#### Number of buildings:

Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.

#### Number of inmate housing units:

Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

No youthful inmates or female inmates are housed at the John T. Montford Unit. The audit was coordinated through PREA Auditors of America, LLC., Cypress, Texas. The audit began at 8:00 AM. The PREA Resource Audit Instrument used for Adult Prisons and Jails was furnished by the National PREA Resource Center. To summarize, there are seven sections, A through G, comprised of the following: A) Pre-Audit Questionnaire; B) the Auditor Compliance Tool; C) Instructions for the PREA Audit Tour; D) the Interview Protocols; E) the Auditor’s Summary Report; F) the Process Map; and G) the Checklist of Documentation.

Following the protocols of making contacts and checking on the posting of notices (posting was initiated through the TDCJ Central Office and the facility, this auditor reviewed each item on the Pre-Audit Questionnaire and additional material sent prior to discussion and the onsite review.

Ms. Brenda German, Administrative Assistance IV provided the PREA standards files for preliminary review, these files were used to complete most of the information on the PREA Compliance Audit Instrument Checklist of Policies/Procedures and other documents in advance to identify additional information that might be required during the site review. Additional information of the John T. Montford Unit was provided upon arrival to Lubbock, Texas.

Facility Characteristics

The John T. Montford Unit is located two miles southeast of the city of Lubbock, Texas. The unit was opened in December of 1994 with a Trustee Camp of 371 offenders. In July of 1995 a secure compound was constructed to house 550 psychiatric offenders in eleven housing areas. In 1996, the Western Regional Medical Facility was constructed and was designed to house 88 offenders. In January 2005, an additional 44 bed medical ward was completed to house long term care offenders. All shower and toilet areas were facilitated with privacy screens & shower curtains which block direct viewing of the opposite-gender. Provisions were made for private showering of transgender/intersex inmates in the medical area if needed. The trustee camp is located at the rear of the facility and has a secure walkway connecting it to the compound. Offenders are searched coming and going to the camp which is a prototypical design for Texas. There are four dormitories & four other structures provide for food service, visitation, medical, recreation, and administration. The camp is surrounded by a single twelve-foot fence and seventeen perimeter lights. It has a large outdoor recreation area with a covered structure for shade and weather and a large indoor area for recreation. Two kitchens and two dining rooms provide food services to the population. Satellite feeding by thermal trays is provided for the mental health and the medical units. The restroom areas provide privacy from staff of the opposite gender preventing all cross-gender viewing. Healthcare services at the John T. Montford Unit are delivered by Texas Tech Health Sciences University/Correctional Managed Health Care. Texas Tech has provided the health/mental health services since 1995. The medical department averages about 1,000 appointments a month. The PREA signs are displayed throughout the medical department. The medical department is well facilitated with medical staff for the Psych Montford Unit/Regional Medical Facility.

POLICY AND DOCUMENT REVIEW:

Agency Policies and TDCJ Safe Prisons/PREA Plan.

FINDINGS:

Agency Policies and TDCJ Safe Prisons/PREA Plan, addresses this provision. The agency reported there were a total of thirty-six (10 Secure/08 Residential Reentry & 19 Transitional Treatment) contracts for the confinement of inmates that the agency had entered or renewed with private entities or other government agencies.

115.12(b)

POLICY AND DOCUMENT REVIEW:

Agency Policies and TDCJ Safe Prisons/PREA Plan.
INTERVIEWS:
Contract Administrator

FINDINGS:

Agency Policies and TDCJ Safe Prisons/PREA Plan, addresses this provision. The agency reported the (37) agency-wide contracts require the agency to monitor the contractor's compliance with the PREA standards.

The agency's Contract Administrator was interviewed and reported she is required to maintain regular contact with every inmate placed in a contracting facility. If there are concerns, agency protocol requires the inmate be removed from the facility and the facility allowed time to make corrective action and address the concerns. Corrective actions are addressed before the facility is reconsidered. Notification would also be made to law enforcement.

The Contract Administrator annually collects credentialing documentation for each facility: facility license; staff licenses or certifications; daily schedule; and monitoring reports or the licensing agency's website regarding the facility’s status; and tours the facility.

New facilities being considered for contracting purposes follow a vetting process, including reference checks with other counties, with all information being presented to the agency's leadership for review and approval. All placements involve the input of the inmate being considered for placement in the facility. The Contract Administrator reported PREA compliance results are completed and that the PREA Coordinator has implemented a tracking process for this. A review of the agency policy, agency contracts and interview with the contract administrator and PREA Coordinator demonstrated the agency meets the requirements of this provision and this standard.

**POLICY AND DOCUMENT REVIEW:**

Agency Policies and TDCJ Safe Prisons/PREA Plan

**INTERVIEWS:**

Warden, PREA Coordinator and PREA Compliance Manager.

**FINDINGS:**

Agency Policies and TDCJ Safe Prisons/PREA Plan, addresses this provision. The facility submits a weekly and monthly staffing plan/report to the agency. The facility has developed a staffing plan to safely meet the PREA and security needs, the facility fills the mandatory positions to meet the necessary post staffing requirements when vacancies occur. The facility uses overtime/comp time or collapsing non-custody positions to meet a safe staffing mandate required by TDCJ as written on their annual staffing plan.

The facility reported deviations from the custody staffing plan within the past 12 months. The inmate population to which the staffing plan is based is 950 inmates.

Unannounced rounds are conducted for all shifts and are recorded by senior management staff. Post logbooks were reviewed by the Auditor for verification.

Staff reported blind spots have been identified and Staff reported a staffing plan is in place to eliminate and reduce blind spots.
Staff reported they follow the agency policies and PREA standards, take into consideration the composition of the inmate population and their needs, scheduled programming, and staff placement. Additionally, staff reported other relevant factors considered include the needs of the LGBTI inmates and incidents of substantiated and unsubstantiated sexual abuse. Staff reported, to ensure compliance with the staffing plan, they monitor staffing during shifts, review folders, check-in sheets, documentation, inmate files, thoroughly review serious incident reports, and audit sheets. During the onsite audit, a review of the agency policy, staff interviews, and the agency’s staffing plan indicated all the elements are addressed.

INTERVIEWS:

Intermediate and Higher-Level Facility Staff

ONSITE REVIEW:

A review of a log entries indicated the upper management unannounced rounds, which are separately documented, are documented and provide additional supporting documentation.

FINDINGS:

Agency Policies and TDCJ Safe Prisons/PREA Plan, addresses this provision. Logbooks are used to document unannounced rounds, which are the responsibility of the posted officer to maintain. Intermediate and Higher-Level Facility Staff were interviewed by the Auditor.

Staff reported different strategies utilized to prevent staff from alerting other staff that an unannounced round was being conducted. A review of the agency policy and staff interviews indicate multiple levels of management conducting unannounced rounds on all shifts. The senior management rounds are also documented in the post logbook, which the Auditor determined the facility meets the requirements of this provision. The medical and mental health staff are accompanied by security when they make their rounds to the inmate population, this practice gives the medical and mental health inmate population nearly constant supervisor and monitoring, which exceeds this standard.

INTERVIEWS:
Random Selection of Staff, and Random Selection of Inmates.

ONSITE REVIEW:
During the onsite review of the facility, the Auditor noted every time staff of the opposite gender entered a housing unit, the staff would announce themselves accordingly.

FINDINGS:
Agency Policies and TDCJ Safe Prisons/PREA Plan, addresses this provision. During the onsite audit, the Auditor observed there is no opportunity for staff of the opposite gender to view inmates while performing bodily functions.

Staff interviews reflected staff are aware of this standard and are required to announce themselves when entering a housing unit with inmates of the opposite gender and inmate interviews reflected staff of the opposite gender consistently announce themselves upon entering their housing units.

Inmates interviewed reported staff of the opposite gender do announce themselves and that they would never be in a state of undress in front of opposite gender staff.

A review of the agency policy, staff and inmate interviews, and observations of staff announcing themselves when entering a housing unit with inmates of the opposite gender has demonstrated every precaution is made to ensure inmates are afforded privacy when using the toilet, showering, and changing clothes.

TDCJ and the Montford Unit policy required female correctional staff to announce their presence in each housing area every time they enter the area.

In the trusty dormitory restroom areas, there are cloth partitions and/or visual blocks at the entrance to the restroom area to prevent viewing. In wheelchair accessible dormitories, the inmates have individual ADA/medical bathrooms for privacy.

List of background checks on current employees.

FINDINGS:

Agency Policies and TDCJ Safe Prisons/PREA Plan and a list of background checks on current employees, address this provision. Agency policy defines staff to include volunteer or contracted program services staff. The agency contractors and volunteers are all subjected to a criminal background check, including a background check. Criminal background checks for new hires and contractors are completed by HR Headquarters in Huntsville, Texas. Interviews of 12 randomly selected staff, contract staff and sampled HR files indicated timely criminal background checks. All files reflected the three required questions in this provision are included and staff affirmed by signing the form.

Recruitment files are handled and processed in HR Headquarters in Huntsville, Texas. Hiring occurs at multiple direct hire and academy sites throughout the state. The agency policies require job applicants to have background checks completed looking at any issue of prior sexual misconduct. All contractors are screened by using the same process.

The agency reported 129 (100%) new employees/applicants background checks were made and 2 (100%) contractor background checks were completed in the past 12 months. Documentation and files were reviewed by the Auditor to confirm the process. Agency policies also require an annual re-check of all employees and contractual re-checks for contractors.

The agency policy does indicate that any employee/contractor misconduct or false reporting is subject to the possibility of termination of employment. The HR Manager also indicated that the agency would respond to any request for information from an institutional employer seeking information on a former employee.

POLICY AND DOCUMENT REVIEW:
Agency Policies and TDCJ Safe Prisons/PREA Plan.
Randomly selected inmate files.
INTERVIEWS:
Staff responsible for risk screening: Intake and medical staff, and randomly selected inmates.

FINDINGS:

Agency Policies and TDCJ Safe Prisons/PREA Plan, address this provision. Staff interviewed reported inmates are screened normally within two hours and that they would continue to do follow-up with an inmate periodically.

Staff reported if any risk factors were to be detected, the inmate would be referred to the appropriate staff for proper follow-up and reclassification if needed.

Inmates interviewed verified staff do conduct periodic follow-up questions after the intake process is completed.

Inmates reported being seen by medical or mental health staff immediately, after the follow up questions, which was based on the information staff secured and indicated an appropriate agency response based on the new information provided by the inmates. Based on staff interviews and the review of inmate case files, it was determined the initial risk screening process is completed well within the 72-hour requirement.

115.41(b)

POLICY AND DOCUMENT REVIEW:
PREA Screening Tool

FINDINGS:

The objective screening instrument is accomplished within the first 24 hours of arrival. The screening document does ask questions to determine if any inmate might have any prior history as a sexual abuser and the responses are documented. Based on the inmate record and responses, a decision is made to properly house the inmate.

Intake staff conduct the screening, and the information is secured.
