Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

The Prison Rape Elimination Act (PREA) re-certification audit for the Hutchins State Jail, Texas Department of Criminal Justice (TDCJ) in Dallas, Texas was conducted on January 9-11, 2019, to determine the continued compliance of the Prison Rape Elimination Act Standards. The audit was conducted by Noelda Martinez, United States Department of Justice Prison Rape Elimination Act Certified Auditor. The auditor conducted the audit through a third-party entity as a contractor and is personally accountable for complying with the DOJ certification requirements and audit findings. The onsite audit at the Hutchins State Jail was performed on January 9, 10, & 11, 2019.

The first PREA Audit was conducted by PREA auditor Cathy Slack on January 6-8, 2016. The previous auditor concluded the Hutchins State Jail exceeded (4) standards, met (36) standards, and (3) not-applicable. The contract was secured through a third-party entity and not directly by the auditor herself. The contract described the specific work required according to the DOJ standards and PREA Audit Handbook to include the pre-audit, onsite audit and post-audit. The third-party contract was signed by the auditor on September 3, 2018. The third-party contract assigns the auditors after the contract is executed and clearly identifies the lead auditors responsibilities.

The facility was provided with the pre-audit questionnaire and process map on November 26, 2018. The agency was prepared prior to receiving the audit information and mailed the USB-drive by FedEx to the auditor on November 27, 2018. The agency included an email with a tracking number and instructions on retrieving the confidential information and return of the USB-drive after the 15-month retention period. The auditor received the USB-drive within 2-3 days which included the pre-audit questionnaire, supporting documentation and master folder. The PAQ and additional audit information was expedited in a timely manner allowing follow-up questions & additional documentation as needed. The facility posted the notice of audit with the auditor information on November 23, 2018 prior to the audit in both English and Spanish for offenders to send confidential information or correspondence to the auditor. Offenders are allowed to write the auditor in a confidential manner marked as legal mail. The notices were posted throughout the facility to include visitation, housing units, restrictive housing, to include lower signs for offenders with disabilities. The auditor verified the audit notice on January 9, 2019 during the onsite facility tour and through offender interviews. The audit notice was observed by the auditor in the front lobby, visitation, central sally port entrance, education, food service, laundry, and housing units including B (5-8), E housing (faith-based form), intake, segregation, A-dorm, and K-dorm.

The auditor did not encounter any barriers while completing any portion of the audit. The facility provided the auditor with unfettered access to areas requested by the auditor to include chemical, electrical and janitor closets. There was no pressure or prohibited access by the facility administration during the tour, the facility administration was transparent with policies, procedures, offender and staff interviews. Staff was eager to assist and provide any and all information requested by the auditor with no hesitation. Good communication was maintained throughout the duration of the audit with key staff including the Senior Warden, Regional PREA Manager, Major and USPPM.
Audit Methodology (Pre-Onsite Audit Phase)

The auditor utilized the Paper Audit Instruments which included the pre-audit questionnaire, auditor compliance tool, instructions for PREA audit tour, interview protocols: agency head or designee, warden or designee, PREA compliance manager/contractor, specialized staff, random staff and offenders. The auditor also used the PREA audit handbook for continued guidance, audit report template, process map and checklist of documents. The Senior Warden contacted the auditor in the early part of December 2018 to offer any assistance needed by the facility. The auditor established a positive working relationship with the Senior Warden and key facility staff engaging in a productive working atmosphere. The Senior Warden was exceptionally receptive and eager to engage in dialogue and discussions regarding the standards. It was explained to the Warden and his staff about the importance to have unfettered access to all areas of the facility, file review of personnel contractors, volunteers, and offenders to include a variety of sensitive and confidential documentation and information referencing standard 115.401 (PREA Auditor Handbook pg. 32 & 37). The Warden understood the importance of the audit process and review and with no hesitation provided access to the auditor. The auditor explained the 30-day interim report if Corrective Action: None required was required and the 180-day Corrective Action: None required timeframe if needed. The auditor explained to the Warden the 45-day time frame for the submission of the final PREA report. The auditor also notified the Warden and staff of her responsibilities and expectations as an auditor and the agencies right to report any violation of the auditors code of conduct to the PREA Resource Center. The Warden and auditor discussed information regarding the 90-day appeal process.

Point of Contact

A point of contact (POC) was established with the facility prior to the audit and constant communication was maintained. The auditor and Warden discussed and decided that the staff interviews would be conducted in the Warden’s office and inmate interviews would be conducted in the Majors office. During the audit planning and logistics phase, the auditor remained engaged with the Warden, Unit PREA Manager, and Regional PREA Manager regarding the audit process, expectations, and coordinated the logistics of the onsite portion of the audit. The auditor provided the Warden with the PREA Audit Memorandum (PAM) which described in detail the audit process & initial meeting with key staff. The memorandum also discussed the transportation, daily schedule, work space, adequate outlets, permissible technology (laptop, cell phone) and other necessary audit materials, and security procedures.

The auditor focused on multiple sources of information during the audit process applying audit planning & logistics, posting notice of the audit, reviewing facility policies, procedures, supporting documentation and conducting outreach to advocacy organizations.

Outreach/Community Based Victim Services:

The auditor reached out to the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual) and spoke to a victim’s advocacy representative organization prior to the onsite audit to learn about the issues of sexual safety and related concerns. The representative did not disclose any issues regarding the facility. The auditor followed up on any issues or concerns voiced by offenders or staff in a confidential manner during the audit review process. The agency has made numerous attempts with local rape crisis centers to obtain a Memorandum of Understanding (MOU). The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the offenders as required. During the facility tour, the auditor observed the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project in the offender housing units. The auditor observed the rape crisis center information in the following housing units: A dorm, B dorm, C dorm, D dorm, E dorm, & F dorm.
Thirty-eight offender interviews determined they were well aware of how to obtain and contact the Texas Association Against Sexual Assault (TAASA) rape crisis center information in the event it was needed. Two offenders stated that they had observed the signs but didn’t need information. The offenders explained that the rape crisis information was posted in the offender housing units for easy access and the TAASA pamphlet was located in the law library for offender use as needed with over 100 addresses and representatives available.

The pre-onsite audit preparation included a review of the Texas Department of Criminal Justice policies, procedures, training curriculums, pre-audit questionnaire and supporting PREA-related documentation provided by the agency to demonstrate compliance of the PREA Standards and re-certification process. The auditor received an extensive amount of primary and secondary documentation on a USB-thumb drive for review prior to the on-site phase of the audit process from the Administrative Review & Risk Management Office.

**On-Site Audit Phase**

On the first day of the audit (1/9/19), an introductory meeting was held with the following staff in attendance: Senior Warden, Unit Safe Prisons Program Manager; and the Regional Safe Prisons Manager. The auditor was provided the Wardens office for privacy and a large work space for file review and audit interviews. The requested files for staff and offenders were made available to the auditor upon request with no hesitation or delay. Following the introductory meeting, the auditor was escorted by the Senior Warden, USPPM, Regional PREA Manager, and additional staff for the facility tour. The auditor toured and observed the operations at the facility and was given unimpeded access to areas requested by the auditor. The auditor spent three days on the unit to observe and assess the day-to-day practice of the staff’s interaction and promotion of the overall sexual safety. During the tour, the auditor interviewed food service, laundry and correctional officers regarding the reporting and notification process and staff interviewed were able to articulate the process in a consistent manner. The auditor reviewed the following functions to include intake and risk screening, cross-gender announcements in housing units, cross-gender viewing in housing areas, grievance boxes are located in the main offender dining area, zero-tolerance posters, auditor notice of onsite visit, access to reporting entities, housing activity, restroom and shower procedures, staffing ratios, cameras and surveillance deployment, working telephones, and supervision practices.

The auditor was provided with photos of locations utilized as a promising practice throughout the unit with permission of the Senior Administration. The uniformed and non-uniform employees interviewed by the auditor were extremely knowledgeable of the PREA standards and cooperative during the onsite visit. The facility areas toured by the auditor were organized and clean. The auditor interviewed a few experienced and veteran staff that worked at the facility providing operational consistency and stability. The staff and offenders interviewed by the auditor were cooperative and helpful throughout the audit. The Regional Coordinator and USPPM did a good job of providing the auditor with primary and secondary documentation to confirm compliance with the Prison Rape Elimination Act standards. The auditor commended the facility security staff observed during the audit for their active and random roving details, multitasking ability, and team-oriented cohesiveness. The facility staff which were interviewed understood the purpose of the privacy screens in the offender housing units and cross-gender announcements.

The documentation provided to the auditor included TDCJ forms utilized by the agency, education materials, training curriculums, organizational charts, posters, brochures, reports, offender population reports, memorandums of agreement & or attempted MOU’s, signed training rosters, community-based contact information, facility layout, electronic surveillance information, and other PREA related materials that were provided to demonstrate compliance with the Prison Rape Elimination Act standards. The Security Operations Department provides technical assistance and operational support to correctional facilities in the area of staffing, video surveillance, video equipment/production, armory, research and technology. The Video Surveillance and Video Equipment/Production section assists in maintaining and repairing existing surveillance systems, as well as providing technical evaluation for augmentation and improvements.
The auditor observed 52 security mirrors and 141 surveillance cameras positioned throughout the facility and outer perimeter to monitor offender and staff movement.

On 1/9/19, the Hutchins State Jail offender population was 2,073 with a designed facility capacity of 2,276. The auditor contact information was posted throughout the unit. The facility staff interviewed by the auditor were professional and cooperative with the auditor during the audit process. A unit layout of the facility was provided by the PREA Coordinator consisting of all housing areas and camera locations.

The Hutchins State Jail has a total of 12 buildings, 1 single housing unit; 4 multiple occupancy cell housing units, 36 open bay/dorm housing units, and 29 segregation cells. The average length of stay or time under supervision ID is 6 months and 7 days; State Jail is 2 months and 12 days custody J1-J5, SR, G2, and Transient. The unit had a total of 402 staff currently employed who may have contact with offenders. Two of the investigations were Offender-on-Offender (no cases opened) and one was Staff-on-Offender (1 unfounded (no case opened). The auditor did request a few previous sexual abuse investigations from 2016 and 2017 for review for the recertification period. The USPPM provided the investigations to the auditor on the first day of the audit for review.

**Staff Interviews**
The auditor conducted offender and staff interviews on January 10 & 11, 2019 as part of standard 115.401 (k)(m) with privacy in an office setting. 2. Video footage/visibility of supervisors
3. Logbooks (unannounced round signatures)

Findings:
The TDCJ Safe Safe Prisons/PREA Plan (dated 3/18) addresses the standard: Supervision and Monitoring (§115.13) The supervision of offender will be conducted by supervisors at each unit shall conduct and document unannounced rounds to identify and deter sexual abuse and sexual harassment. Security staffing: each unit is required to develop, document, and comply with a staffing plan that provides adequate levels of staffing and,
where applicable, video monitoring, to protect offenders against sexual abuse and take into consideration all relevant factors. The staffing plans were reviewed to include the staffing plan review minutes by the auditor. The Hutchins State Jail staffing plan was reviewed prior to the onsite audit. The staffing plan shall conform to direction and allocations as directed by the Texas Department of Criminal Justice. In calculating adequate staffing levels and determining the need for video monitoring, the facility shall use the PREA staffing analysis in accordance with reference (p). The auditor interviewed the facility staff and verified that the staff develops, implements, and documents a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect offenders against sexual abuse or sexual harassment. The facility takes the following into consideration per the standard: 1) Generally accepted detention and correctional practices; 2) Any judicial findings of inadequacy; 3) Any findings of inadequacy from Federal investigative agencies; 4) Any findings of inadequacy from internal or external oversight bodies; 5) All components of the institution’s/facility’s/center’s physical plant (including “blind-spots” or areas where staff or offenders may be isolated); 6) The composition of the prisoner population; 7) The number and placement of supervisory staff; 8) Institution programs occurring on a particular shift; 9) Any applicable State or local laws, regulations, or standards; 10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; 11) Any other relevant factors. The two most common reasons for the facility deviations are maintenance and transport in the past 12 months to include written justification from the plan. The facility consults the PREA coordinator required by 115.11 for the assessment, determination whether adjustments are need to the staffing plan. The staffing plan is to protect offenders against sexual abuse and sexual harassment by limiting the possibility that offenders and staff will be left alone and unmonitored through adequate and ongoing supervision. The staffing plan provides adequate staffing levels, video monitoring to protect offenders against sexual abuse. Intermediate and Upper-level Supervisors are conducting unannounced rounds on all shifts daily to include night shift with no patterns identified. This determination is based on the staffing plan reviews, staffing rosters, interviews conducted with facility intermediate staff or higher-level staff who conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The auditor reviewed the documentation of unannounced rounds covering day and night shifts at different times. The supervisors interviewed during the audit articulated the process proceeding the responsibility of addressing issues on alerting staff regarding unannounced rounds. The staffing plan reviewed was comprehensive of the number and placement of staff and amount of video technology (where applicable) that is necessary to ensure the sexual safety of the offender population to include the facility layout and characteristics, classifications of offenders, and unique security needs and programming. The staffing plan was reviewed for the normal and expected operational conditions that can affect staffing shortages include transports, two permanent security positions at a vacant prison facility, constant/direct observation, major projects, and staff assisting other units all of which are not exigent circumstances but foreseeable operational issues. The facility is making their “best efforts to comply on a regular basis” with the staffing plan. The auditor concluded that the facility complies with the standard for the relevant recertification period.

During the facility tour, the auditor observed the toilet areas, showers, recreation toilets, & work restrooms with shower curtains, privacy screens or modesty barriers preventing cross-gender viewing from staff of the opposite gender.
The facility did a good job at providing privacy screen and privacy barriers throughout the facility. The Hutchins State Jail had all forms of zero-tolerance posters, signs, notices, and information posted throughout the facility. The auditor concluded the facility exceeds and complies with the standard for the relevant recertification period.

Findings:
The Safe Prisons/PREA Plan (dated 3/18) addresses the Cross-Gender Viewing and Searches. Correctional officers shall make the best efforts to allow offenders to shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine checks. Staff of the opposite gender shall announce their presence when entering an offender housing area in accordance with applicable post orders. Under no circumstances shall an offender search be conducted solely for the purpose of determining an offender’s genital status. During the facility tour the auditor observed staff of the opposite gender conduct the “knock and announce,” by saying “female on the floor” when entering the offender housing areas. The Regional PREA Managers provide training for each unit and each USPPM is required to disseminate the training on the facility. The shift supervisors conduct training on PREA related standards to include cross-gender Searches and viewing during shift briefing. The Hutchins State Jail does not house female offenders and did not house intersex offenders in the past 12 months.

The CTSD training curriculum addresses the cross-gender viewing & searches. The auditor reviewed the documentation of exigent circumstances with none conducted for the audit cycle. All offenders interviewed clearly described their ability to shower, change clothes, and use the toilet without the opposite-gender staff viewing them. The offender interviews indicated staff of the opposite gender make an announcement prior to entering the housing unit for privacy reasons.

Findings:

The Safe Safe Prisons/PREA Plan (3/18) addresses the standard in the policy. All offenders shall be assessed during intake and if transferred to another unit for permanent assignment, to determine the risk of being sexually abused by or sexually abusive toward other offenders. Intake screening shall take place within 24 hours of arrival at the unit in accordance with the SPPOM. Assignments shall be made through collaborative efforts of intake staff, the USPPM, and medical and mental health services by using objective screening instruments. The intake screening shall include at a minimum the following criteria to assess offenders for risk of sexual victimization: any mental, physical, or developmental disability; the age of the offender; the physical build of the offender; previous incarceration; whether the criminal history is exclusively nonviolent; prior convictions for sex offenses against an adult or child; perception of the offender as gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; previous sexual victimization; and the offenders own perception of vulnerability. Within a period of time not to exceed 30-days from the offenders arrival at an intake facility, the offender shall be reassessed for risk of victimization or abusiveness following receipt of any additional or relevant information by the TDCJ since the initial intake screening. An offenders risk level shall be reassessed following a referral, request, incident of sexual abuse, or receipt of additional information that may affect the offenders risk of sexual victimization or abusiveness. The facility has identified those at heightened risk of being sexually victimized and those at heightened risk of being sexually abusive so that it can make housing and programming decisions with the goal to use this information to prevent sexual abuse.

The auditor reviewed the facility operating policies and procedures along with secondary documentation submitted with the pre-audit questionnaire; observed facility practices; reviewed data and documentation provided by the facility staff; and interviewed offenders and staff during an on-site visit and tour of the facility. The number of offenders entering the facility within the past 12 months who were screened for risk of sexual victimization or risk of sexually abusing other offenders within 72 hours of their entry to the facility: 8022. The number of offenders entering the facility within the past 12 months who were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake: 3614. The auditor reviewed 25 offender files for the following documentation: PREA Intake Screening within 72 hours of admission; Potential Victim or Potential Aggressor; LGBTI;
Follow-up meeting with Medical/Mental Health offered; Reassessment within 30-days from arrival to the facility; warranted reassessment (incident, referral, request, new info); & PREA Information/Comprehensive Training.

Prior to the onsite visit, the agency PREA Manager identified the overall agency discrepancy. During a PREA Audit conducted by Barbara King at the James H. Byrd Jr. Unit on November 16-18, 2016; the reassessment issue was discovered, and the agency/facility achieved compliance by completing the reassessments for that standard on May 20, 2017. The agency took a proactive approach initiating training to ensure that the screening staff conduct effective, quality screenings of offenders to ensure the facility has adequate information upon which to make housing and programming decisions, and use of the revised Attachment E which included the reassessment section with an agency wide email distribution dated December of 2017. The facility regained compliance by conducting a refresher training to the USPPM. The facility provided the auditor with training confirming compliance with the standard for this recertification review period.

Intake screening shall take place within 24 hours of arrival at the unit in accordance with the SPPOM. Assignments shall be made through collaborative efforts of intake staff, the USPPM, and medical and mental health services by using objective screening instruments. The intake screening shall include at a minimum the following criteria to assess offenders for risk of sexual victimization: any mental, physical, or developmental disability; the age of the offender; the physical build of the offender; previous incarceration; whether the criminal history is exclusively nonviolent; prior convictions for sex offenses against an adult or child; perception of the offender as gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; previous sexual victimization; and the offenders own perception of vulnerability. Within a period of time not to exceed 30-days from the offenders arrival at an intake facility, the offender shall be reassessed for risk of victimization or abusiveness following receipt of any additional or relevant information by the TDCJ since the initial intake screening. An offenders risk level shall be reassessed following a referral, request, incident of sexual abuse, or receipt of additional information that may affect the offenders risk of sexual victimization or abusiveness. The facility has identified those at heightened risk of being sexually victimized and those at heightened risk of being sexually abusive so that it can make housing and programming decisions with the goal being to use this information to prevent sexual abuse.

The auditor reviewed (25) offender files for the following documentation: PREA Intake Screening within 72 hours of admission; Potential Victim or Potential Aggressor; LGBTI; Follow-up meeting with Medical/Mental Health offered; Reassessment within 30-days from arrival to the facility; Warranted reassessment (incident, referral, request, new info); & PREA Information/Comprehensive Training. Prior to the onsite visit, the agency PREA Manager identified the overall agency discrepancy. During a PREA Audit conducted by Barbara King at the James H. Byrd Jr. Unit on November 16-18, 2016; the reassessment issue was discovered, and the agency/facility achieved compliance by completing the reassessments for that standard on May 20, 2017. The agency took a proactive approach initiating training to ensure the screening staff conduct effective, quality screenings of offenders to ensure the facility has adequate information upon which to make housing and programming decisions, and use of the revised Attachment E which included the reassessment section with an agency wide email distribution dated December of 2017.

- Review the TDCJ’s policies and procedures to ensure they follow federal and state laws and standards; and
- Respond to public inquiries related to allegations of sexual abuse and sexual harassment in TDCJ correctional facilities and ensure impartial resolution.
HOW TO CONTACT THE PREA OMBUDSMAN (Please submit inquiries in writing) Anyone knowledgeable of an offender-on-offender or staff-on-offender sexual abuse or sexual harassment that occurs within a TDCJ correctional facility is encouraged to immediately report the allegation.

2. Offenders who reported a sexual abuse

Site Review Observations:

The facility had a total of (3) sexual abuse allegations in the past twelve months; (1) unsubstantiated (2) unfounded, (0) substantiated, & (0) ongoing investigation. Two of the investigations were Offender-on-Offender (no cases opened) and one was Staff-on-Offender (1) unfounded (no case opened). The auditor did request a few previous sexual abuse investigations from 2016 and 2017 for review for the recertification period.

The following procedures provide a systematic notification and response process following a reported sexual abuse incident. A physical examination should be performed in all cases of sexual assault, regardless of the length of time which may have elapsed between the time of the assault and the examination. All offenders who present with complaints of sexual assault/abuse will be immediately evaluated, examined and appropriately referred for required services. A brief history may be obtained by nursing staff. The facility physician/mid-level practitioner and ranking security officer are to be notified.

The auditor reviewed the facility operating policies and procedures along with secondary documentation submitted with the pre-audit questionnaire; observed facility practices; reviewed data and documentation provided by the facility staff; and interviewed offenders and staff during an on-site visit and tour of the facility.
