Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

The Prison Rape Elimination Act (PREA) re-certification audit for the Jester IV Unit, Texas Department of Criminal Justice (TDCJ) in Richmond, Texas was conducted on April 10-12, 2019, to determine the continued compliance of the Prison Rape Elimination Act Standards. The audit was conducted by Noelda Martinez, United States Department of Justice Prison Rape Elimination Act Certified Auditor. The agency contract was secured through a third-party entity, PREA Auditors of America and not directly by the auditor. The contract described the specific work required according to the DOJ standards and PREA audit handbook to include the pre-audit, onsite audit and post-audit. The third-party contract was signed by the auditor on September 3, 2018. The third-party contract assigns the auditors after the contract was executed and clearly identifies the lead auditors responsibilities. The first PREA audit was conducted by PREA auditor Amy Fairbanks on April 6-8, 2016. The previous auditor determined Jester IV exceeded three standards, and met 40 standards.

Communication:

The facility posted the notice of audit with the auditor information on 2/11/19 prior to the audit in both English and Spanish for inmates to send confidential information or correspondence to the auditor. The facility was prepared prior to receiving the audit information by mailing the USB-drive by FedEx to the auditor on 2/26/19 with most of the information included. The other required information was provided to the auditor prior to the audit. The auditor utilized the inmate and employee roster to make the selections for interviews, file reviews and investigations. The employees were selected by category using the specialized staff protocol and random interview protocol. The inmate population was selected by category using the targeted inmate protocol and random interview protocol. The random inmate interviews were selected by choosing the 1st and 10th name to include race, gender and housing location to ensure an equal distribution of the diverse population was interviewed.

The auditor did not encounter any difficulties while completing any portion of the audit. The facility provided the auditor with unfettered access to areas requested by the auditor to include chemical, electrical and janitor closets. There was no pressure during the audit or prohibited access by the facility administration during the site review, the facility administration was transparent with policies, procedures, inmate and staff interviews. The staff encountered by the auditor were eager to assist and provide any information requested by the auditor with no hesitation. Good communication was maintained throughout the duration of the audit with the Senior Warden, Regional PREA Manager, Major and USPPM to include multiple department heads and additional staff.

**Audit Methodology (Pre-Onsite Audit Phase):**

The auditor utilized the paper audit instruments which included the pre-audit questionnaire, auditor compliance tool, instructions for PREA audit site review, interview protocols: agency head or designee, warden or designee, PREA compliance manager/contractor, specialized staff, random staff and inmates. The auditor also used the PREA auditor handbook for continued guidance, audit report template, process map and checklist of documents. The auditor established a positive working relationship with the Senior Warden and key facility staff engaging in a productive working atmosphere. The Senior Warden was exceptionally receptive and eager to engage in dialogue and discussions regarding the standards. It was explained to the Warden and his staff about the importance to have unfettered access to all areas of the facility, file review of personnel contractors, volunteers, and inmates to include a variety of sensitive and confidential documentation and information referencing standard 115.401 (PREA Auditor Handbook pg. 32 & 37). The warden understood the importance of the audit process and review and with no hesitation provided access to the auditor. The auditor explained the 30-day interim report if corrective action was required and the 180-day corrective action timeframe, if needed. The auditor explained to the warden the 45-day time frame for the submission of the final PREA report. The auditor also notified the Warden and staff of her responsibilities and expectations as an auditor and the agencies right to report any violation of the auditors code of conduct to the PREA Resource Center.
**Point of Contact:**
A point of contact (POC) was established with the facility prior to the audit and constant communication was maintained. The auditor and warden discussed the location for interviews and decided that the interviews would be conducted in the Captain’s Office where an office was provided with plenty of room and privacy for the auditor to conduct staff/inmate interviews. During the audit planning and logistics phase, the auditor remained engaged with the warden, unit PREA manager, and regional PREA manager regarding the audit process, expectations, and coordinated the logistics of the onsite portion of the audit. The auditor provided the warden with the PREA audit memorandum which described in detail the audit process & initial meeting with key staff. The memorandum also discussed the transportation, daily schedule, work space, adequate outlets, permissible technology (laptop, cell phone) and other necessary audit materials and information required. The auditor focused on multiple sources of information during the audit process applying audit planning & logistics, posting notice of the audit, reviewing facility policies, procedures, supporting documentation and conducting outreach to advocacy organizations.

**Outreach/Community Based Victim Services:**
The auditor reached out to the Texas Association Against Sexual Assault (La Asociación de Texas Contra el Asalto Sexual) and spoke to a victim’s advocacy representative organization prior to the onsite audit to learn about the issues of sexual safety and related concerns. The representative did not disclose any issues regarding the facility. The auditor followed up on any issues or concerns voiced by inmates or staff in a confidential manner during the audit review process. The agency has made numerous attempts with local rape crisis centers to obtain a Memorandum of Understanding (MOU). The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the inmates as required. During the site review, the auditor observed the rape crisis center contact information displayed with addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project in the inmate housing units. The auditor observed the rape crisis center information in the following areas: Front office, Central Control, Visitation, Infirmary, Commissary, Offender Property/Intake, Laundry, Unit Supply, Training/Education, Medical Supply, Food Service, Occupational Therapy, Wellness room, Gym, Maintenance, Back-gate, Boiler room, electrical and janitor closets, to include A, B, D, and E pods. The auditor observed the operations at the facility and was given unimpeded access to areas requested by the auditor. During the site review, the auditor observed the following areas.

The inmates were interviewed using the Department of Justice protocol interview questions generally and specifically targeting their knowledge of reporting mechanisms available for inmates to report sexual abuse and sexual harassment. The inmates interviewed were well informed about the PREA reporting process, their rights to be free from sexual abuse, and how to report sexual abuse or sexual harassment. No inmates refused during the inmate interview process.

An exit meeting was held on 4/12/19 to discuss the overall audit process with the Senior Warden. The auditor discussed the review of the pre-audit process to include the post notice of upcoming audit, communication with the community-based victim advocates, and auditor review of submitted agency facility questionnaire, policies and procedures. The facility was prepared with primary and secondary documentation with resources supporting each PREA standard. The on-site audit consisted of the site review, additional document review, to include staff and inmate interviews. The Post Audit included the auditor compliance tool, review of policies/procedures, review of documentation and data. The auditor noted that this audit was the recertification for the facility, staff, and inmates.

Site Review Observations:
1. Shift Turnout rosters (signature/location of unannounced rounds)
2. Logbooks (unannounced round signatures)

Findings:
115.13 (a). The TDCJ Safe Prisons/PREA Plan (dated 3/18) addresses the standard: Supervision and Monitoring (§115.13) The supervision of inmate will be conducted by supervisors at each unit shall conduct and document unannounced rounds to identify and deter sexual abuse and sexual harassment. Security staffing: each unit is required to develop, document, and comply with a staffing plan that provides adequate levels of staffing and, where applicable, video monitoring, to protect inmates against sexual abuse and take into consideration all relevant factors. (b) The staffing plan was reviewed for the normal and expected operational conditions which can affect staffing shortages in the past 12 months: 1. Hospital Security, 2. Staffing Assist, 3. Transport, 4. One on One, 5. Commissary, and 6. Major projects (c): The staffing plans were reviewed to include the staffing plan review minutes by the auditor. The Jester IV staffing plan was reviewed prior to the onsite audit. The staffing plan provides adequate staffing levels, video monitoring to protect inmates against sexual abuse. (d): Intermediate and Upper-level Supervisors are conducting unannounced rounds on all shifts daily to include night shift with no patterns identified. This determination is based on the staffing plan reviews, staffing rosters, interviews conducted with facility intermediate staff or higher-level staff who conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The auditor reviewed the documentation of unannounced rounds covering day and night shifts at different times randomly over the past 12 months. The supervisors interviewed during the audit articulated the process proceeding the responsibility of addressing issues on alerting staff regarding unannounced rounds. The staffing plan reviewed was comprehensive of the number and placement of staff and amount of video technology (where applicable) that is necessary to ensure the sexual safety of the inmate population to include the facility layout and characteristics, classifications of inmates, and unique security needs and programming. The facility is making their “best efforts to comply on a regular basis” with the staffing plan. The auditor concluded that the facility complies with the standard for the relevant recertification period.

Corrective Action: The auditor recommends no corrective action.

Site Review Observations:
During the site review, the auditor observed the toilet areas, showers, recreation toilets, & work restrooms with shower curtains, privacy screens or modesty barriers preventing cross-gender viewing from staff of the opposite gender. The facility did a good job at providing privacy screens and privacy barriers throughout the facility. During the site review, the auditor observed the rape crisis center contact information displayed with addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project in the inmate housing units. The auditor observed privacy screens for the prevention of cross-gender viewing in the following areas: Front office, Central Control, Visitation, Infirmary, Commissary, Offender Property/Intake, Laundry, Unit Supply, Training/Education, Medical Supply, Food Service, Occupational Therapy, Wellness room, Gym, Maintenance, Back-gate, Boiler room, electrical and janitor closets, to include A, B, D, and E pods. The pods included A1, A2, A3, B1, B2, D1, D2, D3, E1, E2 and E3. All strip searches are conducted in a designated strip search area behind privacy screens, by a trained employee of the same gender.

Findings:
The Safe Prisons/PREA Plan (dated 3/18) addresses the Cross-Gender Viewing and Searches. Correctional officers shall make the best efforts to allow inmates to shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine checks. Staff of the opposite gender shall announce their presence when entering an inmate housing area in accordance with applicable post orders. Under no circumstances shall an inmate search be conducted solely for the purpose of determining an inmate’s genital status. During the site review the auditor observed staff of the opposite gender conduct the “knock and announce,” by saying “female on the floor” or “female on the run,” when entering the inmate housing areas. The Regional PREA Manager provides monthly training for each unit and each USPPM is required to disseminate the training on the facility. The shift supervisors conduct training on PREA related standards to include cross-gender searches and viewing during shift briefing. The facility had two female inmates for interviews and no youthful inmates assigned during the onsite portion of the audit. The facility did not have any intersex inmates at the time of the audit.

The CTSD training curriculum addresses the cross-gender viewing & searches. The auditor reviewed the documentation of exigent circumstances with none conducted for the audit cycle. All inmates interviewed clearly described their ability to shower, change clothes, and use the toilet without the opposite-gender staff viewing them. The inmate interviews indicated staff of the opposite gender make an announcement prior to entering the housing unit for privacy reasons. The auditor observed the cross-gender viewing and cross-gender announcement during the audit site review on 4/10/19.

Corrective Action: The auditor recommends no corrective action.

7. IPM 5.06 Intake Procedure Security Referrals

**Interviews:**

1. Staff responsible for Risk Screening
2. Random inmates
3. PREA Compliance Manager

**Findings:**

The number of inmates entering the facility within the past 12 months who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry to the facility: 3395.

The number of inmates entering the facility within the past 12 months who were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake: 878. The auditor reviewed 35 inmate files for the following documentation: PREA Intake Screening within 72 hours of admission; Potential Victim or Potential Aggressor; LGBTI; Follow-up meeting with Medical/Mental Health offered; Reassessment within 30-days from arrival to the facility; warranted reassessment (incident, referral, request, new info); & PREA Information/Comprehensive Training. Prior to the onsite visit, the agency PREA Manager identified the overall agency discrepancy. During a PREA Audit conducted by Barbara King at the James H. Byrd Jr. Unit on November 16-18, 2016; the reassessment issue was discovered, and the agency/facility achieved compliance by completing the reassessments for that standard on May 20, 2017. The agency took a proactive approach initiating training to ensure that the screening staff conduct effective, quality screenings of inmates to ensure the facility has adequate information upon which to make housing and programming decisions, and use of the revised Attachment E which included the
reassessment section with an agency wide email distribution dated December of 2017. TDCJ does not house inmates solely for civil immigration purposes. The facility regained compliance by conducting required training. The facility meets all elements of the standard.

Corrective Action: The auditor recommends no corrective action.

Site Review Observations:

During the site review, the auditor observed the toilet areas, showers, recreation toilets, & work restrooms with shower curtains, privacy screens or modesty barriers preventing cross-gender viewing from staff of the opposite gender. The facility did a good job at providing privacy screens and privacy barriers throughout the facility. The audit notice & zero tolerance signs were observed by the auditor in the front lobby, visitation, central sally port entrance, education, food service, laundry, back-gate, boiler room, janitor closets, inmate restrooms, work areas, trusty camp and housing units including A, B, D, and E pods; all pods have three levels, with the exception of B pod, which only has two levels. The pods include A1, A2, A3, B1, B2, D1, D2, D3, E1, E2 and E3. Every level has its own medical administration office between the pods for example, A1 and B1 share the same medical administration.

The auditor observed the pods on each level which were temperature controlled, wheelchair access, & handicap showers. E-1 (echo three pod) single cells/1-man cells with 50 beds to every pod with a combination of 1-man cells, 2-man cells and 4-man cells. 1 row houses 1-12 cells, 2 row houses 13-24 cells, 3 row houses 25-38 cells,
and 4 row houses 39-50 cells. The auditor observed all rows, staff of the opposite gender made a verbal announcements by saying, “female on the pod” or “male on the pod”. The opposite gender announcement is painted above the entry of each hallway for all staff visible prior to entering the pod. Random staff interviewed stated that all male staff are accompanied by a female staff member assigned to the female pod prior to entering the dorm as a courtesy. The few female inmates housed in crisis management are single celled with privacy on the small window. The window is covered with a removable window cover providing privacy from staff in general.

The auditor observed staff conducting the required 15-minute checks. The auditor observed the PREA signs of zero-tolerance, audit notice and victims advocate information posted at the entrance of the hallways for easy visibility. The pod has four dayrooms with a half-wall providing privacy in the toilet area from the cross-gender viewing. The dayrooms also have the PREA information painted in all the dayrooms for the inmate population. The electrical closets were opened and observed for restricted access and lighting. The seclusion room was observed for lighting, visibility, and the toilet area which had a privacy screen preventing cross-gender viewing. There are stairways with security mirrors for coverage of any possible blind spots. The pod has two separate shower locations with individual showers, a handicap shower, and a full door including a frost like material providing additional privacy from the opposite-gender. Each pod has a desk officer and 2 to 5 officers assigned. Each pod has a designated laundry room with officers who provide the clothing exchange. The auditor observed the grievance box and grievances available at the desk as needed.

**Findings:**

Provision (a)(b)(c)The Safe Prisons/PREA Plan (3/18) addresses the standard in the policy. Inmates identified as transgender or intersex shall be given the opportunity to shower separately from the inmates in accordance with Correctional Managed Health Care (CMHC) policies. LGBTI inmates shall not be placed in dedicated facilities, units, or wings solely on the basis of this identification or status, unless the placement is in a dedicated wing established in connection with a consent decree, legal settlement, or legal judgement for the purpose of protecting these inmates. All inmates shall be assessed during intake and if transferred to another unit for permanent assignment, to determine the risk of being sexually abused by or sexually abusive toward other inmates. Intake screening shall take place within 24 hours of arrival at the unit in accordance with the SPPOM. Assignments shall be made through collaborative efforts of intake staff, the USPPM, and medical and mental health services by using objective screening instruments. (d)(e)(f)(g): The intake screening shall include at a minimum the following criteria to assess inmates for risk of sexual victimization: any mental, physical, or developmental disability; the age of the inmate; the physical build of the inmate; previous incarceration; whether the criminal history is exclusively nonviolent; prior convictions for sex offenses against an adult or child; perception of the inmate as gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; previous sexual victimization; and the inmates own perception of vulnerability. Within a period of time not to exceed 30-days from the inmates arrival at an intake facility, the inmate shall be reassessed for risk of victimization or abusiveness following receipt of any additional or relevant information by the TDCJ since the initial intake screening. An inmates risk level shall be reassessed following a referral, request, incident of sexual abuse, or receipt of additional information that may affect the inmates risk of sexual victimization or abusiveness. The facility has identified those at heightened risk of being sexually victimized and those at heightened risk of being sexually abusive so that it can make housing and programming decisions with the goal being to use this information to prevent sexual abuse.

The auditor reviewed 35 inmate files for the following documentation: PREA Intake Screening within 72 hours of admission; Potential Victim or Potential Aggressor; LGBTI; Follow-up meeting with Medical/Mental Health offered; Reassessment within 30-days from arrival to the facility; Warranted reassessment (incident, referral, request, new info); & PREA Information/Comprehensive Training. Prior to the onsite visit, the agency PREA Manager identified the overall agency discrepancy. There were two identified transgender inmates and no intersex inmates during the onsite portion of the auditor for interviews.
Corrective Action: The auditor recommends no corrective action.

3. Safe Prisons PREA Plan;
4. CMHC E-44.1 Continuity of Care

Interviews:

1. Medical and Mental health staff
2. Inmates who reported a sexual abuse

Findings:

The Safe Prisons/PREA Plan (3/18) addresses the standard in the policy. Responding to an allegation of sexual abuse requires a coordinated effort between unit security staff, the Office of the Inspector General (OIG), medical and mental health services, and victim advocates (where available) or an Inmate Victim Representative (OVR). The following procedures provide a systematic notification and response process following a reported sexual abuse incident. A physical examination should be performed in all cases of sexual assault, regardless of the length of time which may have elapsed between the time of the assault and the examination. All inmates who present with complaints of sexual assault/abuse will be immediately evaluated, examined and appropriately referred for required services. A brief history may be obtained by nursing staff.

The facility physician/mid-level practitioner and ranking security officer are to be notified. Referral Process: During regular business hours, clinical assessment is completed by a QMHP. After hours, a ranking officer will communicate with nursing staff who will complete the psychiatric symptoms nursing protocol and contact the on-call psychiatric provider for disposition/order.

The auditor reviewed the facility operating policies and procedures along with secondary documentation submitted with the pre-audit questionnaire; observed facility practices; reviewed data and documentation provided by the facility staff; and interviewed inmates and staff during an on-site visit and site review of the facility. A telephonic interview was conducted with the SANE/SAFE nurse on 4/11/19. The facility transports all victims of sexual abuse to a local hospital where the forensic exams are conducted offsite by a certified SANE/SAFE nurse on-call 24/7.
