Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) re-certification audit for the L.V. Hightower Unit, Texas Department of Criminal Justice (TDCJ) in Dayton, Texas was conducted on May 8-10, 2019, to determine the continued compliance of the Prison Rape Elimination Act Standards. The audit was conducted by Noelda Martinez, United States Department of Justice Prison Rape Elimination Act Certified Auditor. The auditor conducted the audit through a third-party entity as a contractor and is personally accountable for complying with the DOJ certification requirements and audit findings.

The first PREA Audit was conducted by PREA auditor Maggie Capel on May 4-6, 2016. The previous auditor conducted the audit at the facility with met 41 standards, and two not applicable. The agency contract was secured through a third-party entity, PREA Auditors of America and not directly by the auditor herself. The contract described the specific work required according to the DOJ standards and PREA audit handbook to include the pre-audit, onsite audit and post-audit. The third-party contract was signed by the auditor on September 3, 2018. The third-party contract assigns the auditors after the contract was contractor executed and clearly identifies the lead auditors responsibilities.

The facility was provided with the pre-audit questionnaire and process map six to eight weeks prior. The agency was prepared prior to receiving the audit information by mailing the USB-drive by FedEx to the auditor on 3/13/19. The agency included an email with a tracking number and instructions on retrieving the confidential information and return of the USB-drive after the 15-month retention period. The auditor received the USB-drive within 2-3 days which included the pre-audit questionnaire, supporting documentation and master folder. The PAQ and additional audit information was expedited in a timely manner allowing follow-up questions & additional documentation as needed. The facility posted the notice of audit with the auditor information six to eight weeks prior to the audit in both English and Spanish for inmates to send confidential information or correspondence to the auditor. Inmates are allowed to write the auditor in a confidential manner marked as legal mail. The notices were posted throughout the facility to include visitation, housing units, restrictive housing, to include lower signs for inmates with disabilities. The auditor verified the audit notice on 5/8/19 during the onsite site review and through random inmate interviews. The audit notice was posted on 3/27/19 and observed by the auditor in the front lobby, visitation, central sally port entrance, education, food service, laundry, and housing units including the housing units, education, front office, & maintenance area.

The auditor did not encounter any difficulties while completing any portion of the audit. The facility provided the auditor with unfettered access to areas requested by the auditor to include chemical, electrical and janitor closets. There was no pressure during the audit or prohibited access by the facility administration during the tour, the facility administration was transparent with policies, procedures, inmate and staff interviews. The staff encountered by the auditor were eager to assist and provide any information requested by the auditor with no hesitation. Good communication was maintained throughout the duration of the audit with the Senior Warden, Regional PREA Manager, Major and USPPM to include multiple departments heads and additional staff. The auditor did not receive any correspondence from any inmates assigned to the HI facility prior to the audit. During

the random inmate interviews, the auditor asked the inmates if they were aware of the Audit Notice with the auditors information, and the responses were “yes”. During the site review, the auditor randomly asked inmates if they could point out the auditors posted information to ensure it was made available. The information was posted for the inmate population.

Audit Methodology (Pre-Onsite Audit Phase):

The auditor utilized the paper audit instruments which included the pre-audit questionnaire, auditor compliance tool, instructions for PREA audit tour, interview protocols: agency head or designee, warden or designee, PREA compliance manager/contractor, specialized staff, random staff and inmates. The auditor also used the PREA auditor handbook for continued guidance, audit report template, process map and checklist of documents. The Senior Warden contacted the auditor prior to the audit to offer any assistance needed by the facility. The auditor established a positive working relationship with the Senior Warden and key facility staff engaging in a productive working atmosphere. The Senior Warden was exceptionally receptive and eager to engage in dialogue and discussions regarding the standards. It was explained to the Warden and her staff about the importance to have unfettered access to all areas of the facility, file review of personnel contractors, volunteers, and inmates to include a variety of sensitive and confidential documentation and information referencing standard 115.401 (*PREA Auditor Handbook pg. 32 & 37*). The warden understood the importance of the audit process and review and with no hesitation provided access to the auditor. The auditor explained the 30-day interim report if corrective action was required and the 180-day corrective action timeframe, if needed. The auditor explained to the warden the 45-day time frame for the submission of the final PREA report. The auditor also notified the Warden and staff of her responsibilities and expectations as an auditor and the agencies right to report any violation of the auditors code of conduct to the PREA Resource Center. The warden and auditor discussed information regarding the 90-day appeal process. The Warden was interviewed and stated that the facility was not under any litigation, DOJ involvement, and or federal consent decree. The auditor conducted an Internet research regarding the Hightower facility with the following website links and information.

<https://www.chron.com/.../news/.../Roll-Call-remembrance-taken-at-Dayton-s-129070...>

Point of Contact:

A point of contact (*POC*) was established with the facility prior to the audit and constant communication was maintained. The auditor and warden discussed the location for interviews and decided that the staff and inmate interviews would be conducted in the Chapel with plenty of room and privacy. During the audit planning and logistics phase, the auditor remained engaged with the warden, unit PREA manager, and regional PREA manager regarding the audit process, expectations, and coordinated the logistics of the onsite portion of the audit. The auditor provided the Warden with the PREA audit memorandum (*PAM*) which described in detail the audit process & initial meeting with key staff. The memorandum also discussed the transportation, daily schedule, workspace, adequate outlets, permissible technology (laptop, cell phone) and other necessary audit materials and information required.

The auditor focused on multiple sources of information during the audit process applying audit planning & logistics, posting notice of the audit, reviewing facility policies, procedures, supporting documentation and conducting outreach to advocacy organizations.

Outreach/Community Based Victim Services:

The auditor reached out to the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual) and spoke to a victim’s advocacy representative organization prior to the onsite audit to learn about the issues of sexual safety and related concerns. The representative did not disclose any issues regarding the facility. The auditor followed up on any issues or concerns voiced by inmates or staff in a confidential manner during the audit review process. The agency has made numerous attempts with local rape crisis centers to obtain a Memorandum of Understanding (MOU).

The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the inmates as required. The inmates explained that the rape crisis information was posted in the inmate housing units for easy access and the TAASA pamphlet was located in the law library for inmate use as needed.

The pre-on-site audit preparation included a review of the Texas Department of Criminal Justice policies, procedures, training curriculums, pre-audit questionnaire and supporting PREA-related documentation provided by the agency to demonstrate compliance of the PREA Standards and re-certification process. 115.11 (c) The policy and procedures establish the responsibilities to implement a zero-tolerance policy for prohibiting, preventing, detecting, responding to and investigating the sexual abuse and sexual harassment of inmates. The facility has a detailed policy and organizational chart the auditor was provided during the pre-audit phase of the audit. The facility staff interviewed acknowledged and understood the zero-tolerance policy along with the specific Prison Rape Elimination Act policy. Random staff presented their PREA cards as part of their uniform to the auditor during the site review. This determination is based in part on the agency level staff completing the Prison Rape Elimination Act auditor training. The auditor also commended the facility for implementing what is considered good practices in corrections and in accordance with the intent of the Prison Rape Elimination Act. The Hightower Unit displayed all forms of zero-tolerance posters, signs, and notices meeting the standard for the recertification period. The facility labeled the designated strip search area by painting it on the door or permanent privacy barrier for identification of the area. The auditor observed a large bulletin boards displaying the PREA zero-tolerance signs in both English and Spanish to include the rape crisis center contact information with addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners' Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit along with lots of other PREA literature for the inmate population. The following areas were observed by the auditor during the site review which included the PREA signs; 4 building, 5 building, 3 building, 2 building, 1 building, Back gate, Industry, Maintenance, Line building, Sex Offender Treatment Program (SOTP), Restrictive Housing, Recreation yards, Commissary, Education/Vocation, Food Service, Laundry/Necessities, Law Library, Mailroom, Boiler room, Gymnasium, Gatehouse and Back gate. The auditor observed the following offices: Windham, SOTP, Classification, Medical, Commissary, Food Service, Law Library, Laundry, Chaplain & Volunteer Programs, Safe Prisons/STG, Maintenance, and Supply. The facility did not have any basements, Tunnels or Outside Warehouses.

Corrective Action: The auditor recommends no corrective action.

115.13 (d) Intermediate and Upper-level Supervisors are conducting unannounced rounds on all shifts daily to include night shift with no patterns identified.

This determination is based on the staffing plan reviews, staffing rosters, interviews conducted with facility intermediate staff or higher-level staff who conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The auditor reviewed the documentation of unannounced rounds covering day and night shifts at different times. 10. Safe Prisons/PREA Operational Manual 02.05 Cross-Gender Searches and Log

Interviews:

1. Random Staff
2. Random Inmates

Findings:

115.15 (a) The Safe Prisons/PREA Plan (dated 3/18) addresses the Cross-Gender Viewing and Searches. Correctional officers shall make the best efforts to allow inmates to shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine checks.

115.15 (b) The facility does not house female inmates.

115.15 (c) There have been no cross-gender strip searches and cross-gender visual body cavity searches in the past 12 months. Staff of the opposite gender shall announce their presence when entering an inmate housing area in accordance with applicable post orders. Under no circumstances shall an inmate search be conducted solely for the purpose of determining an inmate's genital status. During the site review the auditor observed staff of the opposite gender conduct the "knock and announce," by saying "female on the floor" when entering the inmate housing areas. The Regional PREA Managers provide training for each facility and the USPPM are required to disseminate the training on the facility. The shift supervisors conduct training on PREA related standards to include cross-gender Searches and viewing during shift briefing. The Hightower Unit did not house intersex inmates in the past 12 months.

115.15 (d) The facility has implemented policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Random staff interviewed described the policy and procedure prohibiting these type of searches. Transgender inmates were interviewed and stated that they have privacy and the opportunity to shower, change and use the toilet with privacy from cross-gender viewing.

115.15 (f) The CTSD training curriculum addresses the cross-gender viewing & searches. The auditor reviewed the documentation of exigent circumstances with none conducted for the audit cycle. All inmates interviewed clearly described their ability to shower, change clothes, and use the toilet without the opposite-gender staff viewing them. The inmate interviews indicated staff of the opposite gender make an announcement prior to entering the housing unit for privacy reasons. The Hightower Unit did not house intersex inmates in the past 12 months. The facility labeled the designated strip search area by painting it on the door or permanent privacy barrier for identification of the area. The auditor observed a large bulletin boards displaying the PREA zero-tolerance signs in both English and Spanish to include the rape crisis center contact information with addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners' Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project, Auditor Notice of Audit along with lots of other PREA literature for the inmate population. Inmate Interviews:

The auditor conducted inmate interviews on May 9-10, 2019 with no inmate refusals. The auditor selected a geographically diverse sample of random male inmates for the audit process to include housing units by selecting the first and tenth of every housing unit. There was a total of 44 inmates who were interviewed in the education building, in a room on an individual basis with privacy and sufficient time. The inmates were interviewed using the Department of Justice protocol interview questions generally and specifically targeting their knowledge of reporting mechanisms available for inmates to report sexual abuse and sexual harassment. The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the inmates as required. During the site review, the auditor observed the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners' Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project in the inmate housing units. Two inmates stated that they had observed the signs but didn't need the information. The inmates explained that the rape crisis information was posted in the inmate housing units for easy access and the TAASA pamphlet was located in the law library for inmate use as needed with over 100 addresses and representatives available. Findings:

115.83 (a-h) The Safe Prisons/PREA Plan (3/18) addresses the standard in the policy. Responding to an allegation of sexual abuse requires a coordinated effort between unit security staff, the Office of the Inspector General (OIG), medical and mental health services, and victim advocates (where available) or an Inmate Victim Representative (OVR). The following procedures provide a systematic notification and response process following a reported sexual abuse incident. A physical examination should be performed in all cases of sexual assault, regardless of the length of time which may have elapsed between the time of the assault and the examination. All inmates who present with complaints of sexual assault/abuse will be immediately evaluated, examined and appropriately referred for required services. A brief history may be obtained by nursing staff. The facility physician/mid-level practitioner and ranking security officer are to be notified. The facility does not house female inmates.

The auditor reviewed the facility operating policies and procedures along with secondary documentation submitted with the pre-audit questionnaire; observed facility practices; reviewed data and documentation provided by the facility staff; and interviewed inmates and staff during an on-site visit and tour of the facility. The SANE/SAFE nurse was interviewed on 5/8/19. The facility conducts all sexual abuse examinations offsite by certified SANE/SAFE nurses at a local hospital.

Corrective Action: auditor recommends no corrective action.
