# Audit Findings

## Audit Narrative

The Prison Rape Elimination Act (PREA) audit of the Jordan-Baten Correctional Facility was completed on September 27-29, 2017 by Delbert Longley, Certified PREA Auditor. The PREA audit commenced after the conclusion of the ACA security audit, which this auditor was a team member. Prior to the on-site audit, Jordan-Baten Correctional Facility policy and procedures as related to Prison Rape Elimination Act (PREA) were reviewed. Standards were taken in a chronological order, and thoroughly compared to the relevant policy and procedure. Several pieces of supporting documentation were provided reviewed as well.

Before the start of the audit, the auditor was supplied with a list of offenders sorted by housing units, a list of offenders with special designations, and a list of facility staff. From these lists offenders and staff were randomly selected to be interviewed during the audit. From these list, staff and inmates that were chosen at random by selecting every fifteenth name on the alphabetical list. At least two inmates from each pod were selected.

The on-site visit included a tour of the facility. Several informal interviews with staff and offenders were completed. The information obtained assisted in developing interview questions to be asked during the formal interviews. Additional files and records including, medical records, mental health files, and clarification or additional documentation, that was needed, was reviewed. 69 inmates were interviewed, formally and informally. This includes one disabled, six less than English proficient, six LGBTI, and four administrative segregation inmates. 48 facility staff were also formally or informally interviewed.

At the close of the on-site visit, a brief close out was held with Warden David, Lt. Martinez, and Sgt. Venable present. I thanked Warden David and his staff for the assistance, cooperation and hospitality that was given to me during the visit. I further advised I would be in contact with Warden David within the next week to advise of my final decision, and what if any correction action steps that would be needed.

After completing the on-site visit, a review of the notes and documentation that were obtained during the on-site portion were reviewed, I have found the Jordan-Baten Unit of the Texas Department of Criminal Justice to be in compliance with the Prison Rape Elimination Act Standards. This includes one standard that exceeds, 115.17, completing pre-employment and promotional background checks; two not applicable, 115.14, as youthful offenders are not house at the Jordan-Baten unit and 115.35b, as medical staff is not employed by Jordan-Baten Unit; and 43 standards that are met.

It has been a pleasure to work with the conscientious and professional staff of the Jordan-Baten Correctional Facility.

## Facility Characteristics

The Rufe Jordan/Bill Baten Unit is located 7 miles east of Pampa, TX on Highway 60 and 2 miles north on County Road 12 in Gray county Texas. Both units sit on approximately 1211 acres. The Jordan unit was named after Rufe Jordan who was the sheriff of Gray County for 38 years. The Jordan and Baten units are combined into one unit. The Jordan Unit is a minimum-medium security unit that was opened in October 1992. The rated capacity is 1008. In April 1995 the Bill Baten Facility opened with a rated capacity of 420 offenders. May 1, 2014 the Baten unit became a transfer facility and now houses transfer offenders only. The Jordan and Baten units are each enclosed with one 14 feet high chain-link fence system with one to three rows of razor ribbon at the top of the fence. There are no other alarm systems built into the fence design. There is a tower on the Northeast corner of the Jordan unit outside of the secured perimeter fence

that controls entrance/exit for the Jordan unit. Another tower is located on the southwest corner of the Jordan unit outside the secured perimeter fence that controls the rear sally port and has a clear view of the entrance of the Baten unit and parking lot. There are 42 cameras to assist in the surveillance of the facility. The Jordan unit has four buildings that house offenders. Each building consists of three wings; each wing has forty-two, two-man occupancy cells. The Baten unit is a dormitory style facility. There are three dormitories consisting of three wings for each dormitory. The outer wings have 48 beds and the center wing of each dormitory has 42 beds.

Windham School District offers GED preparation and testing, Literacy/Reading, Changes/Pre-Release, Cognitive Intervention, and Vocational Electrical Trades.

The mission of the Jordan/Baten Unit is to provide safety and security for staff, offenders and the public; assist victims of crime and promote positive change in offender behavior in order that they are reintegrated into society.
