Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

The Prison Rape Elimination Act (PREA) re-certification audit for the Mark W. Michael Unit, Texas Department of Criminal Justice (TDCJ) in Tennessee Colony, Texas was conducted on June 5-7, 2019, to determine the continued compliance of the Prison Rape Elimination Act Standards. The audit was conducted by Noelda Martinez, United States Department of Justice Prison Rape Elimination Act Certified Auditor. The auditor conducted the audit through a third-party entity as a contractor and is personally accountable for complying with the DOJ certification requirements and audit findings.

The first PREA Audit was conducted by PREA auditor Barbara King on June 8-10, 2016. The previous auditor conducted the audit with five exceed standards, met 36 standards, and two not applicable. The agency contract was secured through a third-party entity, PREA Auditors of America and not directly by the auditor herself. The contract described the specific work required according to the DOJ standards and PREA audit handbook to include the pre-audit, onsite audit and post-audit. The third-party contract was signed by the auditor on September 3, 2018. The third-party contract assigns the auditors after the contract was contractor executed and clearly identifies the lead auditors responsibilities.

The facility was provided with the pre-audit questionnaire and process map six to eight weeks prior. The agency was prepared prior to receiving the audit information by mailing the USB-drive by FedEx to the auditor on 4/24/19. The agency included an email with a tracking number and instructions on retrieving the confidential information and return of the USB-drive after the 15-month retention period. The auditor received the USB-drive within 2-3 days which included the pre-audit questionnaire, supporting documentation and master folder. The PAQ and additional audit information was expedited in a timely manner allowing follow-up questions & additional documentation as needed. The facility posted the notice of audit with the auditor information six to eight weeks prior to the audit in both English and Spanish for inmates to send confidential information or correspondence to the auditor. Inmates are allowed to write the auditor in a confidential manner marked as legal mail. The notices were posted throughout the facility to include visitation, housing units, restrictive housing, to include lower signs for inmates with disabilities. The auditor verified the audit notice on 4/15/19 and observed the notice on 6/5/19 during the site review and through random inmate interviews. The audit notice was observed by the auditor in the front lobby, visitation, central sally port entrance, education, food service, laundry, and housing units including education, front office, maintenance area, and trusty camp. The auditor received one letter of correspondence and the auditor interviewed the inmate onsite and addressed all issues or concerns. Thirty inmates were asked if they had the opportunity to write to the auditor and if the address was available and all of the inmates interviewed said yes. The auditor noticed of the PREA audit was posted in every area of the facility.

The auditor conducted an internet search regarding facility litigation, DOJ involvement, federal consent decrees, news articles, press clippings etc. The following information was found during the internet search:

https://www.cbs19.tv/article/news/local/exclusive-etx...unit...lives.../501-613375882
https://www.texastribune.org/2019/02/19/texas-prison-heat-death/

The auditor did not encounter any difficulties while completing any portion of the audit. The facility provided the auditor with unfettered access to areas requested by the auditor to include chemical, electrical and janitor closets. There was no pressure during the audit or prohibited access by the facility administration during the tour, the facility administration was transparent with policies, procedures, inmate and staff interviews. The staff encountered by the auditor were eager to assist and provide any information requested by the auditor with no hesitation. Good communication was maintained throughout the duration of the audit with the Senior Warden, Regional PREA Manager, Major and USPPM to include multiple departments heads and additional staff.

Audit Methodology (Pre-Onsite Audit Phase):
The auditor utilized the paper audit instruments which included the pre-audit questionnaire, auditor compliance tool, instructions for PREA audit tour, interview protocols: agency head or designee, warden or designee, PREA compliance manager/contractor, specialized staff, random staff and inmates. The auditor also used the PREA auditor handbook for continued guidance, audit report template, process map and checklist of documents. The auditor established a positive working relationship with the Senior Warden and key facility staff engaging in a productive working atmosphere. The Senior Warden was exceptionally receptive and eager to engage in dialogue and discussions regarding the standards. It was explained to the Warden and his staff about the importance to have unfettered access to all areas of the facility, file review of personnel contractors, volunteers, and inmates to include a variety of sensitive and confidential documentation and information referencing standard 115.401 (PREA Auditor Handbook pg. 32 & 37). The warden understood the importance of the audit process and review and with no hesitation provided access to the auditor. The auditor explained the 30-day interim report if corrective action was required and the 180-day corrective action timeframe, if needed. The auditor explained to the warden the 45-day time frame for the submission of the final PREA report. The auditor also notified the Warden and staff of her responsibilities and expectations as an auditor and the agencies right to report any violation of the auditors code of conduct to the PREA Resource Center. The warden and auditor discussed information regarding the 90-day appeal process.

Point of Contact:
A point of contact (POC) was established with the facility prior to the audit and constant communication was maintained. The auditor and warden discussed the location for interviews and decided that the staff and inmate interviews would be conducted in the field training office (FTO) office with plenty of room and privacy. During the audit planning and logistics phase, the auditor remained engaged with the warden, unit PREA manager, and regional PREA manager regarding the audit process, expectations, and coordinated the logistics of the onsite portion of the audit. The auditor provided the warden with the PREA audit memorandum (PAM) which described in detail the audit process & initial meeting with key staff. The memorandum also discussed the transportation, daily schedule, workspace, adequate outlets, permissible technology (laptop, cell phone) and other necessary audit materials and information required. The auditor focused on multiple sources of information during the audit process applying audit planning & logistics, posting notice of the audit, reviewing facility policies, procedures, supporting documentation and conducting outreach to advocacy organizations.

Outreach/Community Based Victim Services:
The auditor reached out to the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual) and spoke to a victim’s advocacy representative organization prior to the onsite audit to learn about the issues of sexual safety and related concerns. The representative did not disclose any issues regarding the facility. The auditor followed up on any issues or concerns voiced by inmates or staff in a confidential manner during the audit review process. The agency has made numerous attempts with local rape crisis centers to obtain a Memorandum of Understanding (MOU). The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the inmates as required.
During the site review, the auditor observed the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project in the inmate housing units. The auditor observed the rape crisis center information in the following housing units: the front lobby, visitation, central sally port entrance, education, food service, laundry, education, front office, maintenance, and trusty camp. Fifty-three inmate interviews were conducted and two stated they were aware of the information but did not have use for it. The other inmates expressed their knowledge of how to obtain and contact the Texas Association Against Sexual Assault (TAASA) rape crisis center information in the event it was needed. The inmates explained that the rape crisis information was posted in the inmate housing units for easy access and the TAASA pamphlet was located in the law library for inmate use as needed. The pre-on-site audit preparation included a review of the Texas Department of Criminal Justice policies, procedures, training curriculums, pre-audit questionnaire and supporting PREA-related documentation provided by the agency to demonstrate compliance of the PREA Standards and re-certification process. The auditor received an extensive amount of primary and secondary documentation on a USB-thumb drive for review prior to the on-site phase of the audit process from the Administrative Review & Risk Management Office.

On-Site Audit Phase:
On the first day of the audit 6/5/19 an introductory meeting was held with the following staff in attendance: Senior Warden, USPPM; the Regional PREA Manager and additional department heads and staff. The auditor was provided a workspace for staff and inmate file review. The requested files for staff and inmates were made available to the auditor upon request with no hesitation or delay. Following the introductory meeting, the auditor was escorted by the Senior Warden, Regional PREA Manager, and USPPM for the site review. The auditor observed the operations at the facility and was given unimpeded access to areas requested by the auditor. The auditor spent three days on the unit to observe and assess the day-to-day practice of the staff’s interaction and promotion of the overall sexual safety. During the site review, the auditor interviewed food service, laundry and random correctional officers regarding the reporting and notification process. The staff interviewed were able to articulate the process in a consistent manner. The auditor reviewed the following functions to include intake and risk screening, cross-gender announcements in housing units, cross-gender viewing in housing areas, grievance boxes are located in the main inmate dining area, zero-tolerance posters, auditor notice of onsite visit, access to reporting entities, housing activity, restroom and shower procedures, staffing ratios, cameras and surveillance deployment, working telephones, and supervision practices.

Summary of Corrective Action: The auditor recommends no corrective action. (if any)

The facility required corrective action for Standard 115.82: Access to emergency medical and mental health services. In addition, the auditor determined the facility exceeded five standards which included 115.11, 115.18, 115.31, 115.33 & 115.53, due to the exceptional documentation provided & reviewed including primary and secondary; and awareness made throughout the facility of the zero-tolerance of sexual abuse & sexual harassment to include the facility practice. The facility entered into the Corrective Action phase for PREA Standard §115.82 (a) - Access to emergency medical and mental health services. Verification Documents/Data for Auditor Review 115.82 (a) Inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment.

Auditor Findings: The facility had a total of 78 Sexual Abuse/Sexual Harassment (Staff on offender & Inmate on Inmate) Allegations with a review of fifteen investigations. The auditor found one of fifteen investigations that did not meet the required medical/mental health referral/timeframes within 14 days according to the TDCJ policy and in a timely response. The standard requires that inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment. An inmate reported a sexual abuse allegation against a staff member on 4/18/18 and was referred to medical on the I-214 dated 4/18/18; the inmate was not evaluated by medical until a later date. The facility identified the issue and immediately set up an appointment as required for the inmate in question. The auditor and facility administration discussed the standard and the requirements of meeting the policy timeframes set forth referencing 14 days. The auditor recommends training by the PREA Ombudsman office to conduct training for all parties involved in the process referencing standard 115.82 (a) and TDCJ policy. The PREA Training regarding the Michael Unit finding from 115.82 was completed on 6/24/19 in a classroom training with Michael Unit staff, primarily with upper administration, those who conduct PREA investigations, the unit Safe Prisons/PREA staff and medical/mental health staff. The topics of discussion along with the training handout and signature rosters were provided by the auditor on 6/25/2019. The Senior Warden monitored the referral process for a duration of 30 days 7/24/19. No further action is required.

The following evidence was analyzed in making compliance determination:

Documentation Reviewed:
2. New Installation or relocation of video surveillance equipment
4. Safe Prisons/PREA Plan 3/19
7. PD-22 General Rules of Conduct & Disciplinary Action Guidelines for Employees
8. Post Order 07.005 Sergeant of Correctional Officers

   c. Lieutenant of Correctional Officers
   d. Sergeant of Correctional Officers
   e. Maintenance Supervisor
   f. Food Service Supervisor
   g. Staff interviews (supervisor visibility)
   h. Inmate interviews (supervisor availability)

Site Review Observations:
1. Shift Turnout rosters (signature/location of unannounced rounds)
2. Video footage/visibility of supervisors
3. Logbooks (unannounced round signatures)

Findings:
115.13 (a) The TDCJ Safe Prisons/PREA Plan (dated 3/19) addresses the standard: Supervision and Monitoring (§115.13) The supervision of inmate will be conducted by supervisors at each unit shall conduct and document unannounced rounds to identify and deter sexual abuse and sexual harassment. Security staffing: each unit is required to develop, document, and comply with a staffing plan that provides adequate levels of staffing and, where applicable, video monitoring, to protect inmates against sexual abuse and take into consideration all relevant factors.

115.13 (b) The staffing plans were reviewed to include the staffing plan review minutes by the auditor. The Michael Unit staffing plan was reviewed prior to the onsite audit.
The staffing plan provides adequate staffing levels, video monitoring to protect inmates against sexual abuse. Intermediate and Upper-level Supervisors are conducting unannounced rounds on all shifts daily to include night shift with no patterns identified.

115.13 (c) This determination is based on the staffing plan reviews, staffing rosters, interviews conducted with facility intermediate staff or higher-level staff who conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The auditor reviewed the documentation of unannounced rounds covering day and night shifts at different times.

115.13 (d) The supervisors interviewed during the audit articulated the process proceeding the responsibility of addressing issues on alerting staff regarding unannounced rounds. The staffing plan reviewed was comprehensive of the number and placement of staff and amount of video technology (where applicable) that is necessary to ensure the sexual safety of the inmate population to include the facility layout and characteristics, classifications of inmates, and unique security needs and programming. The staffing plan was reviewed for the normal and expected operational conditions that can affect staffing shortages include 1. Constant Direct Observation 2. Hospital Security 3. Off Unit Transports which are not exigent circumstances but foreseeable operational issues. The facility is making their “best efforts to comply on a regular basis” with the staffing plan. The auditor concluded that the facility complies with the standard for the relevant recertification period.

Staff of the opposite gender shall announce their presence when entering an inmate housing area in accordance with applicable post orders. Under no circumstances shall an inmate search be conducted solely for the purpose of determining an inmate’s genital status. During the site review the auditor observed staff of the opposite gender conduct the “knock and announce,” by saying “female on the floor” when entering the inmate housing areas. The Regional PREA Managers provide training for each facility and the USPPM are required to disseminate the training on the facility. The shift supervisors conduct training on PREA related standards to include cross-gender Searches and viewing during shift briefing. 5. Medical staff

**Site Review Observations:**
The facility takes appropriate steps to ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The agency takes reasonable steps to ensure meaningful access to all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The PREA information was displayed on a large bulletin board including: zero-tolerance signs in both English and Spanish, PREA ombudsman/third-party reporting (English/Spanish), Notice of PREA audit (4/19/19),
victim support services, and a photo/description of the Safe Prisons/PREA manager and Safe Prisons officer for the inmate population. This allows inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

**Findings:**

115.16 (a) The Safe Prisons/PREA Plan (3/19) addresses inmates with disabilities shall have access to education in formats accessible to all inmates, including those who are limited English proficient, deaf, hard of hearing, blind, visually impaired, or otherwise disabled, as well as inmate who have limited reading skills.

The agency shall provide qualified interpreters in informal governmental proceedings for inmates who use American Sign Language (ASL) as their primary means of communicating. Assistive Disability Services (ADS), describes UTMB program that is designed to coordinate and/or provide care for inmates with mobility, vision, hearing or speech impairments. Interpreter Services G-51.5; the ADS must be notified and will provide an Advanced, Master, or equivalent ASL interpreter for inmates with a significant hearing loss necessitating written communication and/or the use of sign language as described in the policy. AD 04.25 provides language assistance services to inmates identified as monolingual Spanish speaking. The interviews with the agency head and inmates with disabilities or who are limited English proficient determined that inmates have adequate care needed for communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision.

115.16 (b) The Safe Prisons/PREA Plan (3/19) addresses inmates with disabilities shall have access to education in formats accessible to all inmates, including those who are limited English proficient, deaf, hard of hearing, blind, visually impaired, or otherwise disabled, as well as inmate who have limited reading skills. Inmates with disabilities or who are limited English proficient have equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

115.16 (c) The agency has a policy which prohibits use of inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate’s safety, the performance of first-response duties under §115.64, or the investigation of the inmate’s allegations. The facility documents the limited circumstances in individual cases where inmate interpreters, readers, or other types of inmate assistants are used. In the past 12 months, the number of instances where inmate interpreters, readers, or other types of inmate assistants have been used and it was not the case that an extended delay in obtaining another interpreter could compromise the resident’s safety, the performance of first-response duties under §115.64, or the investigation of the resident’s allegations: 0.

115.42 (d) Placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year to review any threats to safety experienced by the inmate. The PREA Compliance Manager and Staff Responsible for Risk Screening to determine compliance. Interviews:

1. Random sample of inmates
2. Inmates who reported sexual abuse

Site Review Observations:

The auditor reached out to the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual) and spoke to a victim’s advocacy representative organization prior to the onsite audit to learn about the issues of sexual safety and related concerns. The representative did not disclose any issues regarding the facility. The auditor followed up on any issues or concerns voiced by inmates or staff in a confidential manner during the audit review process. The agency has made numerous attempts with local rape crisis centers to obtain a Memorandum of Understanding (MOU). The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the inmates as required. During the site review, the auditor observed the rape crisis center contact information displaying addresses and phone numbers of the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual), Texas Civil Rights Project Prisoners’ Rights Project, Just Detention International and Texas-ACLU Prison and Jail Accountability Project in the inmate housing units. The auditor observed the rape crisis center information in the following housing units: the front lobby, visitation, central sally port entrance, education, food service, laundry, law library and housing units to include the trusty camp dayrooms.

Fifty-three inmate interviews determined they were well aware of how to obtain and contact the Texas Association Against Sexual Assault (TAASA) rape crisis center information in the event it was needed. The inmates explained that the rape crisis information was posted in the inmate housing units for easy access and the TAASA pamphlet was located in the law library for inmate use as needed with over 100 addresses and representatives available. The PREA managers had a sign posted in all areas of visitation with the Victim Advocacy information and how to obtain it.

Findings:

115.53 (a) The Safe Prisons/PREA Plan (3/19) addresses the standard in the policy. Offender Victims Services (OVR’s) attempts shall be made to make a victim advocate from a rape crisis center available to the inmate victim first. If a rape crisis center is not able to provide the inmate with victim advocates services, the unit shall make available a qualified staff member from a community-based organization.

115.53 (b-c) If a qualified staff member from a community-based organization is not able to provide the inmate with victim advocate services, the unit shall make available a qualified TDCJ staff member to provide the inmate with victim advocate services. TDCJ does not detain inmates solely for civil immigration purposes.
Inmates shall be provided access to victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, state, or national victim advocacy or rape crisis organizations.

The unit shall enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible. Inmates shall be informed, prior to giving them access, of the extent to which these communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws. The PREA information was displayed on a large bulletin board including: zero-tolerance signs in both English and Spanish, PREA ombudsman/third-party reporting (English/Spanish), Notice of PREA audit (4/19/19), victim support services, and a photo/description of the Safe Prisons/PREA manager and Safe Prisons officer for the inmate population. This allows inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

Outreach/Community Based Victim Services: The auditor reached out to the Texas Association Against Sexual Assault (La Asociacion de Texas Contra el Asalto Sexual) and spoke to a victim’s advocacy representative organization prior to the onsite audit to learn about the issues of sexual safety and related concerns. The representative did not disclose any issues regarding the facility. The auditor followed up on any issues or concerns voiced by inmates or staff in a confidential manner during the audit review process. The agency has made numerous attempts with local rape crisis centers to obtain a Memorandum of Understanding (MOU). The agency mailed out over sixty letters to local rape crisis centers in attempts to secure an MOU to no avail. The facility currently does not have an MOU with outside victim advocates however, the outside victim advocate information is displayed and made available to the inmates as required. The auditor observed the rape crisis center information in the following housing units: the front lobby, visitation, central sally port entrance, education, food service, laundry, education, front office, maintenance, and trusty camp.

The PREA Ombudsman provides a confidential avenue for inmates to report sexual abuse and sexual harassment, as well as investigating and responding to PREA complaints and inquiries received from elected officials, the public, and inmates. The primary responsibilities of the PREA Ombudsman Office are to:

- Monitor TDCJ’s efforts to eliminate the occurrence of sexual abuse and sexual harassment in correctional facilities;

Security staff and non-security staff first responders were interviewed and described their first duty responder protocols.

115.82 (c) Inmate victims of sexual abuse while incarcerated are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Medical and mental health staff maintain secondary materials (e.g., form, log) documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning contraception and sexually transmitted infection prophylaxis.

115.82 (d) Treatment services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Corrective Action: The facility required corrective action for Standard 115.82: Access to emergency medical and mental health services. In addition, the auditor determined the facility exceeded five standards which included 115.11, 115.18, 115.31, 115.33 & 115.53, due to the exceptional documentation provided & reviewed including primary and secondary; and awareness made throughout the facility of the zero-tolerance of sexual abuse & sexual harassment to include the facility practice. The facility entered into the Corrective Action phase for PREA Standard §115.82 (a) - Access to emergency medical and mental health services. Verification Documents/Data for Auditor Review 115.82 (a) Inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment.

Auditor Findings: The facility had a total of 78 Sexual Abuse/Sexual Harassment (Staff on offender & Inmate on Inmate) Allegations with a review of fifteen investigations.
The auditor found one of fifteen investigations that did not meet the required medical/mental health referral/timeframes within 14 days according to the TDCJ policy and in a timely response. The standard requires that inmate victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment. An inmate reported a sexual abuse allegation against a staff member on 4/18/18 and was referred to medical on the I-214 dated 4/18/18; the inmate was not evaluated by medical until a later date. The facility identified the issue and immediately set up an appointment as required for the inmate in question. The auditor and facility administration discussed the standard and the requirements of meeting the policy timeframes set forth referencing 14 days.

The auditor recommends training by the PREA Ombudsman Management office to conduct training for all parties involved in the process referencing standard 115.82 (a) and TDCJ policy. The PREA Training regarding the Michael Unit finding from 115.82 was completed on 6/24/19 in a classroom training with Michael Unit staff, primarily with upper administration, those who conduct PREA investigations, the unit Safe Prisons/PREA staff and medical/mental health staff. The topics of discussion along with the training handout and signature rosters were provided by the auditor on 6/25/2019. The Senior Warden monitored the referral process for a duration of 30 days 7/24/19. No further action is required.
