AUDIT FINDINGS

NARRATIVE:

On August 25 – 27, 2014, an audit was conducted at the Glen Ray Goodman Unit – Jasper, Texas, to determine compliance with the Prison Rape Elimination Act standards finalized August 2012.

The Goodman Unit is located approximately 3 miles east of Highway 96 in Jasper, Texas. The unit sits on 494 acres and houses 612 offenders. The operations of the facility consist of a Maintenance Department, Field and Agriculture Operations, Food and Laundry Services and Community Service Operations.

A complete tour of the facility was conducted on August 25, 2014. The following areas and operations were visited and observed: Inmate living areas, medical operations, admission & discharge, education areas, food service, facility maintenance operations, records, and administrative areas.

Documents that were reviewed pre-audit, and during the audit include Policies, Institutional Supplements, Staff training Records, Personnel Files, Volunteer Training Records, Training Curriculums, and Sexual Abuse and/or Harassment complaints. Formal Interviews were scheduled through random selection of staff and inmates from schedules and rosters provided by the staff prior to the commencement of the audit. Interviews were conducted with the following: A telephone interview was conducted with a designee for the Agency Head, and the Agency PREA Compliance Coordinator, and on site interviews were conducted with the Warden, PREA Compliance Manager/Coordinator (Facility), four Medical Care Staff, one Volunteer, Human Resources Manager, Corrections Staff from all shifts and all areas of the facility, (three on the morning shift, three on the evening shift, and 2 on the night shift), Supervisors, Investigators from the facility as well as from the regional office, staff who conduct intake screenings of inmates, 18 randomly selected inmates from all of the living areas, two limited English speaking inmates, and two inmates who had reported having been sexually abused. There were no inmates at the facility who had declared that they were either Gay, Transgender, or Inter-sex, nor were there any handicapped inmates at the facility. Informally, additional inmates and staff were questioned about PREA during the tour of the facility.

The Goodman Unit does not have any Video Surveillance at the facility, except at the front gate area where individuals entering the facility, must stand in front of a camera and display their identification.

Although there was no video surveillance in other areas of the facility, the security presence was adequate to address any PREA concerns. It was determined through interviews with the investigation staff from the regional office, that the lack of video surveillance does affect their ability to bring sexual abuse incidents to the level of prosecution, due to the fact that the evidence presented is generally one individuals word against another individuals word, and that generally is not sufficient to take a case forward for prosecution.

DESCRIPTION OF FACILITY CHARACTERISTICS:

The Glen Ray Goodman Unit was named after Glen Ray Goodman, a former alcoholic and advocate for Substance Abuse Treatment. The Goodman Unit was initially designated as a Substance Abuse Treatment Facility. However, it was needed as a Transfer Facility, but the name remained the same.

The Goodman Unit is a minimum security, transfer facility. Inmates at Goodman Unit are housed at this facility for a maximum of two years, with an average length of stay of approximately 10 months. The facility is located approximately 3 miles east of highway 96 in Jasper, Texas. The unit sits on 494 acres and houses 612 offenders. The facility is surrounded by two fences, with enhancements of razor wire. In addition to the two fences, there are sections that have a three fence barrier due to areas within the secure compound being fenced in. There is high mast lighting around the perimeter of the facility. The fence does not have any electronic enhancements, but there are continuous patrols to detect any compromises of the perimeter fence. Visitors and staff when entering the facility are required to stand in front of a camera and display their identification before being allowed to enter the facility. Upon entering and leaving the secure perimeter of the facility, staff and visitors are required to show identification before being allowed to enter the secure area of the facility, and again on leaving the secure area of the facility. There are four buildings in the secure area of the facility which house all of the facility operations as well as all of the living areas. Security staff consists of 1 Major, 1 Captain, 5.1 Lieutenants, 14.2 Sergeants, and 95 Correctional Officers. Other staff include; 3 Administration, 27 Support, and 15 Program. The operations of the facility consist of a Maintenance Department, Field and Agriculture Operations, Food and Laundry Services, and Community Service Operations.

The Field Force plants approximately 10 acres of gardens to supplement the Food Service Department in supplies and cost avoidance. The Field Force also maintains all 494 acres. Agricultural Operations provide hay for livestock for the unit as well as multiple other units. The field force has several inmate workers who are supervised by Correctional Staff on horseback.

The Community Service Squads provide grounds upkeep for the Martin Dies State Park and the City of Jasper, to include the County Court House, Historic Properties, Sandy Creek Park, City of Jasper Police Department, and the City Hall.

The facility has programs in Education, which is managed by Windham School District. The facility also hosts volunteer programs, which are managed through the unit's Chaplaincy Department.

The facility also has a Medical Department, which is managed by the University of Texas Medical Branch. It has medical capabilities of basic medical, dental, and psychiatric services, which include pharmacy, laboratory, chronic disease, preventive medicine service, emergency care, and referrals to other facilities as appropriate. The Health Clinic offers skilled nursing care and is available to offenders 8 hours daily. Emergency care is available 24 hours a day.

SUMMARY OF AUDIT FINDINGS:

Number of standards exceeded: 0

Number of standards met: 42

Number of standards not met: 0

Non-applicable: 1
