of knowledge was evident with regard to the PREA standards that apply to offender education and systems for reporting abuse. I was very impressed by how knowledgeable the correctional officers and other staff were about PREA, first response, evidence collection, etc. During the on site visit staff was very helpful and informative Sgt. Lorena Steinbecker and Officer Treshay Smith have done an excellent job ensuring that staff and offenders are informed and held to the PREA standards.
DESCRIPTION OF FACILITY CHARACTERISTICS
The Ferguson Unit of the TDCJ is located on a total of 4,355 acres at 12120 Savage Drive, Midway, Texas. The Ferguson Unit is a multiple custody level facility located 20 miles North of Huntsville, Texas in Madison County, Texas. There are 19.7 acres inside the secure perimeter. The facility was brought on line in June 1962 and has been in continuous operation since that time. The facility, as part of the TDCJ system, takes advantage of its proximity to other units in the system to support specialized medical and classification needs. In addition, the TDCJ system has centralized Emergency Response Teams and Drug Detection Teams that assist in special security issues. Most of the pre-service training and annual training is done through regional departmental resources. The facility also has a collaborative relationship with the University of Texas Medical Branch [UTMB], which provides managed health care, with the Windham School District, which provides a wide range of educational services, and with Lee College, which provides higher education and technical training.

The facility has a secure compound that is laid out in a “telephone pole” configuration with living units and services areas radiating off a central corridor. Housing for the large Administrative Segregation [Ad Seg] population is generally in double occupancy cells. The Ad Seg Program has a level system that allows inmates to work toward release to general population if there are no other overriding security concerns. The general population is housed in either double-occupancy cells or dormitory housing. The compound is secured by a double fence, enhanced with razor ribbon. A pedestrian sally-port at the front of the compound allows for controlled access for personnel, escorted inmates and visitors. A vehicle sally-port in the rear of the main compound allows for controlled access of vehicles bringing supplies to the compound, for Chain Bus access [inmate transfers], and inmate transport. There is also a construction gate at the northeast corner of the perimeter. Six towers or “pickets” are positioned around the perimeter fencing system. Two of the pickets control access to the compound. Armed vehicular units patrol the outside of the perimeter. A 321-bed Trusty Camp is located within a mile of the main unit consisting of three dormitories and an education/recreation building. There is no perimeter fence around the Trustee Camp. The purpose of the Trustee Camp is to provide support for the facility’s agriculture operations and outside building support services. Trusties work in the community at the local livestock arena, city and county facilities, and school district facilities. An impressive agriculture program includes edible and field crops, a bull management center, a swine operation and management of horses and dogs.

The Ferguson Unit offers programs and services to include food services, medical care, recreation, religious programs and services, inside, outside and community work programs, academic and vocational education, visitation, social and mental health services, library, laundry, mail and telephone access.

The stated mission of the Ferguson Unit is to accomplish the mission of the Agency [TDCJ], that is, to protect the public, to promote positive change in offender behavior, and to reintegrate offenders into society. In addition, it is the mission of the Ferguson Unit to decrease the number of incidents involving staff assaults, offender assaults, disturbances, use of chemical agents and use of force.
